

# THE OLD WAY

---

---

of cooking and getting a (more or less) constant hot  
water supply—*i. e.*, by using the  
range—always results in

FLUES TO CLEAN                      COALS TO CARRY  
ASHES TO RAKE                      CINDERS TO SIFT

—AND OFTEN IN—

FLUSHED FACES, SPOILT TEMPERs, SPOILT  
DINNERS, DISCONTENTED SERVANTS  
DISTRESSED MISTRESSES  
ANGRY MASTERS

# THE NEW WAY

---

---

*i. e.*, of using a GAS COOKER and a GAS-  
HEATED HOT WATER CIRCULATOR, that  
can easily be connected to the existing system,  
avoids all these troubles and saves money as well
