dangerous affections of the Pulmonary Organs
yield to its power; and cases of Consumption,
by this preparation, are publicly known,
so remarkable as hardly to be believed, were
they not proven beyond dispute. As a remedy,
it is adequate, on which the public may rely
for full protection. By curing Coughs, the
forerunners of more serious disense, it saves unnumbered lives, and an amount of suffering not
to be computed. It challenges trial, and convinces the most sceptical. Every family should

Every farmily should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often futal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, Cherry Pecroral is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedliy and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.
