OUR IMPERIAL REPUBLIC

By **JAMES C. FERNALD**

Author of "The Spaniard in History," "A Study of the Inquisition," Associate Editor of "The Standard Dictionary," Editor of "The Students' Standard Dictionary," "Standard Intermediate-School Dictionary," etc.

A STIRRING and powerful argument in favor of the extension of United States territory. The author draws a distinction between a true and a false imperialism, holding that the massing of many states in one imperial domain does not necessarily entail concentration and despotism. The book clearly and convincingly proves that expediency, duty, and necessity urge the nation on to the new expansion. It is a book of extraordinarily live interest and present importance.

The Poems of Richard Realf

Edited by COL. RICHARD J. HINTON, the Poet's friend and literary executor, and author of "John Brown and His Men."

Over one hundred and fifty charming lyrics, songs, and sonnets. The selections are of particularly beautiful rhythm. They are distinguished by a passion and symbolism which are worthy of rank with the great poetical masterpieces. The collection includes a wide diversity of verse—from stirring lyrics of the anti-slavery period to songs of the Civil War and poems of love and life. Most of the poems appear in type for the first time in this collection, a few only having previously appeared separately in the magazines. The volume contains several valuable illustrations.
