

Yet, strange to say, it can resist the most intense cold, even that of the Arctic regions, with but slight protection. Our common mosquitos of Ontario mostly winter in the adult stage, though some few larvae have been found among the weeds and mud of their watery haunts. The great majority, however, in the autumn seek shelter as fully developed mosquitos in the cellars of houses, barns and other sheltered places, where they remain so long as cold weather lasts, clinging quietly to some support, indifferent to storms or weather troubles. For some years I was under the impression that only the females survived to propagate the species, but recently I have found several males also hibernating and it would seem that both sexes live over the winter in the same way. House flies, Bluebottle flies and Horn flies spend the winter either as adults in the protection afforded by our houses or in the pupa state underground.

(To be Continued.)

Can I do anything towards making a collection of insect at this season? If so, what can I get?—L. O. N.

You can do a great deal at any season. Just now by searching among dead leaves, under the bark of trees, in fact, anywhere under natural cover, you will find beetles and other insects hibernating as adults, or you will obtain chrysalids. Take these home and soon the insects will emerge from them, giving you more perfect specimens than you can obtain in any other way and affording you very interesting subjects for study besides.

UNRESERVED SALE OF MESSRS. RAWLINSON BROS. HACKNEYS.

In consequence of Messrs. Rawlinson Bros. having sold their Ranch and are leaving the country, their entire stock of highly bred pedigree Hackneys must be disposed of and will be sold by Auction in JULY next at the Ranch, 11 miles west of Calgary.

The Pedigree Hackneys consist of

- | | |
|---------------------------|---------------------------|
| 3 Imported Stallions. | 6 Home-Bred Stallions. |
| 48 Brood Mares. | 12 Four-Year-Old Fillies. |
| 9 Three-Year-Old Fillies. | 8 Two-Year-Old Fillies. |
| 12 Yearling Fillies. | |

Also 97 Head of Unregistered Mares, Fillies and Geldings

Nearly all the best mares the champion "Robin Adair" ever got in this stud are included in this sale, together with full sisters to "Saxon"—Pricilla and Minona—who won everything in sight at all the Eastern Shows including the championship of both sexes at the St. Louis World's Fair.

It is the greatest collection of high class Hackneys that is ever likely to be offered again in Canada for many years. Catalogues of the sale will be ready for distribution on June 1st, 1907, which may be obtained together with full particulars from

Jordison Bros., Auctioneers, P.O. Box 1172, Calgary, Alberta.

This Washer Must Pay for Itself

A MAN tried to sell me a horse, once. He said it was a fine horse and had nothing the matter with it. I wanted a fine horse. But, I didn't know anything about horses much. And, I didn't know the man very well, either.

So I told him I wanted to try the horse for a month. He said "all right, but pay me first, and I'll give back your money if the horse isn't all right."

Well, I didn't like that. I was afraid the horse wasn't "all right" and that I might have to whistle for my money if I once parted with it. So I didn't buy the horse although I wanted it badly. Now this set me thinking.

You see I make Washing Machines—the "1900 Junior" Washer. And, as I said to myself, lots of people may think about my Washing Machines as I thought about the horse, and about the man who owned it. But, I'd never know because they wouldn't write and tell me. You see I sell all my Washing Machines by mail. (I sold 200,000 that way already—two million dollars' worth.)

So, thought I, it's only fair enough to let people try my Washing Machines for a month, before they pay for them, just as I wanted to try the horse.

Now I know what our "1900 Junior" Washer will do. I know it will wash clothes, without wearing them, in less than half the time they can be washed by hand, or by any other machine.

When I say half the time, I mean half—not a little quicker, but twice as quick.

I know it will wash a tub full of very dirty clothes in six minutes. I know no other machine ever invented can do that, in less than 12 minutes, without wearing out the clothes.

I'm in the Washing Machine business for Keeps. That's why I know these things so surely. Because I have to know them, and there isn't a Washing Machine made that I haven't seen and studied.

Our "1900 Junior" Washer does the work so easy that a child can run it almost as well as a strong woman. And, it doesn't wear the clothes, nor fray the edges, nor break buttons, the way all other washing machines do.

It just drives soapy water clear through the threads of the clothes like a Force Pump might.

If people only knew how much hard work the "1900 Junior" Washer saves every week, for 10 years—and how much longer their clothes would wear, they would fall over each other trying to buy it.

So said I, to myself, I'll just do with my "1900 Junior" Washer what I wanted the horse. I'll offer it to the man who owned it. I'll offer to ask me. I'll offer to do it first, and I'll "make good" the other every time. That's how I sold 200,000 Washers.

I will send any reliable person, a "1900 Junior" Washer on a full month's free trial! I'll pay the freight out of my own pocket. And if you don't want the machine after you've used it a month, I'll take it back and pay the freight that way, too. Surely that's as fair enough, isn't it?

Doesn't it prove that the "1900 Junior" Washer must be all that I say it is? How could I make anything out of such a deal as that, if I hadn't the finest thing that ever happened, for Washing Clothes—the quickest, easiest and handiest Washer on Earth. It will save its

whole cost in a few months. In Wear and Tear on clothes alone. And then it will save 50 cents to 75 cents a week over that in Washerwoman's wages. If you keep the machine, after a month's trial, I'll let you pay for it out of what it saves you. If it saves you 60 cents a week, send me 50 cents a week till paid for. I'll take that cheerfully, and I'll wait for my money until the machine itself earns the balance.

Now, don't be suspicious. I'm making you a simple, straightforward offer, that you can't risk anything on anyhow. I'm willing to do all the risking myself! Drop me a line today and let me send you a book about the "1900 Junior" Washer that washes clothes in 6 minutes. Or, I'll send the machine on to you, a reliable person, if you say so, and take all the risk myself. Address me this way—F.W.B. Bach Manager, "1900" Washer Co., 35 Yonge St., Toronto, Ont. Don't delay, write me a post card now, while you think of it.
