

## Miramichi and the North Shore, etc.

SHOW flew about in the Miramichi air yesterday.

FRANCIS ENGLISH dry goods clerk wanted. See advt.

REV. M. McLENNAN'S Farewell Sermon will be found on the first page.

CHINA, GLASS, AND EASTERNWARE are advertised by Mr. Geo. Stothart.

THE "ANDOVER" is running to Chatham, Newcastle and other points.

PERSONAL.—Mr. Thos. Marquis is home from college for the summer vacation.

DWELLING AND SHOP.—Mrs. Lyons advertises a dwelling and shop to let.

THE MILLS.—Among the mills at work are Snowball's, Hutchison's, Borelli's and Sargent's.

FURNITURE of all kinds will be found in great variety at Mr. Paine's, Newcastle. See advt.

UPPERMANS.—Mr. Wm. McLean is keeping well up with the times in the undertaking business. Read his advt.

THE "DEUCE" Piano was sold at auction on Saturday last and purchased for \$190 by Mr. Wm. Johnson of the Canada House.

WHAT OFFICE was it that Mr. Turgoon of Gloucester was promised by the Dominion Government? Mr. Turgoon says it was a good one.

THE ICE still remains unbroken in the river below, although we have had clear water since Saturday down to, and below Sheldrake Island.

TICKETS for the dance in Masonic Hall, Newcastle, on Tuesday next, are for sale at Mackenzie's Drug Store, Chatham, at one dollar each.

"ELEKTON," HARDWICK.—Your communication is received, but before publishing it we would like to have an explanation of one or two points in it.

SCHOOL EXAMINATIONS.—We are obliged again to hold over our notes of Chatham school examinations and also those sent by our Hardwick correspondent.

SEKES.—Attention is directed to Mr. Mackenzie's large and varied stock of seeds. He has had them carefully put up from selected stocks and they are without doubt fresh and reliable.

NEW OVERSEER.—Mr. J. A. Verge, of Quebec, nominee of Mr. Beauchance, has been appointed Overseer of Fisheries for the Restigouche District, vice Overseer John Mowat, whose resignation was accepted in February last.

PROPERTY SALE.—The sale of the Lobban property advertised this week offers an excellent chance for the securing of nice building lots. Quite a large portion of the property, however, is to be offered in one lot and will make an excellent market farm.

THE "WORLD" says if Mr. Mitchell doesn't run for Northumberland and take Mr. Snowball's place, two or three others are ready and willing to do so. Just so, the whole eight of them would like to run. The "World" will get used to our affairs by and bye and learn to keep cool.

THUNDER.—It is actually, had thunder showers at St. John on 2nd of May, although the Kennebec, Miramichi, Bathurst Harbor and almost all other inland and semi-inland Provincial waters were frozen up. On the evening of the same day a blinding snow storm prevailed at Chatham.

FOR SUMMER.—Mr. Alex. Robinson has on hand a very large stock of goods of different kinds, of his own make, also carts, slovens, etc.—a variety from which almost any requirement may be met. He has also a lot of second-hand waggons in good repair for sale cheap, to make room for new stock.

GOOD SHOOTING.—Our Hardwick correspondent writes—"C. S. Ramsay Esq., has been in Hardwick the last few days gunning. On Tuesday the 2nd Mr. Ramsay and Mr. Ramsay shot 16 geese and 5 smaller birds; besides these Mr. Ramsay succeeded in shooting a good many geese, ducks and ducks. He will take a fine lot of fowl to Newcastle when he goes home."

A CORNER IN TRADE.—Mr. Gibson has, we are told, bought all the deals in the Province. His shipments during the past few weeks have been enormous, and he is fully two million feet in debt.—*Fredericton Herald.*

THE St. John River is not quite the whole Province, just yet, and we doubt whether Mr. Gibson has secured all the deals, even there. It will be found that Mr. Gibson has not bought even one half of all the deals in the Province.

FOR THE "TELEGRAPH."—A correspondent sends us the following for an explanation:—"The Alexandrovna was bound from Rotterdam, in ballast, to Cardiff, to load for Calcutta, having sailed from Rotterdam about ten days ago, after discharging a cargo of wheat loaded at Calcutta."

The sentence occurred in an item in the *Telegraph* of 3rd inst., and we confess that we cannot understand it. Perhaps the *Telegraph* will explain how the vessel came to sail from Rotterdam after discharging a cargo of wheat at Calcutta, and what Rotterdam had to do with Calcutta in the matter?

THE "ADVOCATE" intimates that an extra sent from this office last week was with the compliments of Mr. Snowball, M. P. This is untrue. We believe Mr. Snowball obtained some of the same sheets and had them sent out, with his compliments, to our subscribers in Newcastle who did not get our extra. Well, our circulation there was larger than our supply of the extra, and we were obliged, reluctantly, to slight some of our best friends. If the *Advocate* has "none" out any other matter connected with our business and will let us know, we will do what we can to explain. Meantime we hope our esteemed contributors will preserve its temper.

Melancholy Accident.

Our Hardwick correspondent, writing on 4th inst., says—"An accident happened in this Parish, to-day, which resulted in the death of a fine young man about 25 years of age, whose name was Joseph Manuel, Jr. He was out in a flat-bottomed boat, shooting, and fired at a flock of ducks and the boat upset; he got hold of the boat and drifted down the channel, which runs out between Hockleberry Island and McLean's Beach, and which is known as McLean's Gully. There was no other boat in the channel but the one and he could not be reached until the boat

drifted down a long distance and caught against a point of ice. He did not let go his hold of the boat, and Joseph Martin got him. He was then insensible. He was conveyed to Daniel McLean's house where all available remedies were applied to restore him, but he died soon after he was got to the house. The deceased leaves a wife and one child."

Curious.

Chatham had the honor of playing the first game of curling of the season now closed and also the last. The ice at the Club's rink was in fair condition on Friday morning, 5th inst., when sides were made up about half past six o'clock and a game played as follows:—

Joe Bassett, Wm. Johnston, Geo. Stothart, R. Murray, Arthur Johnston, Wm. Wilson, Alpt. D. Cheam, skip 5.

Later curling than this has never been played in Canada.

Bathurst Notes.

MAY 9th, 1882.

Henry C. Baldwin, Esq., Registrar of Deeds and Judge of Probates for this County, died at his residence on Tuesday the 2nd inst., as stated in last week's *Advocate*. Having been a resident of Bathurst for upwards of half a century and during a very large portion of that period held the most important public offices in the County, his death calls for more than a mere passing notice and affords a fitting opportunity for a short sketch of a life that has been so largely devoted to the public service. He was an Englishman by birth and emigrated to St. John when a boy. He came to Bathurst from St. John in the year 1831 and engaged in mercantile pursuits in partnership with Mr. Frank Wheeler. On the 4th April, 1837, he was appointed sheriff of the County, which office he held till the year 1833, when he was succeeded by Sheriff Carman. He was again appointed to the office in 1835 and resigned in 1837, when he was succeeded by Sheriff Wilson. He was a very efficient officer. Dignified and energetic in his manner, and possessing good administrative abilities, he performed the duties of his office in a manner which was creditable to himself, the office and the County. In the year 1840 he was appointed Registrar of Deeds, succeeding the late William End. In 1842 he was appointed Judge of Probates, both of which offices he held till his death. In his official capacity he was ever courteous and attentive, and he possessed in a marked degree the entire confidence of the public. It will be no reflection on his successor to say that it will be with some regret that his position is successfully filled. He had the records at his finger ends and information received from him upon whatever subject was always to be relied on. He was sworn in to all the above offices by the late William End. In 1855 he was appointed a Notary Public and was granted the freedom of the City of St. John in 1859. Minership was his favorite subject, upon which he was thoroughly posted. In his younger days he explored several of the rivers of the County in search of minerals, which resulted in his discovery of what are known as the Baldwin copper mines on the Nepisiguit River and to which the attention of American capitalists has lately been directed. He was always sanguine of successful ultimate results from these mines. He died peacefully of consumption, after a long illness, at his residence in Bathurst, on Tuesday the 2nd inst. He was buried in the St. John's Roman Catholic cemetery, and his funeral was held on Friday the 5th inst. He was a man of a kind, brotherly and thoughtful and affectionate father. His circle of friends was large and extensive. Prominent in it was Thos. M. DeLois, Esq., of the St. John News Room, with whom he had been acquainted upwards of fifty years. His funeral took place on Thursday last and was largely attended. The pall-bearers were Thos. DeLois, Esq., George Smith, D. G. Macdonald, Charles Moore, J. S. O'Brien, John T. Carter and John Kerr. The Rev. Mr. Street officiated. The latter gentleman, on Sunday evening last, preaching from the text, "There remains a rest for the people of God," paid a warm tribute to the memory of the deceased gentleman.

SCHOOL EXAMINATIONS.

The examinations of the public schools which took place on Friday the 28th ult. were very creditable and satisfactory. In the Grammar School the scholars were examined in reading, spelling, narrative composition, arithmetic, practical machine, French (reading, translating and parsing) Latin reading, translating, parsing and scanning. The Latin class were subjected to a severe examination in the Government's release the three imprisoned members of Parliament. Earl Gladstone stated that the reconsideration of the prisoners' cases would not extend to the case of Michael Davitt.

Mr. Gladstone, in the Commons, made an announcement similar to that of Earl Gladstone's that a large number of other states would be cleared, and that the Government, instead of renewing the Coercion Act, would introduce a measure

remedying the administration of justice in Ireland. He said instructions had already been sent to Ireland for the release of three imprisoned members of Parliament and that the last of suspects is being carefully considered with a view to release all except those arrested on suspicion of having been personally concerned in outrages. These releases were regarded as the Government's sole responsibility. Mr. Gladstone stated that Mr. Forster resigned because he was not willing to share this responsibility, and that Mr. Forster would make a personal explanation on Thursday. The measure which the Government will introduce remedying the administration of justice in Ireland, deals with the protection of life and property.

Mr. Seton, at the conclusion of Mr. Gladstone's remarks, said that the Government had taken the first step in a policy which would cover the country in any form, counterfeit or imitation of RITTERS, especially Bitters or preparations with the word RIT or HORS in their name or connected therewith, that is intended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as FOR BITTERS. The genuine have cluster of GREEN HORSES (notice this) on the white label, and are the purest and best medicine on earth, especially for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of HOR BITTERS published in papers or for sale, as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted.

HOR BITTERS MFG. CO., Rochester, N. Y.

One of the most revolting crimes ever committed was the murder of a man, after a long and painful illness, at his residence on Tuesday the 2nd inst., as stated in last week's *Advocate*. Having been a resident of Bathurst for upwards of half a century and during a very large portion of that period held the most important public offices in the County, his death calls for more than a mere passing notice and affords a fitting opportunity for a short sketch of a life that has been so largely devoted to the public service. He was an Englishman by birth and emigrated to St. John when a boy. He came to Bathurst from St. John in the year 1831 and engaged in mercantile pursuits in partnership with Mr. Frank Wheeler. On the 4th April, 1837, he was appointed sheriff of the County, which office he held till the year 1833, when he was succeeded by Sheriff Carman. He was again appointed to the office in 1835 and resigned in 1837, when he was succeeded by Sheriff Wilson. He was a very efficient officer. Dignified and energetic in his manner, and possessing good administrative abilities, he performed the duties of his office in a manner which was creditable to himself, the office and the County. In the year 1840 he was appointed Registrar of Deeds, succeeding the late William End. In 1842 he was appointed Judge of Probates, both of which offices he held till his death. In his official capacity he was ever courteous and attentive, and he possessed in a marked degree the entire confidence of the public. He was again appointed to the office in 1835 and resigned in 1837, when he was succeeded by Sheriff Wilson. He was a very efficient officer. Dignified and energetic in his manner, and possessing good administrative abilities, he performed the duties of his office in a manner which was creditable to himself, the office and the County. In the year 1840 he was appointed Registrar of Deeds, succeeding the late William End. In 1842 he was appointed Judge of Probates, both of which offices he held till his death. In his official capacity he was ever courteous and attentive, and he possessed in a marked degree the entire confidence of the public. It will be no reflection on his successor to say that it will be with some regret that his position is successfully filled. He had the records at his finger ends and information received from him upon whatever subject was always to be relied on. He was sworn in to all the above offices by the late William End. In 1855 he was appointed a Notary Public and was granted the freedom of the City of St. John in 1859. Minership was his favorite subject, upon which he was thoroughly posted. In his younger days he explored several of the rivers of the County in search of minerals, which resulted in his discovery of what are known as the Baldwin copper mines on the Nepisiguit River and to which the attention of American capitalists has lately been directed. He was always sanguine of successful ultimate results from these mines. He died peacefully of consumption, after a long illness, at his residence in Bathurst, on Tuesday the 2nd inst. He was buried in the St. John's Roman Catholic cemetery, and his funeral was held on Friday the 5th inst. He was a man of a kind, brotherly and thoughtful and affectionate father. His circle of friends was large and extensive. Prominent in it was Thos. M. DeLois, Esq., of the St. John News Room, with whom he had been acquainted upwards of fifty years. His funeral took place on Thursday last and was largely attended. The pall-bearers were Thos. DeLois, Esq., George Smith, D. G. Macdonald, Charles Moore, J. S. O'Brien, John T. Carter and John Kerr. The Rev. Mr. Street officiated. The latter gentleman, on Sunday evening last, preaching from the text, "There remains a rest for the people of God," paid a warm tribute to the memory of the deceased gentleman.

SCHOOL EXAMINATIONS.

The examinations of the public schools which took place on Friday the 28th ult. were very creditable and satisfactory. In the Grammar School the scholars were examined in reading, spelling, narrative composition, arithmetic, practical machine, French (reading, translating and parsing) Latin reading, translating, parsing and scanning. The Latin class were subjected to a severe examination in the Government's release the three imprisoned members of Parliament. Earl Gladstone stated that the reconsideration of the prisoners' cases would not extend to the case of Michael Davitt.

Mr. Gladstone, in the Commons, made an announcement similar to that of Earl Gladstone's that a large number of other states would be cleared, and that the Government, instead of renewing the Coercion Act, would introduce a measure

remedying the administration of justice in Ireland. He said instructions had already been sent to Ireland for the release of three imprisoned members of Parliament and that the last of suspects is being carefully considered with a view to release all except those arrested on suspicion of having been personally concerned in outrages. These releases were regarded as the Government's sole responsibility. Mr. Gladstone stated that Mr. Forster resigned because he was not willing to share this responsibility, and that Mr. Forster would make a personal explanation on Thursday. The measure which the Government will introduce remedying the administration of justice in Ireland, deals with the protection of life and property.

Mr. Seton, at the conclusion of Mr. Gladstone's remarks, said that the Government had taken the first step in a policy which would cover the country in any form, counterfeit or imitation of RITTERS, especially Bitters or preparations with the word RIT or HORS in their name or connected therewith, that is intended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as FOR BITTERS. The genuine have cluster of GREEN HORSES (notice this) on the white label, and are the purest and best medicine on earth, especially for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or recipes of HOR BITTERS published in papers or for sale, as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted.

HOR BITTERS MFG. CO., Rochester, N. Y.

One of the most revolting crimes ever committed was the murder of a man, after a long and painful illness, at his residence on Tuesday the 2nd inst., as stated in last week's *Advocate*. Having been a resident of Bathurst for upwards of half a century and during a very large portion of that period held the most important public offices in the County, his death calls for more than a mere passing notice and affords a fitting opportunity for a short sketch of a life that has been so largely devoted to the public service. He was an Englishman by birth and emigrated to St. John when a boy. He came to Bathurst from St. John in the year 1831 and engaged in mercantile pursuits in partnership with Mr. Frank Wheeler. On the 4th April, 1837, he was appointed sheriff of the County, which office he held till the year 1833, when he was succeeded by Sheriff Carman. He was again appointed to the office in 1835 and resigned in 1837, when he was succeeded by Sheriff Wilson. He was a very efficient officer. Dignified and energetic in his manner, and possessing good administrative abilities, he performed the duties of his office in a manner which was creditable to himself, the office and the County. In the year 1840 he was appointed Registrar of Deeds, succeeding the
