

THE CANADIAN POULTRY REVIEW

DEVOTED TO POULTRY, IN ALL ITS BRANCHES

PUBLISHED BY H. B. DONOVAN.

VOL. XV.

58½ VICTORIA STREET, TORONTO, FEBRUARY, 1892.

No. 2.

NOTES AND COMMENTS

NO EGGS FOR SALE.

THE above legend will be found appended to Mr. Geo. G. McCormick's ad this month, he having announced such as his intention.

MR T. A. DUFF, TORONTO, has also decided to drop the egg trade and sell stock only.

FROM FINLAND,

came a recent letter to the REVIEW, enclosing \$1 for a year's subscription. The REVIEW is rapidly reaching the ends of the earth. Amongst other places on our mailing list we may mention England, to which we send many, Scotland, Ireland, France, Belgium, Australia and now far away Finland. Of course hundreds go to Manitoba, British Columbia, the eastern Provinces and Newfoundland, besides every State in the Union.

MESSRS. GIVES & LOVELL, GALT, write us they won at Guelph, 1st on white Leghorn cockerel, and 1st on breeding pen brown Leghorns and not as printed.

MR. J. HENRY LEE, the well known poultry delineator, is

about publishing a 100 page book entitled "Some of Lee's Ideas." It will relate to the yard, garden and farm with special reference to poultry.

FROM N. B. TO N. W. T., seems a big distance to ship poultry, but Messrs. Geo. Hatt & Co. of Fredrickton, N.B., recently shipped two tons of Turkeys to Calgary, N.W.T., to fill a special order.

MR. W. COLE, BRAMPTON, has sold all his white Leghorns, including winners, to Mr. Jno. Pletsch, Shakespeare.

MESSRS. THORNTON & SON, ST. THOMAS, have just imported another trio of Indian Games from England.

FROM THE *Stock-Keeper* we see that Mr. Geo. G. McCormick, London, is determined to still further improve his buff Cochins and is importing from Mr. G. H. Procter, the cockerel, first at Dairy Show, the hen, third at Birmingham, which our contemporary says is "wonderful in color, very short in leg and grand shape and feather" also an excellent colored pullet.

MINORCA BANTAMS. From the same source we learn that Mr. J. Physick, after four years breed-

ing and selecting has succeeded in producing a Minorca Bantam, and proposes exhibiting a few in the near future.

MALAYS IN AUSTRALIA. Australian breeders are of the opinion that they have better Malays than are shown in England, and an enterprising fancier is about to send some over to compete against the English cracks.

MR. J. H. PATON, writes us from Winnipeg that he does not expect to be back to Toronto for some time yet.

IN MANITOBA the poultry interest seems to be rapidly growing in spite of the extreme cold of winter. In Brandon an Association was recently formed with over twenty members as a start. The REVIEW is spreading out in the far west too, we received many new subscribers from Manitoba and the N. W. Territors this year; as an instance of it a gentleman in the little town of Carberry sent us three new subscribers when renewing for his own paper.

MESSRS. ALLIN BROS, NEWCASTLE, ONT. have purchased from Mr. H. B. May, of Natick, Mass., the barred Plymouth Rock cockerel 1st at Providence, R.I. show and the pullet 1st at same exhibi-
