As Easy to Light as a Gas Jet

To light the Rayo lamp you don't have to risk burnt or oily fingers. You can do it easily without removing shade or chimney.

Rayo LAMPS

The Rayo is the best kerosene lamp made. It is clean and convenient—does not smoke or smell, because it is made on the proper scientific principles.

The Rayo gives a strong, clear and steady light, and is the ideal lamp for the home.

Dealers everywhere carry the Rayo, or write for descriptive circular.

WOMAN'S SOAP

1069-Lady's House Dress—This style of dress is made very simply and yet attractively. The popular long shoulder is shown and either long or short sleeves may be used. The trimming consists of small buttons and pockets in the skirt, which may be omitted if preferred. Cut in seven sizes: 32, 34, 36, 38, 40, 42 and 44 inches bust measure.

1042-1034-Lady's Costume—With the approaching cold weather we must now make preparations for winter dresses. In this design we have a very attractive gown which might be fashioned to advantage from almost any of the popular materials, such as broadcloth, chambray, satin, serge, etc. The raglan sleeve still holds a high rank in fall styles and is shown in this blouse, also contrasting material for vest, collar and cuffs. The skirt is slightly flared, and when the plaits are drawn out measures 2½ yards at the lower edge. This design calls for two patterns, one for each. The waist is cut in sizes from 34 to 44 inches bust measure. The skirt from 22 to 32 inches waist measure.

1056-Lady's Apron—The panel front is the important feature about this apron design and is simply constructed. The large pockets are also important, both as a trimming and a convenient catchall. The design is cut in three sizes: small, medium and large, and it requires five yards of 36-inch material for a medium size.

1080-Girl's Dress—The growing girl comes in for a large share of the family dressmaking as it does not take long for her to wear a dress out. In this design we have a neat and practical model. It could be featured nicely from some heavy material for winter and trimmed with a contrasting material. The long shoulder is used effectively here and the trimming of buttons makes a neat finish. Five sizes: 4 to 12 years.

1022-Girl's Coat—Broadcloth, corduroy or some of the heavier woolly materials can be used to advantage in fashioning this coat for the small girl. It has the double-breasted effect, is trimmed with strapping just below the waist line and has the popular raglan sleeve. This coat design should meet with much favor from the home dressmaker. Five sizes: 6, 8, 10, 12 and 14 years. It requires three yards of 44-inch material for an 8-year size.

9908-Dress for Misses and Small Women—This design would lend itself effectively to any of the new shades, trimmed with a contrasting material, probably the belt, collar and cuffs of velvet or soft silk. If preferred a set of pumps could be utilized instead of the frill for a neck finish, as the pumps would be more serviceable for the cold weather. Out in four sizes: 14, 16, 18 and 20 years.

1081-Girl's Dress—More and more mothers are making wash dresses for the little girl to wear during the winter as well as summer. These are quite warm enough if made over warm underclothing, and as they look neat and clean. Four sizes: 6, 8, 10 and 12 years.

All "ARLINGTON COLLARS" are good, but our CHALLENGE BRAND is the best MADE IN CANADA
