

Yet, tho' the mighty master led the way,
 And op'd the portals of celestial day,
 To loftier minds alone the pow'r was giv'n
 To drink the sacred fount, and learn the lore of heav'n :
 The scene too vast, our faculties o'erstrain'd,
 Till Boyle his World in Miniature ordain'd.
 Now view, compris'd within yon narrow space,
 Each circling orb, and mark its radiant race ;
 In sculptur'd beauty round the wide extreme
 The starry zodiac casts a varying gleam :

New Moon, 2d Day, 2h. 20m. Afternoon.

First Quarter, 9th Day, 9h. 47m. Morning.

Full Moon, 17th Day, oh. 54m. Afternoon.

Last Quarter, 25th Day, 9h. 35m. Morning.
