finister of Finance Says Greater Economy Would Help Balance of Trade,

Help Balance of Irade.

Sir Thomas White, minister of finance, arrived in Toronto from Washington yesterday and left again at night for Ottawa, where he will resume his duties after an absence of some months. He was in the United States capital on business, following a holiday in California, where he was recuperating. Questions pertaining to the financial relations of Canada and the United States were discussed, and one object of his visit to Washington was to take up with Lord Reading, British ambassador, questions in regard to the financing of British purchases in Canada.

These purchases, he said, amounted to \$25,000,000 a month, in addition to a \$40,000,000 contract for cheese. The financing of the movement of the western crop next fall also received consideration. White the question of exchange was very complicated. Sir Thomas said that the disposition of the United States treasury was favorable to bringing about an adjustment. He was emphatic in his statement that Canadians were consuming too much, not only luxuries, but other things. Too much was being spent on crnaments and musical instruments, said this counted against Canada's balance of trade. Greater economy would have to be practiced if the Canadian dollar was to be quoted at par internationally.

If the strictest economy was made to prevail he was sure there would be ample funds to balance international accounts and keep exchange within reasonable limits. Permission I ad been secured, he said, for the issuance of certain Canadian securities in New York.

"BEGINNINGS OF MUSIC" SUBJECT OF ADDRESSES

Charming in every respect was the causerie given at Government' House yesterday afternoon by Miss Hope Morgan and Mrs. Grace Harris—formerly Miss Grace Smith—the two artists presenting a delightful program of vocal and instrumental music preceded in each case by a talk on the origin of the theme treated.

Speaking of national music, Miss Morgan said that its development was influenced by locality, history, temperament, environment and other factors. Rhythm was the foundation of all music, even the savage races factors. Rhythm was the foundation of all music, even the savage races had rhythm, some in a very perfect manner. The oldest songs on record were those of France in 813. In the church the music was divided into fiturgical music and melodic hymns, Latin being used until 1296, when French was introduced into the hymns. Miss Morgan gave examples of folk songs and dances in French

of folk songs and dances in French and Fiemish, her finished interpre-tation being very much enjoyed Mrs. Harris stated that dancing in its primitive sense was an expression of those who used it. Later it was introduced into the recreations of the home and country and became very popular at the court. The speaker illustrated the attractions of dance music by playing the gavotte of the 17th century, the galliard of the time of Elizabeth and the stately minuet

Morgan expressed apprecia-behalf of the Speranza Club, she is vice-president, to room. Mrs. W. G. A. Lambe, president of the society, and a large number were present, the proceeds to go to the patriotic work of the club.

IS DANGEROUS

Recommends Daily Use of Magnesia
To Overcome Trouble. Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

it is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloat right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomachpurposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

The Safest Matches in the World Also the Cheapest

is a strong, stout, thick thing, stretching far under the water, or stretching far under the water, or bog. I have known one very earnest person who set out with the determination of acquiring a home watergarden, succeed in Footing up sufficient of the plant to bring home, and fortunately, the stalks were not too badly bruised to survive. This specimen, however, altho it has survived several years has deteriorated sadly in size, so that the inflorescence now produced is not much larger than a couple of inches. But it is still very lovely for all that. lovely for all that. lovely for all that.

It is a couple of years since I discovered my first specimen, in one of the quiet back pools of the Hum-

ber-and I may say I was more than surprised. I left it undisturbed-but Surprised. I left it undisturbed—but have never seen it reappear, so that it is to be feared some vandal, in attempting to gather the odd thing, so bruised the root as to cause death. Many fine specimens, however, are to be found in water regions less frequented than those near a city. In the old marshes up over the hill, and around Bond Lake and the swampy places nearby, a number of large plants come up year after year. Several plants have been gaported to me in and around Black Creek, and among the low places back in the country there should be some good old plants.

The water arum is quite hardy as to find sufficient protection for the fire department has been frequented to take charge of No. 1. The water arum is quite hardy as to the winter, the roots going so deep to the winter, the roots going so deep to the fire department has been frequented to take charge of No. 1. The water arum is quite hardy as to the winter, the roots going so deep to my encyclopediae. In Swit-other the plants is in years had pains at the left side of the back. If I walked across the kitchen date, if I walked across the kitchen date of the back. New Novel by Well-Known Author to Be Published Here Scon.

"Willow the Wisp" is the title of the third novel by Archie P. McKishnie. The book will appear this month, the publishers being Houghton Mifflin, of Boston, and Thomas Allen, of Toronto. Large editions of the novel are being placed in Australia and Great Britain. Mr. McKishnie is worthy of all the success his new book promises, being one of the Canadian writers who has stuck by his own country in solts.

The pink blossom is not really the blossom at all. It is merely a tall and beautiful canopy against which the blossom at all. It is merely a tall and beautiful canopy against which the thick, club-shaped spadix, covered round and round with tiny golden blossoms, foils itself effectively.

Some of the plants grow in spots quite accessible to the searcher, so that the tall stem may be plucked; It is no easy matter, either, to gather a specimen, because the stalk is of a fibrous and gluey nature, bruising divided the club by Mr. Crang. The event was patronized by 800 people. The film of Mary Pickford was lent by the blossom at all. It is merely a tall and beautiful canopy against which the blossom at all. It is merely a tall and beautiful canopy against which the blossom is not really the blossom at all. It is merely a tall and beautiful canopy against which the thick, club-shaped spadix, covered round and countries by 800 people. The film of Mary Pickford was lent by the blossom at all and beautiful canopy against which the blossom, foils itself effectively.

Some of the plants grow in spots quite accessible to the searcher, so that the tall stem may be plucked; It is no easy matter, either, to gather dive wire for Mrs. White, the president of the club by Mr. Crang. The event was lent by the blossom at all and controller Maguire spoke and thanked the club for the splendid work done thruther. Only consisting of 20 members, the wines of solders who were in need of help. At the club by Mr. Crang. The sers, the women have done much work in assisting the wives of soldiers who were in need of help. At the close of the performance there were three cheers given for Mrs. White, the president of the club. Among those present were Mrs. Holmes, first vice-president; Mrs. E. H. Eagen, second vice-president; Mrs. W. Dunseith, secretary; Mrs. H. Heftion, treasurer; Mrs. R. H. Cameron, Mrs. Moore, Mrs. Mrs. W. H. Barker, Mrs. Charles Jolliffe, Mrs. Menzles, Miss. B. Stewart, Mrs. H. W. Van Every, Mrs. J. Scholes, Mrs. A. Hobson, Mrs. Proctor, Mrs. J. Maclean, Mrs. Charles Edwards, Mrs. Wright, Mrs. Street, Mrs. Macdonald, Mrs. J. Crang, Mrs. Kennedy, Mrs. W. H. Laishley. Rev. Peter Bryce made a brief speech on the aims and work of the club. Six members of the club acted as ushers, and there was an orchestra playing during the afternoon.

Thru the courtesy of the C.P.R., the Toronto Humane Society has been lent the offices at 55 West King street for its flag day, which will take place on May 25. The office will have a telephone installed today.

Mrs. MacMahon, Jarvis street, has returned home after spending the winter in California, Hon. Dr. Pyne is about again after his recent serious illness, and met many congratulatory friends yesterday.

Miss Madeline (Bassie) Vidal is in England, where her marriage to Captain A. Le Royer, M.C., Royal Flying Corps, as to find sufficient protection for themselves.

POTATO PREPARATIONS.

potato crop this year it is bet-ter not to put off any longer getting ready for a bumper getting ready for a bumper yield of potatoes. Tubers seem to thrive freat in a moist, cloudy and temperate climate, but providing there is sufficient moisture in the soil and the growing season is long enough, they are not at all fastidious in this respect. The ideal soil for potatoes is a rich, deep, friable, warm sandy loam with good natural drainage and well supplied with decayed or decaying vegetable matter. The potato requires a great deal of moisture and will not flourish in cold soil where the water is stagnant near the surface, so that thore drainage is very essential to success.

As a rule seed potato should

sential to success.

As a rule seed potato should be kept where they will not sprout too soon, for if they do, the sprouts are liable to be broken off at the time of planting. They may sprout again, but that takes time and reduces their vitality. It pays, however, to sprout a few in the full light by spreading them out on the floor of the attic. If these are then planted out with care they will produce potatoes several weeks earlier and will generally give a larger yield than those planted later.

Announcements

Friday evening, 17th May, at 3.15, Major Arthur Kirkpatrick will lecture on his experiences as a prisoner in Germany. All friends of the college are invited.

THE ASSOCIATED KIN of Toronto meet. Friday evening, May 17th, Young Men's Christian Association Auditorium, Cellege street, for organization. All interested should attend.

CHURCH CHOIR CONCERT. Western Congregational Church Assisted By Other Artists.

Last evening in the Western Congregational Church, Spadina avenue, in charge of Rev. Bertram Nelles, a very interesting program was given by the church choir and assisting artists. Miss Jessie Alexander gave the patriotic numbers, "The Coward" and "For Belgium," in her own inimitable way: S. Winifred Parker, contralto, sang "The Joy of the Morning," and "The Soldier's Wife" and the choir gave the festival "Te Deum" and other numbers, the soloists being Violet Miller, Ruby Cahoon, Reta L. Hurst, George Marks. The choir was directed by Harry C. Jackson with Miss G. B. McCiellan at the organ, and Mrs. Blake-Foster at the piano. Miss Grace Bonnick was solo-pianist of the evening, playing "A la Cubana" by Granados, and "Caprice Espagnol," Moszowski. by the church choir and assisting art-
