BALKANS STATES BREAK DOWN TURKEY THE RECKONING ON DEFENSES OF ALLIES

Montenegro Takes the Lead

Servers Its Diplomatic Relations With the Sultan

Powers Outwitted in Their Efforts to Prevent the Outbreak—Collective Note to the Alliance Arrived Two-and-a-Half Hours Too Late—Will Endeavor to Limit Zone of Hostilities.

Paris, Oct. 8.—A general conflagration in the Balkans is expected by officials here within forty-eight hours. Montenegro's declaration of war against Turkey is regarded merely as the beginning. It is believed that the other units in the Balkan coalition will follow suit as soon as the mobilization of their armies is complete. There is only a faint hope now that the representation of the powers will avert general hostilities.

Montenegro's move is considered in Paris to be all a part of a pre-arranged plan. It is asserted that Greece was first selected by the Balkan coalition to force the issue, and inaugurate the war. This could easily have been done by Greece yesterday night to the residence of his brother, accompanied by his sister, Mrs. H. H. Hutchison, of Boom Road, was buried yesterday afternoon. Rev. Dr. Cooper conducted the services here, and Rev. E. Piper at the grave. The funeral was attended. A magnificent casket was sent by the South Methodist church, of which deceased was an active member. SAW LARGE VESSEL BURN OFF SAMBRO

Lighthouse Keeper Sent Wireless Message to Halifax of Disaster Last Night—Government Steamer Starts to Search for Crew.

Halifax, Oct. 8.—At 9 o'clock this evening Light House Keeper Gilkie, at Sambro, sent a wireless message to the agent of the marine department at Halifax that a large vessel or steamer was on fire off Prospect, west of Sambro. An hour later he sent a second message that the vessel had sunk. No other particulars were available. The marine agent at once ordered the government steamer Aberdeen to effect a search for the vessel.

Montenegrin forces and amid the enthusiastic cheers of the people, King Nicholas, with Prince Mirko, his second son, and staff rode early to the mountains to survey the positions.

Paris, Oct. 8.—Bulgaria, in reply to the powers, will thank them for their interest in the cause of the Balkan people, according to a despatch from Sofia, that the exact date of the signing of the peace treaty will be determined by the powers to obtain from Turkey a similar promise of return. The correspondent adds: "Bulgaria cannot afford to brook delay, as this would compromise her military situation."

The concentration of troops in Bulgaria is almost complete and it is expected that strategic points on the frontier in the vicinity of Ezerovo and Kichiklissia, and other places will be occupied tomorrow by Bulgarian troops, possibly producing skirmishes between them and the Turkish forces. It is reported that King Ferdinand may leave for the front tonight.

Constantinople, Oct. 8.—Martial law has been proclaimed in the city and suburbs, while the publication of news concerning the mobilization of the army and military movements as well as attacks on the internal and external policy of the government are prohibited. A ban has also been placed on demonstrations and the carrying of arms. The impression prevails here that Montenegrins in declaring war acted at the behest of the league of Balkan nations with the object of blocking the proposed intervention of the powers.

Constantinople, Oct. 8.—Prior to receiving his passports from the Turkish government, the Montenegrin charge d'affaires, M. Plamenatz, handed the following note in behalf of his government to the Turkish government: "We regret that Montenegro has exhausted all her resources in the Balkan peninsula, and we have the loyal assistance of the kings of Serbia and Greece, and their people, who in this affair have ranged themselves with Montenegro like brothers."

London, Oct. 8.—Serbia today informed the representative at Belgrade of the European powers that she will formally report her representations in a day or two. The Serbian government considers that the Balkan alliance would be maintained at all costs and the popular feeling in Serbia was so strong that it would not permit the government to depart from the policy which it had embarked upon.

Belgrade, Serbia, Oct. 8.—The French minister here today made representations to the Serbian government, similar to those made by Russia and Austria. Everyone in the city regards war as certain and preparations are being pushed forward rapidly.

Berlin, Oct. 8.—A general war in the Balkan states is expected by officials in the opinion of both diplomatic circles and press in Germany. At the foreign office it is thought that the attitude of the Balkan powers leaves only the barest hope of the measures taken by the powers proving successful, as no concessions made by the Balkan governments would threaten the security of the occupants of the thrones of Bulgaria, Serbia, Montenegro and Greece. For this reason their governments do not yield to diplomatic pressure.

Paris, Oct. 8.—The conservative Journal Des Debats prints a pessimistic review of the political situation in Europe. It says that France is not weakening her military strength at home by sending troops to Morocco and other colonies.

PARLIAMENT MEETS NOVEMBER 21?

Tentative Date Has Been Fixed

All Depends Whether the Cabinet Can Agree on Naval Policy

Ottawa, Oct. 8.—The government has at last made up its mind on the date for the assembling of parliament, although the government's mind is so prone to change that there is still a string attached to the announcement.

The date decided upon is Thursday, November 21. The official announcement will not be made, however, for a few days yet, pending a possible change of date after the survey of the prospects for agreement on the naval program.

Further, the ministers find that the work ahead in preparation for the opening of the session is decidedly formidable and time is pressing. With the exception of the bank act and the West Indian trade agreement there is no legislation in the pipeline.

With the late calling of parliament there will be allowed only about twenty working days in the hours before the Christmas recess. With all the preliminary organization and specializing on the address in reply to the speech from the throne to first get through with the probabilities are that little practical work will be accomplished before Christmas and the naval proposals will almost certainly have to go over for final discussion in January.
