If we give a self-governing colony like Canada, which puts a special duty on our manufactures, a preference in our markets, with what face can we refuse as large a preference to India and Ceylon, not self-governing colonies, and which do not endeavor to erect a tariff, barrier against our manufacturers?

The Liverpool Mercury says a two-shilling duty on wheat may help the Canadian grower, but it will not be much of an inducement to the British farmer to increase the acreage under wheat, especially since, as Mr. Chamberlain contends, it will not raise the price of bread or corn by a single cent.

If you are debilitated from drains, losses or varicocele; have confusion of ideas; fear to act and decide; gloomy, timid and fretful; without confidence; avoid friends and company; or suffer from rheumatism, lame back, stomach, etc., you need this treatment, for electricity will cure where all other treatments fail. Anyway it will cost you nothlug to try mine if it falls. But get the genuine—the Dr. Sanden. It is largely imitated, of course—all good things are. My belt and advice of 40 years' experience is yours without charge until cured. Call or sead to-day for one, or if you want to look into the matter further get my two little books with full treatise of electricity and its uses. Free, scaled, by mail. DR. A. B. Hyannis, Mass., May 12, 1900. CHAS. H. FLETCHER, New York City.

Dear Mr. Fletcher: - I wish to congratulate you on your numerous victories over counterfeiters and imitators of Castoria, and trust the time is not far distant when these inferior and dangerous mixtures will be entirely suppressed.

You are right when you say in your advertisements that it is "Experience against Experiment."

I feel it to be an outrage, and an imposition upon the parents of little children that my name should be associated with imitations of Castoria, dangerous to the health and life of these little ones who too often fight their battles for life in vain.

Let me again commend you for the high standard you have maintained in the preparation of my prescription, and I confidently believe it is due to this scrupulous integrity you are indebted for the wonderful sale of Castoria to-day, and the steady growth it has had since I gave you the details of its manufacture in my laboratory thirty-three years ago.
