

## JANUARY BANK STATEMENT SHOWS SOUND CONDITIONS

Liabilities to the Public Increasing Rapidly but the Assets Growing Even More Rapidly—Some Comparisons With Last Year.

(Montreal Shareholder.)

Reflecting to a very large extent as does the bank statement the business of the country, that for January indicates the continuance of that sound business condition which prevails throughout the Dominion. While compared with December there is a falling off of \$8,000,000 in bank notes circulation, which reduced it to \$80,810,000, this amount is, at the same time, \$2,000,000 in excess of that at the corresponding date of last year, and while further contractions may be looked for during the next two months or so, there is little doubt but that the amount in circulation will keep about \$80,000,000.

The deposits have undergone considerable change, those in Canada on demand having been reduced during the month by \$1,224,075, which brought them down to \$131,722,884, but in the face of this the amount is \$27,700,000 in excess of those of a year ago. Those in Canada on time are \$309,490,814, which is an increase from December of \$12,018,690, while compared with January, 1902, there is a large increase of \$47,228,094. The aggregate deposits in Canada are \$231,221,289, which is an increase for the month of \$8,000,000, and one for the 12 months of \$80,810,000. Deposits elsewhere than in Canada have increased from December of \$3,128,000, and one for the 12 months of \$7,720,000, which brings them up to \$47,191,000. The aggregate deposits here and elsewhere amount to \$288,412,289, which is an increase for the month of \$11,128,000, and one for the year of \$77,710,000. This large expansion indicates not only the increasing thirst of the country, but the increased responsibility of the banks. Current loans in Canada are used at the time of the year, have a falling off for the month, amounting to \$7,148,000, which reduced the amount to \$431,377,207, but compared with a year ago, there is the large increase of \$38,000,000, which is an indication of the increased business requirements. These elsewhere are \$37,583,534, having been increased from December by \$8,400,000, and during the

twelve months by \$18,929,383. The aggregate current loans amount to \$468,900,861, and while they are \$17,404 below those of December, they are at the same time \$37,265,637 in excess of those of a year ago. Call and short loans on stocks, &c., in Canada were increased during January by \$4,536,637, and during the year by \$10,027,235, making the amount then loaned \$54,241,565, while those elsewhere, which are \$68,432,836, have an increase of \$7,222,816 for the month, and one of \$22,702,000 over January of a year ago.

In this we have an indication that Canadian banks did not fail to take advantage of the high rates for money which prevailed at the New York Stock Exchange during the month of January last. The aggregate amount of call loans here and elsewhere is \$122,674,401, an increase for the month of \$11,500,453, and one for the twelve months of \$38,275,210. Accounts with banks and agencies in the United Kingdom have undergone some changes in the direction of reducing the balances due to Canadian banks. Balances due to United Kingdom banks were increased during January by \$1,030,778, making the amount due \$1,030,778, and for the month by \$1,030,778, the balance due being \$3,324,571. This was a reduction during the month of \$3,148,138, as the account now stands, there is a balance of \$1,030,778 due to Canadian banks. Balances due to banks elsewhere than in Canada and the United Kingdom were increased from December by \$1,892,203, being shown at \$4,432,123, and balances due to banks elsewhere are \$1,892,203, the latter having been increased during the month by \$3,579,043, while at the same time they are \$2,540,000 lower than a year ago. The net balance at the credit of Canadian banks is \$14,471,494. It is clearly evident that the Canadian banks are not only increasing their liabilities to the public at a rapid rate, but that their assets show even a more than corresponding increase.
