Ottawa, 20th June, 1908.

Sir,

With reference to your copy of cash book for May, I have to request that you will kindly state why you did not issue receipts for moneys paid to you in the way of fines, and also for the amount which you received from the sale of the canoe. You should issue such receipts without delay, and forward the coupons of the same to the Department to be attached to your cash book return.

The Department, I may say, requires further particulars in regard to the sale of the canoe. When you send money to the Department you should at all times give full particulars in respect to the same, as otherwise the money can not be properly credited.

Your obedient servant.

Secretary
