

INSURANCE NOTES.

Winnipeg policy holders in the Standard Life Insurance Company of Edinburgh are receiving their periodical division of profits from the company and are well pleased with the returns being made to them, the amounts being 25 per cent better than at the time of the last division. The Standard divides its profits every five years.

The Pelican Life Insurance Company of London is 104 years old. The building in which the head office has been located for over a hundred years was previously the White Horse Tavern, mentioned in Pepys's diary. It is worth while recording that among the policyholders of the company have been such striking personalities as William Pitt, Sir Robert Peel, Benjamin Disraeli, Sir Walter Scott, Byron, Shelley and Lamb.

A report from Chicago says: Under a resolution adopted by the supreme lodge of the Knights of Pythias directing the supreme chancellor, supreme vice-chancellor and the president of the board of control of the endowment rank to prepare an address to the order, an address has been issued to the members, reciting the proceedings of the special conference of the supreme lodge which has just been held in this city. The official figures of the result of the examination by the insurance departments of Illinois and Connecticut as given in the address, show that on June 1, 1901, the gross assets upon the books were \$625,289, of which the sum of \$290,384 was not admitted, leaving net assets of \$334,905. The actual liabilities for the same date were \$550,143, thus leaving a deficit of \$215,238. The address formally pledges the order to protect every beneficial certificate in force in the endowment rank and full and prompt payment of all claims due thereon.
