## Tuesday Morning, March 21,

Where Education Fails.

S. S. Craig, the first speaker, said the deepest sources of evil to-day the failure of the education of high materials:

ters. He was sorry for the orthodox ministers of to-day, whose prestige was slipping away from them while they seemed powerless to arrest it.

Mr. Stapleton Caldecott rejoiced to see the young men taking an interest in the movement, because in them was the hope of its success. Transportation and taxation were the two great problems before the nations to-day, and he thanked his God that the Henry George movement was doing something to bring together the capitalist and the workingman. He opposed income and personal taxation, on the ground that no man had a right to tax the capital, brains and energy of another.

A Work for Every Man.

Mr. Edward Gurney said the speeches mere serges and fancy wool figured designs, lined throughout, velvet bound, newest shapes. 2.50

We particularly direct your attention to the fact that these are personal taxation, saying that it was a bar to the development of manufacturing and general industries and had proved a failure in every country where it had been traced with the exception of the United States, Holland and Canada.

Rev. E. S. Rowe expressed his interest in the taxation question, and thought the ollowers of Henry George might do much o help solve the difficulty.

Solution to Come.

Hon. John Sherwin Crosby, on rising to all Tailor-Made Skirts of the most approved styles—the lowerpriced grades being equally as well made and finished as the higher grades, and ladie's wishing to choose from a complete assortment Solution to Come.

Hon. John Sherwin Crosby, on rising to speak, was greeted with prolonged alphaluse, and, after mentioning the friendly feeling which he believed always existed between the people of Canada and the United States, expressed his assurance that the problem of taxation would be solved, if not by men of his years, by the younger men, of whom so many were now taking a deep interest in this vital question of government. It was both a business and a religious question, in which everyone had an influence, for which they were personally responsible. If anything was wrong it was the fault of the rank and file of the people. The purpose of a government was to protect and preserve men in the rights which God and nature had given them and it was the duty of the people to try and secure such a government. The government's duty in any country was to provide everything necessary and if street cars and other like concerns were necessary, the duty of the government was plain.

Theory and Practice.

He then went into the question of taxa must be on hand early Tuesday morning, as at the above quoted prices they are bound to find a speedy sale. Samples will be on view all day Monday in our large east show windows.

17 to 27 King E. and 10 to 16 Colborne St.,

Theory and Practice.

He then went into the question of taxa tion, ground rents, etc. Most people admitted that what Henry George suggested was right in theory and he did not believe God Almighty ever made anything right in theory that it was not the duty of every man and woman to put into practice. It was the custom of churches to look after individual crimes, but it was the crimes of government that broke up nations and until churches recognized this they were unworthy of the name. The advent of temperance, he said, would not solve the labor problem. He concluded by saying that it was the duty of all men to strive to learn what God had laid down in the immutable laws and then make their laws in conformity to His.

Mr. J. Sale followed with a speech on the evil results of the present system of taxation.

HON JOHN S. CHOSRY SPEAKS

The brewers did not think this was equitably adjusted, and, therefore, strongly urged that the Government place the minimum fee at \$500 to kas was proposed to charge the retail license holders of Toronto. They contended that the smaller brewers' ratio of expenses was much lower than that of the larger ones, and that it would not be fair to raise some six times the original fee, while others should go free. The deputation left believing that their requests would be compiled with, and were naturally indignant when the amend as schedule of fees was announced, which left the minimum fee at \$250, but raised the naximum from \$1500 to \$2000.

RICHES OF SEINE RIVER.

Golden Star Producing Largely-It is a Second War Eagle. West Superior, Wis., March 19.-(Special.) -Word received to-day from the Golden star mine, Seine River gold district, was to the effect that a rich pay chute had been gone into and some of it was so rich that the ore is being sacked. Sinking downward from the fifth level took the shaft out of the low grade ore that existed for a distance of twenty feet. Not only has the vein widened, but the ore has become much richer.

A Second War Eagle. A Second War Eagle.

The talk of the Golden Star being a second War Eagle, which was scoffed at some three or four months ago, is now conceded, for less than twenty-eight days will run \$15,500 in gold bricks and \$10,000 in concentrates. This is phenomenal and away beyond the expectations of everybody.

Work on the Randolph.

It is expected work will start on the Randolph next week. The Randolph, which is A. L. 115, was the property purchased last week by M. C. French and associates, among the number being W. R. Fanning, the wealthy merchant and associate of Marshall Field of Chicago; Joseph Sellwood, vice-president of the Duluth and Iron Range Railway, and one of the leading iron mining men of the country; Charles H. Sunderland, a wealthy estate owner and partner of President Ostrander of the Northwestern National Bank of this city, and several others equally prominent.

Carleton Place, Ont.

DEAR SIR,—I have been a great sufferer from Piles. The last attack was the most severe I have experienced. For ten days I could neither sit nor stand, and walking was out of the question, so great was my suffering. I could find no relief anywhere until your Pile Ointment was recommended to me. I got a box. I was relieved by the first application. In two days I was able to resume work and felt perfectly cured within a week. I volunteer this testimonial. I desire that people who suffer as I have done may know where to get such prompt relief as I found in the use of Orien's Pile Ointment.
