

FROM ALL OVER THE MARITIME PROVINCES

MONCTON

Moncton, N. B., April 11—Con. John Coffey, who lost his residence and all its contents by fire at Sheldie last night, is a heavy loser. He recently purchased the residence belonging to the late Con. McFadden and removed his family from Moncton. His loss as the result of last night's fire will be in the vicinity of \$3,000. His insurance on the house and furniture was about \$2,700, but the loss, it is estimated, will be double that amount.

The board of directors at a meeting tonight, decided to recommend to the city council the tender system in the construction of permanent sidewalks. Last year the criticism was that the concrete sidewalks cost too much, and were not laid in accordance with the system adopted in other cities with more experience. This year it is proposed to set about \$200,000 on permanent sidewalk and tenders will be asked, if the board of works' recommendation is adopted.

W. H. Edgett, who has been conducting a wholesale feed business in this city for some years, has just returned from the west. He is so enamored with the country that he will leave with his family early in May for Vancouver to make his home in future.

Gordon Bowser, late manager of the Royal Bank at Edmundston (N. B.), is in the city and leaves in a day or two for Vancouver to take charge of a branch.

The skating rinks are still in operation here. Not for many years can the oldest inhabitants remember such a prolonged skating season. At Sunny Brae rink tonight there was a good sheet of ice, and many skaters were in attendance. Curious to see, but the local club has closed for the season.

Moncton, N. B., April 12—Death came suddenly to George T. McCoy, boilermaker, while at work in the I. C. R. now shops this afternoon. Mr. McCoy had just eaten his dinner and returned to work, apparently in good health. He was found a piece of iron, when a fellow workman, John Scott, noticed him collapse and sink to the floor.

Death was almost instantaneous, as he never spoke or moved after Dr. Chamberlain was summoned, but McCoy was dead before he could reach his side. Coroner Purdy was called but deemed an inquest unnecessary, pronouncing death due to heart disease.

Deceased was about 56 years old and is survived by a wife and five children, four sons and a daughter. The sons are George, Boston, Louis, of the Royal Bank, Dalhousie (N. B.), Calvin and Charlie, at home. The daughter, Jean, is at home. Two brothers, William McCoy, of the I. C. R., Moncton, and Alfred McCoy, St. John, also survive. Deceased had been employed in the I. C. R. boiler shops over twenty years.

The fire department was called out this afternoon for a slight blaze on the roof of a house in Poppy Main street, owned by Mrs. Geo. M. Ryan and occupied by Dr. McCully and Fritz Hall. The damage

The hotel clerk and hack driver who indulged in a fight at the I. C. R. depot yesterday paid dearly for their fun in the police court today, each being fined \$20 and costs.

A well known proprietor of a restaurant today was fined \$50 for keeping a gambling house.

Chief Rideout received a telegram from Paines this evening to the effect that a drunken riot was in progress in an Indian camp at that place and asking that officers be sent out to prevent murder and quell the disturbance. As the district beyond Chief Rideout's jurisdiction the officers were not sent, but further inquiries were made, when it was learned the trouble among the dusky braves was started by two or three under the influence of fire-water. The sober Indians attempted to quiet the boisterous ones with the result that there was a lively fight, but as far as could be learned no serious damage was done, although the camp was still noisy with war whoops at 10 o'clock.

At a meeting of the Moncton hospital board tonight the question of installing an X-ray apparatus was discussed and it was decided to meet with the committees of labor organizations next Thursday night to further consider the matter.

LUMBERMEN EXPECT CLAIMS TO BE GRANTED

Asking for Repeal of Clause 10 of Canadian Water Carriers' Act

Wednesday, April 12. Prevented by lack of time and the inability of several of the leading members of the marine and fisheries committee to attend the conference, the lumbermen's delegation which went to Ottawa on Thursday last to ask for a repeal of clause 10 of the Canadian Water Carriers' Act, has returned, but will go back in still greater numbers on April 25, when the matter will be adjusted. In case the committee recommended the repeal of the act, Hon. Wm. Pugsley, minister of public works, who has given the lumbermen every assistance, assured them that the repealing act would be a government measure in order that it might be pushed through the house before prorogation. The lumbermen met here on Thursday with Dr. Pugsley, Hon. L. P. Brodeur, minister of marine and fisheries, and several members of parliament on Friday afternoon at 4 o'clock. First Mr. Taylor read the petition taken to Ottawa by the delegation and largely signed in every lumber shipping district in New Brunswick and Nova Scotia. The clause objected to. "In case of wood goods, notwithstanding anything in the charter party, bill of lading, or other shipping document, the owner, charter, master or agent of the ship, or the ship itself, shall only be bound to deliver to the consignee, the pieces received from the shipper, and shall not be held responsible for deficiency in measurement; and any words inserted in any charter party, bill of lading or other shipping document, shall be null and void, and of no effect, if they conflict with the provisions of this clause." The lumbermen to the shipping clause as very injurious to their business and J. Fraser Gregory, in a vigorous speech, presented their views of greater length. Owing to the short time available it was decided to postpone further discussion, and the lumbermen were invited to return on April 25.

Mr. McKean's Views. To a Telegraph reporter yesterday Geo. McKean, a member of the delegation, gave some of his views on the repeal of clause 10 of the Canadian Water Carriers' Act. "It seems to me," he said, "that this is the most important question which New Brunswick has faced for some time. It is simply asking that the ship owners continue to sign a clean bill of lading, or in other words become responsible for so many pieces of deal and so many superficial feet. English lumber merchants have notified us that unless they get the conclusive evidence of the clean bill of lading, the shipper will have to make a guarantee that the quantity shipped in the bill of lading will be delivered to them. This would necessitate the shipper sending someone to every point where the cargo is discharged to see that the stuff is not stolen or taken away. This, in my opinion, could not be done under 80 cents per thousand feet, and it would therefore cost the province of New Brunswick alone about \$90,000 per annum if this clause is not repealed. As the middlemen or wholesale lumber merchants ship this stuff either on commission or on a very small profit, this \$90,000 would come out of the manufacturers' pockets."

"On different occasions I have sent cargo to Australia and to Spain. It is hardly practicable to despatch a man to either of these points for the sole purpose of looking after one cargo. The Russians are bidding very keenly for this Australian trade and it is an unjust discrimination against the Canadian ports to have this Carrier's Act in force. The same thing applies to the British and Irish ports, where the Russian lumber is getting quite a foothold. None of the countries which compete for the trade of the world have to meet this unfair legislation."

Mr. McKean said he had been told on good authority that the act when passed at the behest of the owners of a Nova Scotia steamer carrying 1750 standards, which had been loaded in four days at St. John, several times. Owing to the haste in loading, the steamer had to pay heavy claims by reason of deals lost and this legislation followed.

Mr. McKean said it was ridiculous that the act should be passed for the protection of such big concerns as the Furness, Elder Dempster, Donaldson, Head Line, Lord Line, and others against the small shippers and manufacturers of New Brunswick. It was passed, he said, without the knowledge of anyone connected with the business and in utter disregard of the rule of the port trade.

Another argument used against the legislation is that it will prevent the shipping from raising money on their bills of lading, although they might be the owners of valuable cargo, under clause 10 they would be unable to raise a dollar thereon.
