

If You Were Willing to Pay Ten Times the Price of Tuckett's "Club" Cigarettes, You Couldn't Obtain a Better Smoke-

There's a flavor—a certain distinctive palate-pleasing flavor—about a "CLUB" Cigarette that individualizes this Brand—makes it stand out in a class by itself.

It sells at 15c. for a package of ten-but that doesn't mean that it's made for the man whose pocket-book limits him to a 15c. expenditure.

It's made for the man who knows Cigarette value. The price is merely an indication of the exceptional facilities that enable the TUCKETT Company to produce a high-grade smoke at a reasonable cost.

Tell the Man Behind the Counter-"I WANT TUCKETT'S 'CLUB' CIGARETTES"

BARRIE, Dec. 2.—(Special.)—"The fires were of incendiary origin and the jury are strongly of the opinion that both fires were caused by some mem-ber of the S. J. Guthue household, or some person or persons known to them. The jury recommend that the attorney-general's department make a fur-ther investigation."

The coroner's jury rendered the above verdict after half an hour's delibera-

extreme, at times often leading to bad tive." and fatal results. The stomach embarrassed and hampered with wind, cannot take care of its food properly and indigestion follows, and this has a condition of the analyse of the condition of the condition

tor books; how undigested food causes gases by fermentation and fomentation, in which process some essential tive nutrition and the distribution through the alimentary tract of chemically wrong elements, and as a consequence the stomach and entire system is starved. Plenty of food, you see. but spoilt in preparation and worse

worthlass A DERANGED STOMACH is the opitome of evil, nothing too bad to emanate from it, but the gas it generates and the only way to do away with this is to remove the cause. STUART'S DYSPEPSIA TAPTETS go to the root of this trauble. They attack the gas making foods and render them harm-Flatulency or wind on the stomach simply cannot exist where these powerful and wonder-working little.

THEY WERE MADE for this very purpose, to attack gas making foods convert them into proper nutriment. This is their province and office. A whole book could be written about them and then not all told that might be told with profit to sufferers from this painful disease, dyspepsia. It would mention the years of patient and expensive experiment in effort to arrive at this result—of failures innumerable and at last success. It would make mention of the different stomach are not a one intended for the sick but wall folks as well; for the person who craves hearty foods and wants to eat heartily and run no risk of bad effects they act like a charm and make eating and digestion a delight and pleasure. They keep the stomach active and energetic and able and willing to do extra work without special labor or ef-fort. Don't forget this. Well people are often neglected, but the STUART DYSPEPSIA TABLETS have them in

It has grown up from ALL THIS IS EXPLAINED in doc- the soil and dut of the air in 120 days -\$15,000,000 a day for one crop, nearly for peace or war. This crop exceeds mended by the sub-committee.

Cotton Second in Value. Cotton is now the second crop value, and this year's cotton crop is easily the most valuable one to the farmers that has been produced. With cotton lint selling at 13.7 cents on the farm Nov. 1, and with cotton seed selling for about \$25 per ton, the lint and seed of this crop are worth about \$850,000,000 to the farmer. No cotton crop since 1873 has been sold by farmers for as high a price per pound as.

\$725,000,000 at the farm, and this largely exceeds all previous values. The November farm price was almost an even

725,000,000 bushels. The hay crop is valued at \$665,000,000: oats at \$400,000,000; potatoes at \$212,000,000, and tobacco at nearly \$100,000, 000. Beet and cane sugar and molasse and syrup, from farm and factory, will reach the total of about \$95,000,000. The barley crop is worth \$88,000,000, flaxseed \$26,000,000, and 1,000,000,000 pounds of rice \$25,000,000.

The production of all cereals combin-4,711,000,000 bushels, an amount considerably greater than for any other year except 1996. It x-conds the average of the preceding dive years by 6.5 per cent. The value of all cereals in 1999 has never been equal. ed in a previous year. It is almost exactly \$3,000,000,000, or 34 per cent, above

Crops Above the Average. Compared with the average of the previous five years, all principal cross are greater in quantity this year except cotton, flaxseed, hops, and cane sugar; but without exception every crop is worth more to the farmer than the five-year average.

This is the year of highest production for potatoes, tobacco, beet sugar, all sugar, and rice; next to the highest reduction for corn, cats and all cereals. Compared with 1998, gains in good. At last I was advised by a friend
