RUTTAN, MURDERER OF TWO, SURRENDERS TO POLICE AT HIS HOME

RED, WHITE AND BLUE DOMINATE NEW WOODBINE

Of All Colors That Flaunted in the Breeze, These Were the Most Popular—Ribbons Told Story of Visitors

PRESENCE OF DUKE BROUGHT CROWD

Lawns and New Stand Never So Thronged as on King's Plate Day—Earl Grey Was Not Present

With ideal weather conditions, with royal and viceregal presence, the new Woodbine was opened for a grand afternoon's sport. While, according to social precedence, the presence of a royal prince and two princesses rendered the date notable, the outstanding event of popular favor was the presence, in excellent health, of Sir James Whitney, premier of Ontario, who was the recipient of congratulations from many friends, who simply voiced the well wishes of the multitude.

Shortly after 2 o'clock Sir John, Gibson and the Government House party arrived at the track, and at 2.25 the guard of honor, a captain's escort of 34 dragoons, rode on to the course, escorting H. R. H. the Duke of Connaught, the Duchess of Connaught and Princess Patricia.

The distinguished guests were accompanied with ringing cheers from the multitude, repeated by the members as they passed to the royal box.

Lady Melvin Jones presented a magnificent bouquet to the Duchess of Connaught. A similar floral tribute was presented to the Princess Patricia.

Earl Grey was not present. Owing to the indisposition of Earl Grey, his lordship was unable to attend the races Saturday, but the Countess Grey, Lady Sybil and her sister, Lady Evelyn Jones, were present.

The military escort was under command of Capt. Walker Bell and Lieut. Timmins.

The Royal Grenadiers' Band, under Lieut. Waldron, rendered an excellent program.

Fashion and fortune shone in many symbolic costume color schemes. The "Red White and Blue of Old England" floating in the breeze adorning the royal box and sported by the rider of the King's Plate favorite, possessed poetic, if not prophetic harmony.

Loyalty to the popular president, evident by the wearers of the yellow and black, indicated returning confidence in the outlook for the Seagram silk.

General regret was expressed at the unfortunate indisposition of Mr. Seagram, which is keeping him home at Waterloo, while his horse, well known to be with his entry for the great blue ribbon event, enhanced by this year's royal and vice-regal setting.

Fair visitors from Hamilton, true to the traditions of the ambitious city, departed the gold and crown, historic in the annals of Hendrie victories in "the Plate."

Ladies Were Loyal. The ladies from Barrie, true to the steadfast endeavors of the Dymonts, so triumphant when their champion flashed by a conquering hero two seasons ago, wore ribbons of orange and green.

Commingling in the rain-bow hues bewilderingly of tints and shades, the Davies' canary and black had prominence.

The Montreal contingent favored Colin Campbell's white and cherry, luck, locality and predilection.

Other Toronto owners, wearing King Doodle's pink and black, Walker corse and gold, McSweeney red and black, and Crew black and tartan, contributed variety as their thoroughbred paraded for the various carded events.

Among the members of the fourth estate the felicitations over the excellent provisions now made for the press recalled sympathetic thought, expressed by conferees for the absent, ever-popular dean of Canadian sporting writers, H. J. P. Good, with best wishes for his early recovery from his serious illness.

Ontario and Quebec were equally represented in the steward's box by Lieut.-Col. Wm. Hendrie, George M. Hendrie, Colin Campbell and Bartlett McLennan.

Secretary Fraser, of the Chesterfield of the Canadian Racing Association, with office manager, J. E. Allen, moved their headquarters from Leader Lane to the Woodbine early on Saturday morning. A large staff, however, was not actively employed at the downtown office.

Francis Nelson, the popular presiding judge and D. King Smith, were again in the judges' stand, while E. Emore was paddock judge, and W. A. Hewitt controlled the infank.

MAN'S BODY FOUND ON LAKE SHORE. James Lynn, 111 Shaw street, discovered the body of a man about sixty years of age lying on the shore at the foot of Dufferin street this morning. The case was reported to the police at the Cowan avenue station and the body removed to the morgue. With the exception of a watch and a few cartridges there was nothing which would lend a clue to the man's identity. He was wearing a dark suit, with a grey tie and a gray fedora hat. From the appearance of the body it had been in the water but a short time.

Entire Federal Garrison Of 300 Put to Death

WASHINGTON, May 23.—Mexico City despatches to diplomatic sources here today reported that when Constitutional troops captured Tepica several days ago they put to death the entire Federal garrison of 300 officers and men. These despatches also confirmed reports that Gen. Obregon's forces were hastening on to Guadalajara and there was great apprehension among foreigners in that city. Bandits from the mountains were reported to be menacing the city.

SHOT AT WHILE DRAGGING BABES' BODIES FROM RUINS

Wives of Colorado Miners Make Charges of Fiendish Cruelty Against State Militiamen

OIL-SOAKED TENTS WERE SET ON FIRE

Special to The Sunday World. WASHINGTON, May 23.—With her three children burned up thru the fiendish destruction of the miners' tent camp, by men believed to be militia, Mrs. Holland, wife of a Colorado miner, told several senators informally today how, while she was dragging the bodies of her babes out the ruins, militiamen shot around her feet, possibly to make her dance.

This was one of the details unfolded to Senators Kern, Kenyon and Martin today by three wives of miners who waited upon them.

Mrs. Pearl Jolie declared that she had seen men in uniform, the inference being that they were members of the state militia, dip a broom in buckets and swab something on the tents. She added: "I think it was oil." Mrs. M. P. Thomas, also the wife of a miner, said: "I did not see the men put oil on the tents, but I did see men in uniform touch fire to the tents."

COTTAGERS MOVE OVER TO ISLAND. Many people with summer cottages at the island took advantage of the good weather yesterday to make their summer homes ready for the coming season. Many people have moved their furniture over during the past week. On Saturday afternoon many could be seen loading furniture on their motor boats along the waterfront.

ROYAL EDWARD STRIKES ICEBERG BUT IS UNHARMED

MONTREAL, May 23.—The steamer Royal Edward, of the C. N. R. line, struck an iceberg, while in the Gulf of St. Lawrence today, but did herself no harm.

Captain Wooten, in communicating the news of the collision to the C. N. R. offices here today, by wireless, said the boat was going dead slow, when a big berg loomed up. The Royal Edward grazed it, but suffered no damage.

SPITE FENCE REARED ON ST. CLAIR AVENUE

First in District Blocks the Light From Store Windows.

The first spite fence to be erected in the St. Clair district has made its appearance on St. Clair avenue, between the Belmont Theatre and the fine block of new stores immediately adjoining. It is made of wood and stands nearly 30 feet high, totally obscuring the light from ten windows which previously illuminated the stores. The properties are immediately west of Dufferin street on the south side of St. Clair avenue. The stores are nearing completion, and the theatre has but recently opened.

Litigation between the owner of the stores and theatre is likely to follow.

REMEMBERED DOG IN HIS LAST WILL

Five Dollars Set Aside for Faithful Friend's Burial—Entered for Probate

MONTREAL, May 23.—Strongly attached to his faithful dog, Samuel Cornes in making his last will and testament provided that the dog should not long survive, if he were the first to be called.

He wrote, therefore, "I do hereby will that, at my death, my faithful dog, Dandy, be painlessly put to death and buried, and the sum of five dollars be allowed for that purpose."

In his will, now entered for probate, Mr. Cornes also wrote: "I desire that my funeral shall be as plain as possible, consistent with economy. I do not consider it right for money to be buried."

LARGEST UNION IN TORONTO TO BE ORGANIZED

Sunday Mass Meeting Will Celebrate Failure of Toronto End of I.W.W. and Beginning of New Organization

LABORERS WILL BE WELDED TOGETHER

Many Nationalities in Proposal Which, if Successful, Will Mean Strongest International Local in Canada

Vincent De Falco general organizer of the Common Laborers' Union of America, which is conceded to be numerically the strongest in the world, will officiate at the burial of the Toronto I. W. W. Sunday when a mass meeting will celebrate the failure of the "Wont Works," and the inauguration of a combined association of the largest labor organization in the city of Toronto.

The history of the present move is remarkable because of the vicissitudes thru which it has passed, the magnitude of the undertaking and novelty of the result. Should the work of the Toronto organizer, H. Woodrow, and Mr. De Falco prove successful during the coming week Toronto will then boast of the wealthiest and strongest international labor organization in Canada.

More than ten years ago, when the Knights of Labor disbanded, the laborers were left to their own resources, and many of them being foreign-speaking workers, no attempt to reorganize them was possible. The English-speaking men framed up a union which was confined to Toronto, and have since that date accumulated funds and acquired a building on Nelson street, which is valued at more than \$20,000. On the other hand, a more recent organization was formed and called the general workers' union, but was in reality an offshoot of the Detroit I. W. W., and this venture has proven to be a failure.

The Trades and Labor Council, thru their organizer, Mr. H. Woodrow, got together a group of men who were hod carriers and general laborers, and framed up a union, affiliated with the parent group, which has a membership of more than 200,000, and Mr. De Falco has come to have his first mass meeting in the Labor Temple Sunday. He speaks fluently Italian, French and English, and the Bulgarian, Polish and Macedonian laborers are with him to a man. The Balkan workers will be present today, and it is safe to surmise that with a solidifying agreement existing between Polish, Macedonian, Bulgarian, Italian and English laborers, Mr. De Falco will create a laborers' organization of the greatest importance and strength ever known in Canada.

This fact, coupled with the enormous public undertakings that are under way or being contemplated in Toronto, presents surprising possibilities for organized labor in Toronto.

MURDERER OF TWO GIVES HIMSELF UP

Ruttan Surrenders to Police and is Now Safely Locked Up in Bracebridge Jail.

BRACEBRIDGE, Ont., May 23.—William Ruttan, murderer of George Coutermanche and Mrs. Alfred Coutermanche and who has been at large in the woods since the murder was committed on Wednesday last, defying capture, today surrendered himself to the police at his home in House's Rapids. He was brought to Bracebridge and placed in the district jail to await his preliminary hearing.

WILD BEASTS ON HUMBER TO POSE FOR MOVIES

Bottle-Fed Lions to Snarl Before Camera in Big Productions—A. R. Williams Property Sold

HULK ALSO BOUGHT FOR SCENIC USES

A real African jungle, with wild beasts of every description especially trained to look fierce at all times, will soon be established on the banks of the Humber River. The A. R. Williams property at Swansea, adjoining the Kingsway, has been purchased by a moving picture syndicate who intend to open and operate a fully-equipped studio for the production of photo plays. The property comprises four and a half acres and the price paid was \$20,000. It is understood that a large number of wild animals will be imported to give a realistic touch to the many tropical scenes that will be enacted on the banks of the once peaceful Humber.

An old hulk which has been lying at the foot of Church street for a long time has been bought by the company and will be transformed into a "Titanic" for sinking purposes only. Lake Ontario and the surroundings of Toronto are said to offer exceptional advantages for thrilling "movie" settings, and several big productions will be pulled off in Toronto within the next summer.

DUKE INTERESTED IN ROBERTSON COLLECTION

The governor-general spent an hour and a half going over the John Ross Robertson historical collection at the College street library with Mr. Robertson Saturday morning.

TWO WEEKS AND PARLIAMENT WILL BE OVER

Friday, June 5, Date Generally Set for Proration of Ottawa House, Tho' Much Must Be Done

SCHEDULE ARRANGED FOR COMPLETING WORK

Canadian Northern Resolution Will Be Taken Up on Tuesday—Second Reading to Be Moved Thursday

By a Staff Reporter. OTTAWA, May 23.—Altho the order paper of the house is congested with a great deal of important business, it seems to be universally understood that parliament will prorogue on Friday, June 5. The Canadian Northern resolution, still in committee, will be taken up on Tuesday. It is to be reported on the same day and the government bill founded upon it immediately introduced and read a first time. Wednesday will be given up to the Farmers' Bank legislation, and the second reading of the Canadian Northern bill will be moved on Thursday.

With the Canadian Northern bill out of the way, there is nothing to detain the house. The redistribution bill will not be proceeded with unless by common consent there is to be no opposition. A great deal of supply is still to be voted, but millions are often passed in a night when the members make up their mind to go home for the summer.

The opposition to the Canadian Northern legislation is not to be serious. Some Liberal members are outspoken in favor of the measure, and nearly all of the ex-ministers are disinclined to make it a party question.

Hon. William Pugsley is willing to make a fight, but he is not likely to be supported except by a handful of members, including E. M. Macdonald and W. M. German.

The Liberals are not in good fighting form. Some of their number favor the Canadian Northern bill, and others, for one cause or another, are taking little part in the parliamentary contest. Among these may be mentioned Dr. Clark of Red Deer, Mr. Wilson of Laval, Hon. H. R. Emmerson and Mr. A. K. MacLean.

CANDIDATES ARE ARRANGED FOR TWO DOUBLE RIDINGS

Excitement in Conservative Circles Dying Down—Constituencies Nearly All Settled

RIVERDALE ASPIRANTS MUST FIGHT IT OUT

Te redistribution, which caused quite a commotion in city Conservative circles, shows signs of abatement and expected strenuous competition for the various seats is not so likely to occur. The Sunday World learned on Saturday that two of the double-barreled constituencies have been arranged. These are now known as S. E. and S. W. Toronto. For the former the members slated to come before the convention are E. W. J. Owens, M.L.A., and Thomas Hook, and for the S. W. J. J. Foy, M.L.A., and George Gooderham, M.L.A.

For the N. E. and N. W. double ridings a fight is expected. For the N. W., W. D. Macpherson and Thomas Crawford are in running mates, but Trustee Conboy is regarded as likely to break up the combination.

In the N. E., Dr. Frye and W. K. McNaught will be put up, but Mark Irish has indicated his intention of having his name go to the convention.

The two wing ridings, Riverdale and Parkdale, are still undecided as to candidates. As a final compromise W. H. Price may take Parkdale, while the many aspirants in Riverdale will be left to fight out the matter at the convention on Tuesday.

SATURDAY'S CROWD AT WOODBINE RECORD ONE FOR KING'S PLATE DAY

U. S. EXPECTS CROP OF 880,000,000

Wheat Acreage Greatly Increased—Spring Wheat Will Total Quarter Billion

Special to The Sunday World. WASHINGTON, D.C., May 23.—Estimates given out today by the department of agriculture on the bumper wheat production show that the total 1914 production of winter and spring wheat combined may reach 880,000,000 bushels.

This is a result of a combination of the largest acreage ever recorded, with the promise of the largest yield per acre in years. There is not a single state in which the winter wheat prospect is unfavorable. The department of agriculture is figuring that the spring wheat crop will be about 250,000,000 bushels.

The amount of spring plowing is as above the average this year, despite the tardiness of spring.

SUNDAY WEATHER Fair and Warmer
