## Mrs. Able Says:

PEOPLE ask me why my tea tastes so good. First, I use freshly drawn water. When boiling briskly I pour it over the leaves, allowing the tea to steep, not boil, five minutes. Next, I pour the tea off the leaves into another pot. In that way you get the flavor of Red Rose Tea in all its fullness and richness. Try it. In sealed packages only.

## ABANDON VIADUCT PLAN FOR OVERHEAD BRIDGES

Mayor Church Says No Proposition Has Yet Been Laid Before the City.

Mayor Church declared yesterday that as yet the railways have made no proposition to the city concerning an alternative proposition to the water front viaduct, which they were ordered to construct by the Dominion Board of Railway Commissioners. "So far as the city is concerned," he said, "the railways will carry out the viaduct order. When we receive a proposition from them we will deal with it on its merits."

Mayor Church said a conference had been called for Monday next to discuss the matter with the railways.

According to the railways' proposal, they want to build at their own expense overhead bridges over the tracks on Bay and Yonge streets and connect these by a viaduct running at right angles to them on Lake street.

The cars would run down one street and come up another. If the city will consent to an amendment to the viaduct order, striking out the time for commencing and completing the structure, they will also reconstruct the creek street bridge and adapt it for street railway traffic.

The argument said to be advanced by the railway companies, is that under the stress of war times they should not be called upon to carry out this great big improvement. They also point to the city's recently instituted policy of retrenchment as another reason for putting off the viaduct construction. It would be to the advantage of the city, they say, as well as to the companies to let this \$129,000 improvement stand over. The city is to pay a third of the cost of the structure.
