BASE BALL

The best game that has been played on the Victoria grounds this year was won by the St. Peter's team last evening when they defeated the St. Rose's by a score of 3 to 1 in a six inning contest.

Table with columns: St. Peter's, St. Rose's, AB, R, H, PO, A, E. Scores by innings.

The Arizona pacer Bystander (21434) by Zolock (20814), worked a mile in 2:06 1/4, last half in 1:01 3/4, for Ed Hall at Phoenix recently.

The mile race at the opening matinee of the Gentlemen's Driving Club of Boston was such a success that other novelties will undoubtedly be tried at the club's matinee this season.

The 214 trot, which is to be one of the events to be offered in connection with the Sweet Marie-Diverton-Wentworth race at Readville, July 4, should bring out a strong field of trotters.

Ed Greer's candidate for the Chamber of Commerce stake, the black mare Ardelie, owned by F. G. Jones, showed a mile in 2:06 1/2, and a half in 1:02 1/4, at Memphis before the stable was shipped North.

The great trotting mare Alla Akworthy (21012), died from influenza at South Ovid, Eng. June 3. She was owned by Louis Winans, of Brighton, Eng., who has the largest and most valuable stable of trotters ever exported from this country.

She was one of the greatest three-year-olds that ever appeared on the turf and the race in which she was beaten by Grace Bond for the Kentucky Futurity two years ago was the greatest race ever trotted by colts of the age. She was foaled in 1901 and was by Nuptia.

Another of Mr. Winans' horses, Susto N. (20914), one of the crack three-year-olds of last year was dangerously ill with the roller skating.

The necessary arrangements for the use of the St. Andrew's rink for roller skating have been completed, and Charles Campbell said this morning that it was expected everything would be in readiness, so that the rink would be opened on Dominion Day, July 2nd.

A number of the centre posts are to be taken out so as not to interfere with the skaters and the entire building will be put in first class shape.

It is intended to have a band to play afternoons and evenings, and other sports will be introduced. Mr. Campbell thinks that roller skating will prove very popular in St. John, and he intends to make the rink as attractive as possible.

The Montreal rink has also been arranged for and a floor is now being laid. Amherst will probably also be included in the scheme, as negotiations are now under way to lease the Hamilton rink there. It will thus be seen that roller skating will be boomed in this section of the country this year and it is probable some very interesting contests will be seen as soon as the devotees of the sport become proficient in negotiating the wheel-ed footgear.

It is also announced that the Victoria rink will be flooded over and roller skating introduced there, and there is talk also of the Queen's rink being utilized for the same purpose, so far as can be learned the latter proposition has fallen through. However, with two rinks here devoted to the sport there should be some interesting and pleasant times this summer.

Harry Nelson Pillsbury, the chess master, died at Philadelphia, Sunday, of apoplexy, after an illness of many months. Pillsbury was born December 5, 1872, at Somerville, Mass., where the body was taken. Pillsbury learned the rudiments of chess when a boy, in Boston. His first notable victory was over John F. Barry, of Boston, in 1891. Other victories made him one of the quartet of the then most famous players named to compete at St. Petersburg-Laskey, Steinitz, Teichgrm and Pillsbury. His score with the world champion, Laskey, was 3 1/2 to 2 1/2.

In 1897 Pillsbury won from Showalter, the American chess champion, which was confirmed by a second match with Showalter in 1898.

Pillsbury showed his chess genius not alone by match and tournament play, at blindfold chess, it is said he record has never been equaled. At Moscow he played 22 games without eight of the boards and at Philadelphia 20 games, which last he repeated at Vienna.

THE F. M. A. EXTRAVAGANZA Second Production of the Gypsy Festival at the Opera House Was Much Enjoyed.

The F. M. A. Extravaganza was given a second presentation in the Opera House last night, and it met with the approval of the large audience present.

Last evening's performance ran without a hitch and the splendid singing of the lady soloists redounded greatly to the credit of their instructor, A. Chip, Ritchie, as well as to the singers themselves.

Misses Jessie Wetmore and Stella Pyne sang beautifully and merited the loud applause meted out to them, while Miss Kathleen Hogan has a splendid voice and sang with good effect. Misses Alice O. Rogus and Florence O'Neil rendered their solos in a pleasing manner.

The male soloists were all good, and seemed right at home on the stage, particularly David Higgins, who before introducing himself as Jake Mulberry, peeler, made a few complimentary remarks about the Ladies.

The chorus was strong and the voices blended beautifully. The May-pole dance was very pretty, while the little girls' fancy drill evoked much favorable comment, and the little touch on the end came in for a large portion of the applause on account of the great cleverness she displayed.

The Ocellan Orchestra rendered a selection in their usual admirable manner. Miss Florence O'Neil acted as accompanist.

The Gypsy Festival was a great undertaking for the Father Mathew Society, but work well done as always appreciated, and the society's success is due to its untiring efforts.

Sin Against Health Why the Usefulness of all Organs is Destroyed by Costiveness.

Most important to health and comfort is proper action of the bowels. By nature these organs are intended for the removal of the waste particles of matter which accumulate in the system.

Retain these wastes and you poison the blood, ruin digestion, bring on nervousness and anemia.

Habitual costiveness is best overcome by Dr. Hamilton's Pills, which establish regularity that is exactly consistent with nature.

Not a drastic purgative—not even a pain or sensation of grip, because Dr. Hamilton's Pills are vegetable and free from irritating mineral substances found in so many widely advertised remedies.

In every case Dr. Hamilton's Pills do cure and bring sure relief from headache, biliousness and other manifestations of constipation.

Dr. J. M. McConnell, of Walkerton, writes: "Since I used comparatively a young man I have not enjoyed real good health. My appetite was good and strength kept up, yet I knew something was wrong."

"Frequently I took bilious attacks and violent headaches. My stomach was disordered, skin was mucky, under my eyes were heavy dark rings."

"Last winter I read through the 'Pills' and decided to try them. I took the first box, and decided my poison was expelled. I used Dr. Hamilton's Pills, and can hardly tell the help they have been. I am now as fresh, strong and well as a boy."

"Just try the wonderful magic of Dr. Hamilton's Pills. Sold by all dealers, 25c per box, or five boxes for \$1.00. By mail from N. C. Polson & Co., Hartford, Conn. U. S. A., or Kingston, Ont."

Fred Blundell, of Yarmouth, was registered at the New Victoria yesterday.

Mrs. George Barnes, of Boston, who has been visiting Mrs. John Robertson, of west side, left on the Calvin Austin this morning on her return to the Hub.

CITY LABORERS ARE DISGUSTED

At the Manner in Which Their Petition Has Been Treated by Council.

A meeting of the City Laborers' Union was held last night in Sutherland's Hall for the purpose of discussing the common council's attitude as regards the petition which they sent them for an increase in wages.

Next important is to know how promptly the petition was received and how it was treated. The committee will make also the following recommendations to conference: That the Portland and Zion churches, St. John, be made one circuit, with two ministers, those taking charge of Indianots and Millidogville;

That Kennebec street church secure an assistant pastor or deaconess; That the Sussex circuit be divided so that the town of Sussex shall constitute one circuit and the other sections be formed into a separate circuit;

An Enclosure Suggestion

Did you ever stop and figure that the two cents expended in carrying every letter you write will do more than carry that letter? It will also carry additional matter about equal in weight to the letter and envelope. This extra penny's worth of postage can be utilized by enclosing with your letters neat circulars or folders advertising your business, which, if strikingly gotten up, will often gain more attention than if mailed separately. Try this experiment once, with the right kind of printed matter—the kind we do—and you will be convinced.
