Patriotism in Business

There has been nothing better in
connection with the war than the
attitude of the municipal councils
throughout the province. They have
risen to the occasion in a way that
challenges comparison with other
governmental bodies, and with many
of the commercial and financial in-
stitutions of the country. It is highly
desirable that public business and all
business should go on just as usual,
and the municipal councils seem to
have kept this in view.

We do not refer merely to the
patriotic action of many municipali-
ties in providing for assistance to the
government or to local detachments
of troops, but to the maintenance of
ordinary routine and the dispatch of
affairs which might, under more
timorous control, have been left over
for a time less fitting for settlement
than the present.

There is no time like the present for
any business that can legitimately be
transacted. Postponements will only
weaken confidence and increase the
reluctance of others to go ahead with
their projects.

There was vigorous testimony
borne at the recent meeting of the re-
presentatives of municipalities in
connection with the Provincial Indus-
trial Association, to the willingness
and desire of the cities and towns to
do all that could be done, and there
were many ingenious suggestions
made about carrying on business and
providing ways and means.

Berlin was a case in point, with the
plan of borrowing from the citizens
at five or six per cent. the money
which the banks would not lend, and
would only pay three per cent. upon,
to the depositors.

Hamilton comes along now with the
resolve to buy the mountain face as a
park. This is not courage or rash-
ness, but commonsense. Hamilton
cheerfully took her part in the
proposed pavement of the Lake Shore
road. Other places are doing a lot in
keeping the life of the community
going at the ordinary pulse-rate.

We do not need to get into a fever,
and we should not be stricken with
paralysis. There are many agencies
in Toronto which are liable to come
under the influence of one or other of
these weaknesses. It is deeply to be
regretted that this should be so. All
who have any influence upon the pow-
ers that be in any body or corporation
or official authority should do what
they can, not to retard any movement
or any business development that will
help to keep the business on normal lines,
but to keep the opportunities for
employment which are the most direct
means of alleviation of the present
social crisis.

We have nothing to criticize in the
attitude of the city government here.
The administration evidently fully
realizes the necessity of keeping things
moving. Any red-tape difficulties
which occur in the treasurer's depart-
ment should be overcome as quickly
as possible. If the Germans were
levying a hundred million indemnity
on Toronto with an army in the
streets the treasurer would not be
asked if he were authorized by by-
law to make the payments. He would
pay out wonderful sums or swing for
it. We ought to be grateful that we
are not as Belgium is, and we can
show our gratitude practically by re-
solving to allow our citizens to be
placed in any position approximating
to that of our unfortunate allies.

Let business go on as usual. This
is the most patriotic thing that any
man can take part in, who is not
shouldering his gun at the front.
Those who block the wheels are
traitors to their country.

Waiting With Confidence

Following the same policy that pre-
valled during the long series of en-
gagements that resulted in the Ger-
man armies of invasion falling back
to their present positions a veil of si-
lence has been dropped over the field
of war in Western Europe. Little or
nothing of real importance has been
disclosed, but the general assurance is
given that the situation is favorable
to the allies' arms. Confidence will be
increased by the evident satisfaction
which marked Lord Kitchener's re-
view of the position and the high tri-

bute he paid to the skill and resource
of the British commander-in-chief.
Fortunate indeed has the empire been
in having at the helm of affairs a gov-
ernment so able, a secretary of war
so competent and untiring, and leaders
by sea and land who so command the
affection and devotion of their officers
and men.

The empire awaits the issue of this
gigantic struggle with the calmness of
assurance. In it is nothing of self-
deception, no infatuation that the re-
cord is to be free from occasional re-
verses and failures. There are inevit-
able in a campaign covering so wide an
area, and presenting endless varieties
of locality and circumstance. But
the empire believes that only one end
is possible, whatever the temporary
fluctuations of fortune. One great
and silent ally the countries that are
fighting for national independence
have, and that is time. Germany has
already lost the advantage of swift
action. The morale of the German
armies too has been badly injured,
and that means much to men taught to be-
lieve themselves invincible.

No Racial Domination

Underlying all the arguments used
by German apologists who seek to
transfer responsibility for the Pan-
European war to the shoulders of the
allies is the assumption that some
one race must dominate every other.
This is the fatal weakness of their
pleas, and supposing it to be true no
basis for a final world-peace, which
indeed can only rest on recognition of
racial rights and national independ-
ence. A domination such as that
which Germany seeks in Europe and
indeed in the world cannot last. It
may succeed for a time, as similar
efforts have succeeded in the past, but
no rule resting on force and regardless
of the consent of the governed can
possess durability. Prussia has not
conciliated Poland nor Alsace-Lor-
raine and never will while it seeks to
compel by the iron hand what can
only be induced by a just and liberal
policy.

Germany claims right to a place in
the sun, and to that it is entitled. But
it is not entitled to an exclusive place
or to deny to other nations—even the
smallest and weakest of them—the
right to their fair share of the sun-
shine. But the divinely-appointed
rulers of Germany—as they so believe
—hold themselves at liberty to destroy
the independence of other nations.
They wish to bestride the narrow
world like a Colossus and to reveal at
the sight of pettier nations walking
under its huge legs and peeping about
to find themselves dishonorable graves.
No nation must or should be dominant
except in the sense that it leads the
world in justice, freedom, order and
respect for the rights of even the weak-
est of its partners in the common-
wealth of the world.

TO PREVENT LOSS.

Editor World: Would you kindly in-
sert a paragraph in your paper to the
effect that any parties shipping parcels
by express or registered mail to men
in the 48th Highlanders should en-
close receipt for same in a letter ad-
dressed to the commanding officer, so
that the transport section may look
after these parcels and hand them
over to the men, thus avoiding loss.

CONCERT TO ATTRACT ADDITIONAL RECRUITS

Musicals Will Be Given on Tues-
day to Induce Men to Join
Regiments.

A recruiting and promenade concert
is to be held by the Governor-General's
Body Guard and the Mississauga
Body in the armories on Tuesday
evening, September 22. The event will
be under the patronage of the lieut-
enant-governor and Mayor Hocken,
and the latter will deliver a speech.
The bands of both regiments will be
present and will give a musical pro-
gram, and other musical numbers will
be given. The object of the entertain-
ment is to attract men to the regi-
ments. The officers are anxious to get
as many men as possible for a month's
training at Long Branch, with the ob-
ject of having them ready for the sec-
ond contingent.

MANY JEWISH SOLDIERS IN FIRST CONTINGENT

One hundred and fifty men of the
Jewish faith are members of the vari-
ous Canadian corps at Valcartier.
Alex. Gurofsky of Toronto has written
home that the commanding officer of
the camp has given them leave of ab-
sence for three days to celebrate the
high holiday of the Hebrew New Year,
Monday and Tuesday, Sept. 21 and 22,
at Quebec City, where they will be the
guests of co-religionists.

ARE RIFLE CLUBS FUN OR SERIOUS BUSINESS?

Board of Control Granted Por-
tion of Amount Asked—Thirty-
Sixth Needs Funds.

Are rifle associations just to pro-
vide "pretty good sport" or are they
a needed preliminary to active mil-
itary service? If the latter they de-
serve aid. If the former they do not.
This is the board of control's attitude
revealed yesterday when applications
for grants were made by several city
rifle clubs.

The Toronto Rifle Association want-
ed \$1800 but got only \$800. The North
Toronto Association was modest, asked
for \$200 and got it.

The 36th Peel Regiment asked for
assistance, a hall, rifle racks, etc.,
were needed to prepare a second draft
for overseas service. The annual ex-
pense was \$2200. The board granted
\$1800, sufficient for six months.

In an advertisement published else-
where in this issue of the World, the
Department of Game and Fisheries of
Ontario issue the following notice to
fur buyers:

Firms or persons dealing in protect-
ed fur-bearing animals, i.e., beaver,
mink and muskrat, or the skins or
pelts of protected animals, i.e.,
beaver, otter, mink, muskrat, moose,
reindeer, caribou and deer, are re-
quired to obtain a license in accord-
ance with sub-section 5 of section 41
of the Ontario Game and Fisheries
Act. The fee for such license is fixed
at \$2.00, by clause (d) of section 49 of
the same act.

Dealers will note that the close sea-
son in Ontario for beaver and other
does not expire until November 1st,
1915. Firms or persons dealing in
comply with the above requirements
will be liable to a penalty not exceed-
ing \$50.00 in the case of mink and
muskrat and \$100.00 in the case of the
other protected animals for each of
these pests alone or in combina-
tion with sub-section 1, section 47, of
the above-mentioned act. Applications
for licenses, enclosing fee, to be ad-
dressed to the department at Toronto.

To Cure Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deaf-
ness and head noises will be glad to know
that this distressing affliction can be suc-
cessfully treated at home by an internal
medicine that in many instances has
effected a complete cure after all else
has failed. Sufferers who could scarcely
hear a watch tick have had their hear-
ing restored to such an extent that the
tick of a watch was plainly audible seven
or eight inches away from either ear.

Therefore, if you know someone who
is troubled with head noises or catarrh
or catarrhal deafness, cut out this for-
mula and hand to them and you will
have been the means of saving some
poor sufferer perhaps from total deaf-
ness. The prescription is nearly ninety
years old and is made as follows:

Secure from your druggist 1 oz. Par-
mit (Double Strength), about 75¢ worth.
Take this home, and add to it 2 pint
of hot water and 4 oz. of moist or granu-
lated sugar; stir until dissolved. Take
one tablespoonful four times a day.
The first dose promptly ends the most
distressing head noises, dizziness, cloudy
thinking, etc., while the hearing rapidly
returns as the system is invigorated by
the tonic action of the treatment. Loss
of smell and mucous dripping in the back
of the throat are other symptoms that
show the presence of catarrhal poison,
and which are quickly overcome by this
effacious treatment. Nearly ninety per-
cent of all ear troubles are directly
caused by catarrh; therefore, there is
but few people whose hearing cannot be
restored by this simple home treatment.
Every person who is troubled with head
noises, catarrhal deafness, or catarrh in
any form should give this prescription a
trial. There is nothing better.

Important.—In ordering Parmit always
specify that you want Double Strength;
your druggist has it or he can get it for
you; if not, send 75¢ to the International
Laboratories, 74 St. Antoine street, Mont-
real, P.Q., who make a specialty of it.

WOULD CULTIVATE SYNDICATE LANDS

Vast Area of Vacant Suburban
Subdivisions Might Be
Utilized.

WEEDS NOW A MENACE

Would Provide Work for Un-
employed—Sell Produce
at Cost.

Editor World: Believing The Toron-
to World to be always ready to pro-
mote any enterprise for the public's
benefit I would like to make a sug-
gestion in your paper that if carried
out successfully would help in a small
way to give work to the unemployed,
and would be a help toward reducing
the high cost of living.

Within a radius of 20 miles of Tor-
onto there are thousands of acres of
the best land in Ontario lying idle
and laid out in subdivisions. This
land previous to be sold to real estate
speculators, was capable of producing
at least twenty dollars' worth of food-
stuffs to the acre each year, and is
now not only non-productive, but in
many instances grown up with weeds,
the seeds of which are spreading over
the whole neighborhood, and if allow-
ed to multiply will take years to de-
stroy where they grow and also be a
great menace to the farmers adjoining.

The orchards in the same way are
being destroyed by caterpillars. In
one section alone between North Tor-
onto and Newmarket, the destruction
of these pests alone will amount to
thousands of dollars. The trees are
also dying out for want of pruning
and cultivation.

I would suggest that steps be taken
at once by the Toronto board of trade,
or any other body of influential men,
to form a company for the purpose of
eradicating these pests, and to em-
ploy the unemployed. I feel sure, would be willing to co-
operate as they are now receiving no
revenue from their investments, and
would not expect any remuneration
with the exception of taxes. And a
field of what would be a great im-
provement to a field of weeds, and
would also help to feed those who have
gone to defend the flag and also those
who are marking time at home. All
products to be sold at the cost of pro-
duction, allowing 6 per cent. for
capital invested, and a maximum wage
of \$1.50 per day for those employed.
Experts from the Guelph Model Farm
could be employed to determine what
should be sown in the different soils
to give the best and most profitable
results.

In conclusion I thank you for your
valuable space and may say that I am
willing to devote any time or money
at my disposal towards the promotion
of this enterprise without the expecta-
tion of any profit therefrom, other
than the feeling that I have been of
some service to the empire.

A REMARKABLE SERIES OF ILLUSTRATIONS FOR A HISTORY

Sixteen Great World-Historical
Paintings Reproduced in
Original Colors.

The publishers of Larned's History
of the World, now on distribution by
the leading newspapers of the coun-
try, have spared no pains or expense
in getting up the most attractive
illustrations ever designed to em-
bellish a work of history. Sixteen
of the greatest world historical paint-
ings are reproduced in original colors.
Among the famous artists are Cabanel,
Sir Edward Poynter, Albrecht Durer,
Broek, Piloty, Copley, Munkacsy,
Trumbull, Muller, Gilbert Stuart,
Pavis, Gerard and others. These cele-
brated painters are represented in
some of the thrilling scenes of history
and in portraits of great rulers and
statesmen. They merit a frequent in-
spection and do much towards an edu-
cation in art. Many of our readers
who have obtained the work consider
these illustrations alone as worth the
small distribution expense asked by
this paper. The coupon elsewhere in
today's issue explains the nature of
what may well be called a gift-dis-
tribution of Larned's great historical
work in five volumes.
