us as they do in this industry.

Busier Days Ahead

Everybody is talking about the good spring it is going to e-the busy, money-making spring. In business enterprise and thrift Toronto leads all Canada, and the enthusiasm of busier days will thrill the community as nothing else can. This store is prepared to employ more people and distribute more goods than ever before, and what we're doing in bringing trade rom outside towns others can do in other directions.

There's business enough to be got and no end of possilities awaiting development. With more work and less theorizing Toronto ought soon to reach the most sanguine expecations of its most enthusiastic friends.

Easter Millinery!

The styles of the season are here as nowhere else-newer, her, more exclusive than the best of you expect. We've vices. We must give The Globe credit thered with extreme care from the leading fashion centres, in d we're puzzled to know how to tell of it all. A dash of a words must answer, and the rest is left for your personal

-Paris Pattern Hats.

-Paris Pattern Bonnets.

-Novelties in Ribbons.

-An Abundance of Flowers.

-All the Newest Shapes. -Immense Variety of Trimmings.

We trim Hats to order in any desired style, but good work an't be rushed. Get your order placed early and give us all he time you can. Prices here are possible to the leanest urses, even for the highest style novelties.

Wraps and Costumes!

The limit of the prevailing styles in ladies' overgarments The limit of the prevailing styles in ladies' overgarments active, so report goes, in promoting the limit of our stock, and this applies to both costumes and bany has organized to defeat the bill wraps. If we had to do it over again we'd buy exactly the same sorts as are here now. The cost is not exclusive. The garments are. They'll make the women who wear them thoroughly well dressed.

The assortment is as we like it to be. We like to give our customers better than they expect, and this season's styles are the feather in our cap. There's nothing all over town to

Musical Programme!

We've arranged a special programme for the Orchestrion to-day, which means plenty of good music. This is attractive enough in itself to crowd the store :-

THE TORONTO SUNDAY WORLD

PRACTICAL POLITICS.

Our friend The Globe is wont to pub lish academic articles from time to time dealing with the municipalizaon of such public franchises as the supply of electric light and power, r the sound policy it has adopted dealing with these questions in the abstract. Probably the most important move on the part of the city of Toronto in the direction of munici-palizing public franchises is in the fight that is being waged against the Consumers' Gas Company. This question is now before the courts, and the Legislature has been requested by the city to empower the latter to be allowed to supply funds to fight the matter out. So far we have seen nothing in The Globe supporting the city's side of the case, notwithstanding the fact that our contemporary is all powerful with the gentlemen who control legislation in the Queen's Park. Our good friend, Mr. William Mulock, M.P., who has also taken a very proent part at Ottawa in the way of regulating monopolies, who is fighting the battle of the people for a reduced legal rate of interest, who has drag-ged the ocean steamers into the court of Parliament for overcharges, who

or other, The Mail happens to be dumb on this great issue. The World is willing to risk its reputation on the statement that if this matter is fought out to the end, the gas consumers of Toronto will receive gas at a rightest formula of the statement of the company should have started to make this reduction years ago, and consumers of Toronto will receive gas at a rightest formula of the late James Warren, who died gas at a reduction of twenty-five per cent, and that the city will secure in n. means represents the consumers. exchange for a cancellation of the claims, which we believe are glood; against the gas company for past extortion, a voice in the future management of the company.

We, therefore, trust that our most distinguished citizen, and in many ways the leading man of Ontario, Sir Oliver Mowat, will see that justice is done to the city of which he has been such a distinguished and honorable citizen for so many years. If he does this, when the time comes to put up his statue in the Park, posterity will with one voice acclaim him the great champion of their rights and liberties In the meantime, Sir Oliver and The Globe have the floor.

THE ST. LAWRENCE CANAL SYSTEM.

The Welland Canal has been large ough since 1887 to admit vessels of 14 feet draught. The cost of deepening the canal from 10 feet to 14 feet was about \$16,000,000. That large amount of capital has been lying idle during the mine years since the improvements were completed, and it will remain so until the St. Lawrence canals are enlarged to the same depth. There is even more reason why this latter work should be haveled to the same depth. There is even more reason why this latter work with the complete the same depth. There is even more reason why this latter work with the complete the same depth. There is even more reason why this latter work with the complete the same depth. There is even more reason why this latter work with the complete the complete the same depth. There is even more reason why this latter work with the complete the complete the same depth. There is even more reason why this latter work with the complete the co even more reason why this latter work wine merchants, viz., Zuipandel claret, should be hurried on than there was should be hurried on than there was Riesling hock. Tokay, Angelica and Young and Old Its Victims Canal. When we are able to ship grain from Lake Superior to Montreal in vessels drawing 14 feet of water, we will enjoy a very noticeable superiority over the United States. It is, of course, a matter of some speculation what effect a 14-foot channel to the sea will have in diverting to Montreal the freight that now comes down the Great Lakes to Buffalo, and thence to New York. There is no doubt, however, that the St. Lawrence route will receive a decent share of it. The enlarging of the St. Lawrence canals is being proceeded with at altogether too slow a pace. From present indications, it is not likely the work will be completed for three or four years yet. There is no reason why it should not be completed in two years at most. The railways have a great are apparent. ever, that the St. Lawrence route will at most. The railways have a great deal of influence at Ottawa, and it is more than likely that they are nesponsible to some extent for the dilatory way in which this work has been handled. Not only will the enlarged system be the means of increasing the tornage to Montreal, but a large tradeis confidently looked forward to in the shape of coal cargoes from Nova Scotia to Ontario ports. As soon as the St. Lawrence system is completed, it is more than likely that the whole of Ortario will be supplied with bituminous coal from the mines of the Mari

CANADA'S PULP WOOD. Eight years ago there existed in Can ada 38 mills making pulp for the United States trade. At the present time there are only four such mills The United States is not drawing less raw material for the manufacture of paper from this country than it did eight years ago. On the contrary, it is consuming larger quantities, but it is taking it from the country in a different shape. Instead of importing the manufactured pulp, as they used to do, our neighbors now come over

here and take out the wood, which

THE TORONTO WORLD they reduce to pulp in their own country. The United States has shrewdly shaped its duties so as to make Canshaped its duties and duties d

adians mere hewers of wood and drawadians mere hewers of wood and drawars of water in this industry, while
it reaps the big profits that naturally
fall to the share of the manufacturer.
There is now being shipped from Canada to the United States 2000 cords of
the word event day in the week Brown according to the content of the c Ontario Normal School-Supposed Inpulp wood every day in the year. For this the Americans pay \$3 per cord for cendiary Fire-Mamiltoniaus will Work a Gold Mine-A Centenarian's Deaththe wood and \$3 for freight. If a cord of wood is manufactured into pulp, it should be worth \$20, of which, allow-Hamilton, March 16 .- (Special)-The ing \$3 for freight and duty, \$17 would Finance Committee this morning re

be left in Canada, as against the \$6 commended the addition of a clause which we now receive for the wood.

When we consider that 2000 cords are Bill, now before the Dominion House, daily exported, upon which this coun-try is losing \$14 per cord, it will be bentures. seen that the question is of no small moment to Canada. If we can so shape livery of the debentures to the Bank of the clause provides that on the livery of the debentures to the Bank of the clause provides that on the livery of the debentures to the Bank of the clause provides that on the livery of the debentures to the Bank of the livery of the debentures to the Bank of the livery of the debentures to the Bank of the livery of the debentures to the Bank of the livery of the debentures to the Bank of the livery of the debentures to the Bank of the livery of the debentures to the Bank of the livery of the debentures to the Bank of the livery of the debentures to the Bank of the livery of the debentures to the Bank of the livery of the debentures to the Bank of the livery of the debentures to the Bank of the livery of the debentures to the Bank of the livery of the debentures to the Bank of the livery of the debentures to the Bank of the livery of the debentures to the Bank of the livery of the l Hamilton, the bank shall retain a sum city

leave the country as pulp, instead of sufficient to pay the claims of the Hunas cordwood, we will increase the busi-ter-street residents, the cost of repairness of the country by about \$10,000,000 a year. The fact that the United States has to come to this country for 2000 pay the claims of the creditors of Branch 275,000 to repay the cey Bros., and \$75,000 to repay the money advanced by the bank, which must account to the company for the ords of wood per day is proof sufficient that it does not possess within its own

A deputation from the Board of Education composed of Chairman Grant, Trustees Pratt, Mason, Turner, Murray and Brennan, appeared before the committee in reference to the new Collegiate Institute and Ontario Normal College.

mal College.

The chairman pointed out that last year the board had asked the city for \$100,000 to build the new Collegiate Institute. Since then it had been discovered that the amount was not sufficient, and the board wanted \$135,000. displays very little business shrewdness on our part to allow the Americans to steal such an advantage over Mayor Fleming made no mistake when he stated to the Private Bills drawn subsequently, some of the members consumers' Gas Company had lived up should first be brought before the to the terms of its charter the price of

A New Industry.

The chairman read a letter received by C. R. Smith from the Shelby Steel Company, of Shelby, Ohio, in reference to establishing a factory in Hamilton.
The company wants a bonus. It promises to employ 700 men. This communication was referred to the Recep-

Supposed Incendiary Fire. About 1.30 this morning there was fire at the residence of Mrs. E. Forbe corner of Wellington and Barton-streets. The firemen found the place burning fiercely inside, and before the flames were extinguished about \$500 tions from year to year for seven or eight years back. If the reductions that were called for by the charter had been made from year to year, the output of the company would have increased in proportion to the reduction.

If ames were extinguished about \$500 worth of damage had resulted. The place is insured for \$2500. There is a strong suspicion that the fire was caused by an incendiary, as Mrs. Forbes was out of the city and her children were spending the night with children were spending the night with friends in another part of the city. The front part of the building is occupied by Geo. Elliott, a barber, and his room tion in the following year as would have permitted the company to earn by Geo. Elliott, a barber, and is badly gutted.

To Work a Gold Mine.

of Parliament for overcharges, who has declared that the great block to improved legislation at Ottawa is the acceptance of passes and offices by members of Parliament, is more than active, so report goes, in promoting the lobby which the Consumers' Gas Company has organized to defeat the bill of the city in regard to that company. The World trusts that both The Globe and Mr. Mulock will come put in no ambiguous way in favor of the Legislature giving the city the authority it desires.

The World is pleased to see The Telegram actively supporting the case of the citizens in their fight with the gas company, but it regrets that another paper is actually arguing the case of the gas company as against the gas consumer. For some reason or other, The Mail happens to be dumb of the consumption would be at least 25 per long the consumption would be at least 25 per long the consumption would be at least 25 per long the consumption would be at least 25 per long the consumption would be at least 25 per long the consumer who had consumption would be at least 25 per long the consumption would be at least 25 per long the consumption would be at least 25 per long the consumption would be at least 25 per long the consumption would be at least 25 per long the consumption would be at least 25 per long the consumption would be at least 25 per long the consumption would be at least 25 per long the consumption would be at least 25 per long the consumption would be at least 25 per long the consumption of the company who had long the consumption would be at least 25 per long the consumption of the company to comp

in this city in 1867. Mrs. Warren was born in County Clare, Ireland, a hundred years ago, and came to this city in 1841, where she since resided. She leaves two sons, Patrick Warren of this city, and M. P. Warren of Toronto; and one daughter, Mrs. Margaret Phillips wife of Martin Phillips, at whose house she died.

The departmental idea illustrated in the great stores, catering chiefly to woman's needs and fancies, is being applied on a vast scale at Jamieson's to meet the requirements of men. The new building with the rounded corner, at Yonge and Queen structs, has been modelled to Mr. Jamieson's plan of a great departmental house for mankind. Originally a leading clothing store, always noted for its excellent garments for men and boys, it has added from time to time to include a complete men's furnishing department, a last department, with a stock to equal that of any hatter, then a men's and boys boot and shoe department, and now a bicycle and athletic goods department, and others to open as fast as the different floors can be fitted up for the accommodation of new, strictly masculine, supplies. A visit through the house these days will prove a revela-Young Criminals Sentenced.
Harry Marshall, George and Moses Niblock, who broke into Hiram Lamp-man's residence in Winona and stole jewelry and cutlery, were sentenced this morning—Moses Niblock to two years and six months in the Pene-tang Reformatory Govern White years and six months in the Pene-tang Reformatory; George Niblock, the former's elder brother, will be confin-ed in Kingston Penitentiary for three years, and Harry Marshall will spend nine months in the Central Prison.

Mr. Philip Todd, Canadian agent for The Eleny and Disturber Thousands

Mrs. C. Bruce of Mary-street appeared before Magistrate Nimmo yesterday with a request for the destruction of Mr. A. N. Morang's collie dog, which she alleged had bitten her son. Evidence for the defence was that the All From Its Bondage. animal was only a pup, and had now bitten anyone else. The case was ad-journed until Saturday,

MR. CARRET IS MADE A NEW MAN

A well-known writer Ceclares that dyspepsia is a "home fiend." It is truly a cruel and torturing monster, and makes its slaves miserable specimens of breathing humanity.

This enemy of thousands is effectually conquered by the mighty power and gentle virtues of Palne's Celery Compound, and the victims are released forever from the awful tormentor.

This is, perhaps, the worst season of the year for the victims of dyspepsia, indigestion and stomach troubles. The great nerve system requires strengthening; the blood, now charged with impurities, may be made pure, so that it will course healthily and in abundance; the stomach, weak and unreliable, must be toned up.

Paine's Celery Compound will accomplish all these grand objects for the dyspeptic, and fit him for the proper performing of all of life's duties.

Mr. Joseph Garret of Garretton, Ont, writes thus:

"I was laid up for months, and could"

Knee breeches. "They are out," Neither does man nor woman, who knows "they are out," Neither does man nor woman, who knows "they are out," Neither does man nor woman, who knows "they are out," Neither does man nor woman, who knows "they are out," Neither does man nor woman, who knows "they are out," Neither does man nor woman, who knows "they are out," Neither does man nor woman, who knows "they are out," Neither does man nor woman, who knows "they are out," Neither does man nor woman, who knows "they are out," Weither does man nor woman, who knows "they are out," Weither does man nor woman, who knows "they are out," use old-fashioned does man nor woman, who knows "they are out," use old-fashioned cough syrups and lung cures. Chemical and medical progress, like time, wait for nothing. The most highly-prized remedies of gone-by years are mercliessly cast aside, and superseded by more effectually prized remedies of gone-by years are mercliessly cast aside, and superseded by more effectually prized remedies of gone-by years are mercliessly cast aside, and superseded by more effectually prized remedies of gone-by years are m

Has been endorsed by the medical profession for twenty years. (Ash your Doctor.) This is because it is always palatable—always uniform—always contains the purest Norwegian Cod-Liver Oil and Modern and fish.

All was getting weaker, when a friend advised me to take Paine's Celery Compound. I'did give the medicine a trial and before the first bottle was finished I experienced a great change. I can now eat, sleep and work as well as any ordinary man, and I can truly say that Hypophosphites. Insist on Scott's Emulsion with trade-mark of man and fish.

All soseph Garret of Garretton, Ont., writes thus:

"I was laid up for months, and could not work, eat or sleep. Day after day in the presence of the Queen at Windsor Castle. Thousands saw the picture at Ottawa, and doubtless the clitzens of Toronto will go in large now eat, sleep and work as well as any ordinary man, and I can truly say that Palne's Celery Compound is a wonderful medicine, and worthy of all the praise that people can give it. I advise ail to use it for dyspepsia; as a purifier of the blood, it surely cures."

This was a Close tall.

Durham, March 16.—Mr. James Hastle of Egremont, while driving home from the coffin of the late Sir John Thompson, whose tragic death occurred almost in the presence of the Queen at Windsor Castle. Thousands saw the picture at Ottawa, and doubtless the ordinary man, and I can truly say that Palne's Celery Compound is a wonderful medicine, and worthy of all the praise that people can give it. I advise ail to use it for dyspepsia; as a purifier of the blood, it surely cures."

MORE EMIGRANT BOYS. forty-Six From Dr. Stephenson's Home G

A party of 46 boys, aged from 9 to 15, passed through the city last night on their way to Hamilton. The lads are from Dr. Stephenson's Home, London, Eng., and were sent out here in charge of Mr. Rhodes, Dr. Stephenson's private secretary. They will be kept at the branch of the home at Hamilton until the older ones are placed with farmers and the younger boys adopted. The lads are a healthy looking, rosy-cheeked lot. They left England on the 4th inst., and crossed on the Vancouver, having a very rough passage. Mr. Rhodes speaks in high terms of the manner in which he and his charges were treated by the railway companies, who did all they could to provide comfortable accommodation for the long ride from Halifax.

Out of Fashion-Gut of the World. No sane man now wears low shoes and silver buckles, silk stockings and knee breeches. "They are out." No woman wears Elizabethan skirts or

The public are to be given an opportunity of viewing the great historical painting by Mr. F. M.
