**SARAH.**—To make vegetable soup, take three onions, three carrots, three turnips, one small cabbage, and one pint of tomatoes; chop all the vegetables except the tomatoes, very fine; have ready in a porcelain kettle three quarts of boiling water, put in all except the cabbage and tomatoes, and simmer for half an hour; then add the chopped cabbage and tomatoes (the tomatoes previously stewed) and a bunch of sweet herbs. Let the soup boil for twenty minutes, strain through a sieve, rubbing all the vegetable through. Take two table-spoonfuls of the best butter, one of flour, and beat to a cream. Now pepper and salt the soup to taste, add a tea-spoonful of white sugar, a half a cupful of sweet cream, and stir in the butter and flour. Let it boil up and it is ready for the table.
