GROCERY REPORT FROM THREE CITIES OF DOMINION

The following comment on the market situation regards food stuffs appeared in Canadian Grocer last week: The conditions of all markets continue in a firm undertone. Deliveries of sugar are coming forward and regular shipments from now on are expected. The amendment to the budget has been ratified and prices on lines that are affected by the tax will be readjusted. Business on some lines is reported quiet, but generally business is normal for this season of the year.

The general tendency of the market this week is for higher prices with only a few exceptions. Butter is dearer and the cheese market continues strong. Eggs are unchanged in price. Halibut is dearer, while the lake fish has a tendency to be a little easier. Cooled meats are very strong on the market and the demand is steadily increasing. The sugar market is rather strange, since prices quoted are purely nominal and almost any price is being paid for supplies. The vegetable market is much stronger this week with higher prices as a feature. In the miscellaneous lines, condensed and evaporated milk is dearer. Spices are a little easier in price. There is no change in the fruit prices.

Toronto:—The condition of the markets generally are firm to higher. Supplies of granulated sugar have improved, a small shipment has been distributed amongst the wholesalers and further shipments are expected to arrive this week. The market for molasses is very strong, with a scarcity noted on Barbados even at the extremely high prices that are quoted. The situation in cereals is peculiar; manufacturers state that it is impossible to manufacture cereals at the prices quoted. The fact that business on this line is quiet and jobs are well stocked is a factor that is keeping down prices. Rolled oats in one quarter has advanced to \$6.45 per bag, but there are some jobbers quoting rolled oats at a dollar a bag below this figure. Corn flakes in the U. S. have advanced one dollar a case. This is an indication that higher prices can be expected here due to the fact that American corn is used in the manufacture of corn flakes. There is no change in the market for spices; prices are fairly steady with the exception of peppers. Peppers are unsettled with an easier undertone. Japan teas are very high in price and a scarcity noted. High-grade Ceylons and Indias are difficult to obtain, while low grades are cheaper. The market for tea showing any quality firm. Canned goods are in active demand and prices are holding firm. The market for nuts in the shell has recovered from the slump of a couple of weeks ago; quotations are now slightly in advance of those previous to the decline. There is an indication that Southern rice may be higher, especially on the better grades. The samples of southern rice being submitted to importers are of poor quality, mostly showing yellow spots caused by rain. Eastern

Winnipeg:—The local market has been very quiet this week, due largely to the heavy pressure being brought to bear by the financial houses. The budget during the week has been thoroughly discussed by both the wholesalers and retailers, and while these firms are greatly in favor of the proposed tax, in order to help pay off the deficit owed by Canada, there is a feeling that many adjustments will have to be made to make it all feasible. From the latest reports, sugar is due for an advance. The tea market is in a very erratic state. Good quality teas are firm, while the lower and medium grades have shown a decided decrease. Canned goods from the South showed an advance of 30 cents a case this week. The prune market is very quiet, due largely to the high prices which these goods are being offered to the trade. The primary rice market is lower. Flour is expected to advance. New fruits and vegetables are arriving daily. Strawberries are reported scarce.

Montreal:—The general tendency of the market this week is for higher prices with only a few exceptions. Butter is dearer and the cheese market continues strong. Eggs are unchanged in price. Halibut is dearer, while the lake fish has a tendency to be a little easier. Cooled meats are very strong on the market and the demand is steadily increasing. The sugar market is rather strange, since prices quoted are purely nominal and almost any price is being paid for supplies. The vegetable market is much stronger this week with higher prices as a feature. In the miscellaneous lines, condensed and evaporated milk is dearer. Spices are a little easier in price. There is no change in the fruit prices.

ways tried to do what I could for my country, and have never consciously said a word to offend anybody, no matter what was his religion or politics. A DANGEROUS WARNING—BLEEDING GUMS

Are your gums tender? Do they bleed when brushed? If so—watch out for Pyorrhoea. This disease of the gums, which afflicts four out of five people over forty, not only destroys the teeth, but often wrecks the health. In Pyorrhoea, the gums become spongy, then recede; the teeth decay, loosen, and fall out—or must be extracted to rid the system of the infecting Pyorrhoea germs which breed in the pockets about them. These germs lower the body's vitality and cause many diseases. You can keep Pyorrhoea away. Visit your dentist often for tooth and gum inspection, and use Forhan's according to directions, and consult a dentist immediately for special treatment.

Forhan's For the Gums prevents Pyorrhoea—or checks its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean. Start using it today. If your gums have receded, use Forhan's according to directions, and consult a dentist immediately for special treatment.
