CHRISTMAS STAMP CAMPAIGN THE 1909 BATTLE AGAINST THE DREAD WHITE PLAGUE.

Available Beds in the Muskoka Free Hospital for Consumptives Increased Three-Fold as a Result of Last Year's Sale of Christmas Stamps. The Number Can Be Doubled This Year If Everyone Will Help.

STIMULATED by the success of a year ago the National Sanitarium Association have made large preparations for the sale of the Christmas Stamp of 1909-10, issued on behalf of the Muskoka Free Hospital for Consumptives.

Nearly \$8,000.00 was netted from last year's sale, making it possible for the trustees to increase the available beds for needy patients from an average of fifty-five a year ago to one hundred and forty, the accommodation to-day.

The trustees are hopeful that they may bring the accommodation up to 200 beds as the outcome of this year's sale of this little one cent messenger of hope and health.

The Christmas Stamp, as a means of fighting the dread white plague, had its origin in Denmark in 1901, the year in which a national institution for consumptives in that country.

The idea was taken up by the Red Cross Society of the United States in 1907, and interest has grown each year.

A year ago a Christmas stamp of special design was put in circulation by the Muskoka Free Hospital for Consumptives with the success already indicated in this article.

The price of the individual stamp is only one cent, but what wonderful things can be accomplished by a stamp instrument. There is no reason why everyone who writes a letter, addresses a postcard, mails a newspaper or parcel on this day out should not use one of these stamps.

The educational value of the stamp appearing on every piece of mail matter would be enormous. One can hardly figure up the material results, but it would mean a routing of the enemy.

Fashion Hint for Times Readers

SUMPTUOUS EVENING WRAP OF VELVET BROCADE. The opera vestibules and the foyer of the New Theatre, taken up countless by the fashionables, have been a revelation this year in superb evening wraps. The straight, simple military cape of last season has been superseded by magnificent draped garments made of the richest fabrics produced by the weaver's loom.

THOUSAND MILE RAILWAY LINE ACROSS AUSTRALIA

Estimates of Nearly Four Million Pounds Placed Before the Commonwealth Parliament

(Standard of Empire.) After many delays the report of the consulting engineer to the Commonwealth government on the proposed Transcontinental Railway (H. Deane), linking up the eastern states with the west, has been laid on the table of the house of representatives.

The report shows the line would open up a vast area of fine pastoral country. By providing a means of transport occupied by mails between eastern Australia and the Mother Country, and at the same time strengthening the defence of the western states by making available the military forces of the more densely populated states in case of need.

The transcontinental line would link up Port Augusta, in South Australia, with Kalgoorlie, which is situated in the western part of the continent, through all the main capitals from Perth to Brisbane. The length of this line would be 1,068 miles. A gauge of 4 ft 8 1/2 in. has been assumed, and a ruling grade of 1 in 80, and minimum curvature of 20 chains.

The water supply, the most difficult question, is the subject of a separate report. Large areas are subject to periodical drought, and irrigation water is rarely abundant. Water must be conserved in covered reservoirs on account of the climatic conditions. The rolling stock is estimated to cost £1,250,000.

From the Kalgoorlie junction for 120 miles the country is covered with native grasses, brush and cotton bushes. It has an immense belt of gum and gum-wood, suitable for fuel. From 120 miles west, the country is sandy soil, covered with spinifex and mallee. From 160 miles west, the country is a mixture of mallee and bluebush plain, with a limestone soil. The route will be 1,250,000 sheep.

REALLY DEVELOPS THE BUST, ARMS AND NECK.

An increase of six inches is not unusual after a month's treatment. Go to any druggist and get a small quantity of the new cream. It contains the finest oils and essences of the most delicate nature. It is a perfect skin food, and will develop the bust, arms and neck. It is a perfect skin food, and will develop the bust, arms and neck.

NEW BRUNSWICK IS MENTIONED IN THIS APPEAL

Ontario Women Ask For Equal Suffrage in That Province—The Case Very Strongly Presented To The Legislature

In view of the fact that the Ottawa Equal Suffrage Association are taking the initiative in organizing Ontario women to become provincial organizers, Mrs. Flora MacD. Dennison, of Toronto, the following letter has been drafted by the local association and sent out to the wives of the provincial legislators of that province:

Ottawa, November 31, 1909. Dear Madam—As one, who, as wife of a member of the Ontario legislature, can exercise a power and influence denied to women occupying less conspicuous positions, we women of Ontario, working through the Ontario Equal Suffrage Association are desirous of expressing our sympathy and active co-operation in that movement towards a larger political freedom for women.

It has been gallant to our pride as Canadian women, loyal daughters of the Empire, to have ever felt, the most progressive of Britain's colonies, to find our sisters in New Zealand, who have welcomed to the full rights of citizenship, while we remain outcasts, classed with "undeveloped" and "dependent" territories. It has been gallant to our pride as Canadian women, loyal daughters of the Empire, to have ever felt, the most progressive of Britain's colonies, to find our sisters in New Zealand, who have welcomed to the full rights of citizenship, while we remain outcasts, classed with "undeveloped" and "dependent" territories.

IT MIGHT WORK HERE

Crowing roosters are good decoys for chicken-killing dogs, says the Montreal Press. John P. Smith, of 24 George street, demonstrated that early today, and there in rejoicing among the Montclair fanciers who have lost between 100 and 200 of their chickens, killed by dog marauders within the last month. Smith used his henhouse for a trap, baited it with two roosters under a box and utilized their crowing to attract dogs. The most experienced trapper could not have devised a better plan. When two dogs heard the roosters crow at 2 o'clock this morning they trotted into the yard. Seeing the henhouse door open, they ran in, thinking what a lot of fun they were going to have in driving the chickens from their roosts and tearing them to pieces. No sooner were the dogs in the henhouse, looking for their prey, than Smith pulled a long rope leading to the window of his bedroom. That closed the henhouse door and the dogs were prisoners. Smith and the dogs were prisoners. Smith and the dogs were prisoners.

VITAL TABLETS ARE GUARANTEED TO CURE RHEUMATISM

To cure rheumatism you must build up, move, rest. Price 20 cents a box or six your blood by driving out the impurities for \$2.50. Manufactured by The Svedell and replacing fresh pure blood in your system. VITAL TABLETS will do this for you all day long.

The Times Daily Puzzle Picture

FOURTEEN POUNDS IN TWO MONTHS

Remarkable Gain Made by Targa Nova, Cap. Breston, Woman. "Father Morrissey's No. 10" (Lung Tonic) has wrought some wonderful cures. Here is a typical case, as described by the patient herself: "During the Fall of 1908 I contracted a severe cold, which settled upon my lungs. After being treated by two physicians of my city, but in fact getting worse, my lungs began to have serious trouble. My physician recommended me to buy a bottle of 'Father Morrissey's No. 10' (Lung Tonic) and immediately I began to improve, gaining fourteen pounds in two months. I strongly recommend this form of Lung Tonic for Colds and any form of Lung Disease."
