

Hamilton Business College

Corner of King and James Street's, HAMILTON, ONT.

"It affords me great pleasure to testify to the efficiency of the Hamilton Business College, having completed the course of study there. I can state that the instruction is practical in every respect. I found the teachers both able and anxious to assist the students, and zealous to do all in their power to make the time of their pupils both profitable and pleasant." D. WISHART.

NOW READY! A New Revised and Greatly Enlarged Edition of "Gardening for Profit."

BY

Peter Henderson

A GUIDE TO THE SUCCESSFUL CULTURE OF THE MARKET AND FAMILY GARDEN.

Profusely illustrated. 375 pages. Price, post-paid, \$2.00.

The immense and unprecedented sale of the earlier editions of "Gardening for Profit" indicates the estimate of its value as a thoroughly practical work. The NEW BOOK, just issued, contains the best of the former work, with large additions drawn from the author's added years of experience. OUR NEW CATALOGUE OF SEEDS AND PLANTS (140 pages) is replete with new engravings of the choicest flowers and vegetables, and contains, besides, 2 beautiful colored plates. Mailed on receipt of 10 cents (in stamps), which may be deducted from first order, or sent FREE to all purchasers of the New "GARDENING FOR PROFIT," offered above.

PETER HENDERSON & CO. 35 & 37 Cortlandt St., NEW YORK.

THE JOHNSON MANURE SPREADER

Patented in Canada.

Is the only Manure Spreader that can be attached to the running gear of an ordinary wagon. It will spread lumpy manure and matted manure, strawey manure, ashes, and every other kind of manure, and do it quicker and better than by any other process. Customers, in ordering, please state width between stakes of wagon, to which they intend attaching Manure Spreader. For further particulars address

THE JOHN ABELL ENGINE & MACHINE WORKS, Toronto.

BENSON, Minn., March 8, 1886.
Johnson Manufacturing Company,
Minneapolis, Minn.

Gentlemen,—The Johnson Manure Spreader you sent me about six months ago, I have tested thoroughly on manures from well-rotted fine to the coarsest, mixed with tough prairie hay and corn stalks, and must say have been surprised at the completeness of its working. I do not hesitate to say it is by far the best machine for that purpose I have ever seen. I have saved already more than the price of it in labor. Any boy that can drive a team can handle it. Truly yours, W. F. WILCOX.

OUR SPECIALTY!

This cut represents (imperfectly, as our electro is an old one from iron-beam plow,) our best **Wide Flow, No. 21**, of which we are the original makers. Wherever introduced in Ontario it has at once taken the lead of all others. We believe the mould-board to have the best shape for Ontario work of any used on a wide plow. It is not made to compete in price with cheap material and thrown together plows, but is made to excel them in every point, in quality of steel used, in temper, in finish and in work. It has **steel beam** and **steel coulter**—a simple and perfect skimmer. Besides this plow we make a variety of narrow and medium width plows; some specially made for the trade in the Maritime Provinces, others for Ontario, for Manitoba and British Columbia. AGENTS WANTED, but none but those who can give best references need apply. If we have no agent in your district, write us for circulars. See November, December and January ADVOCATES for Straw Cutters, Root Cutters, and Grain Crushers. Correspondence solicited.
