ANSWERS TO CORRESPONDENTS.  
(Continued).

LEAH:—You might write to the editor of the *Atlanta Constitution*, Atlanta, Ga., regarding the author of the story which you read in that paper.

A LADY:—The main point to be observed in prescribing for *alopecia*, as falling of the hair is medically termed, is to learn the cause of the debility and overcome it if possible; this is a matter for your physician to decide.

G. E. T.:—The amethyst is February's, and the topaz, November's birthstone.

THE FUSSBUDGETS:—Having accepted an invitation to dinner, and learned the hour, be punctual; at least, be sure not fail to arrive within a few minutes after the time named. When a woman is driving with a man it is in questionable taste for her to hold the reins unless the turnout is her own property.

MRS. C. W. AND OTHERS:—We must decline to give our correspondents forms of words to be used on different occasions. A little judgment and tact ought to teach one to say pleasant and proper things at the right time. We publish two excellent books devoted to this general subject; they are "Social Life" and "Good Manners," the price of each being 4s. or \$1.00.

EVA A.:—The Chauncey-Hall School, 593 Boylston St., Boston, Mass., of which Miss Lucy Wheelock has charge, is a Kindergarten Training School.

DICK:—It is impossible to give you here full directions for matching plaids and stripes in the backs of dresses, but the subject is thoroughly explained in "The Art of Garment Cutting, Fitting and Making," which is sent (by post 2s. 6d.) or 50 cents. It is replete with practical and common-sense instructions, accompanied by explanatory illustrations.
