

NEWS OF WORLD TOLD IN BRIEF

Following Disagreement in Policy Toward Germany Bryan Resigned as U. S. Secretary of War

NEW CANADIAN CONTINGENT

Will Bring Total of Troops Raised Here for Active Service to 150,000—British Government Having Trouble With Lord Chancellorship of Ireland.

William Jennings Bryan, three times Democratic candidate for the presidency of the United States and author of nearly 30 peace treaties with the principal nations of the world, resigned yesterday as secretary of state as a sequel to a disagreement with President Wilson over the Government's policy toward Germany. The resignation was accepted by the President. The cabinet then approved the response which had been prepared to the German reply to the Lusitania note. Acting Secretary Robert Lansing will sign the document and it will be cabled to Berlin to-day.

Major-General Hughes announced last night that an appeal would be made immediately to recruit nearly thirty-five thousand more men to go to the firing line in France. This new force will be composed of 27 regiments of infantry and six batteries of artillery, to be recruited from all parts of Canada. With the formation of this contingent, the number of men raised for active service by Canada will total upwards of 150,000. In the new contingent there will be four new Highland regiments, one recruited from Vancouver, Victoria and Winnipeg, a second from Ontario, and two Highland regiments from Quebec and the Maritime Provinces. As far as Montreal is concerned, Lt.-Col. Gascogne's regiment, the 60th, is comprised in the new contingent, while three new French-Canadian regiments from Quebec Province, including the 57th under Lt.-Col. Paquette, will be recruited.

The difficulty of filling the offices of Lord Chancellor of Ireland has not yet been overcome by the British Government. The Unionists claim the appointment for the Right Hon. James H. M. Campbell, Unionist member of the House of Commons for Dublin University, but the Nationalists strongly oppose this on account of Mr. Campbell's Ulster sympathies. The Nationalists yesterday held a meeting to consider the question and it is understood that Mr. Campbell will be induced to abandon his claim to the Lord Chancellorship and accept a judgeship instead. The Nationalists at their meeting also passed a resolution, on the motion of John Dillon, one of the Nationalist leaders, declaring against conscription.

The big battle in Galicia has not yet reached a decision. The Austro-Germans have crossed the Dniester south of Lemberg and have assumed the offensive further to the south, and, according to the Austrian official report, have succeeded in pushing the Russians back between Kolomea and Kalusz, in Eastern Galicia. This operation was necessary because the Teutonic allies continued their advance toward Lemberg, as the Russian attacks in the region of Kolomea were beginning to look dangerous, after the Russians had, as reported from Petrograd last week, inflicted a rather severe defeat on the Austrians in this district. British and Russian military opinion is that the Austro-Germans after their big effort, which regrettably for them the greater part of Austria has exhausted themselves, and the view is expressed that they will soon have to secure and fortify a line on which they can withstand the Russian counter-offensive, which has already made itself felt on the Lower San.

The Amsterdam Telegraaf's Sas Van Gent, Holland, correspondent says that heavy damage at Ghent has resulted from a British air raid. The correspondent adds that no details of the raids are available. Ghent is twelve miles northeast of Sas Van Gent. The Telegraaf also says that it learns that the closing of the Dutch frontier is in connection with enormous transports, which are all going to the Yser line.

A dispatch from Athens says the condition of King Constantine has taken a favorable turn, and it is hoped that he will be pronounced out of danger within a day or two.

A successful English air raid on the Gallipoli peninsula is reported by the London Daily Telegraph's Bucharest, Roumania, correspondent. Nine seaplanes participated in the raid, dropping bombs on Akbashi, the Turkish base in the harbor of Gallipoli, killing three soldiers and wounding a dozen others and severely damaging the warehouse and stores.

BOSTON QUOTATIONS. Boston, June 9.—11 a.m. prices: American Zinc 54 1/2 Off 3/4, Alloues 56 1/2 Off 3/4, Arizona Com. 8 Off 3/4, Butte & Superior 7 1/2 Off 1, Calumet & Arizona 64, Calumet & Hecla 500, Copper Range 54 1/2 Off 1 1/4, East Butte 12 Off 3/4, Franklin 11, Granby 82 1/2 Off 1 1/2, Cananea 32 1/2 Off 1 1/4, Royale 29 1/2 Off 1 1/4, Lake 14 Off 3/4, Mayflower 5, Mohawk 75 1/2 Off 3/4, North Butte 32 1/2 Off 1 1/4, Osceola 85 Off 3, Shannon 9 Off 1 1/4, Superior 29 1/2 Off 1 1/4, United Fruit 138 Off 1 1/2, United Shoe 61 1/2 Off 3/4, Smelters 41 1/2 Off 1/2

NEW YORK PRESS COMMENT

SUN.—Although Wall Street was supplied with more good news yesterday in the excellent government crop report, suggesting a possible wheat yield of 950,000,000 bushels, this year, and although in other directions there were considerations which tended to strengthen the encouragement derived last week from the decision in the United States Steel suit, the stock market was still prevented from making any sustained selection of bullish factors.

There is no argument in the contingencies of the controversy with Germany for selling securities in the face of the present crop position and prospect; the extraordinarily easy banking situation and the all-round capacity of financial conditions to accommodate the strain; the obvious change of politics to constructive policies regarding business and the powerful foreign trade stimulus which has been provided for general business recovery. Sensible buyers will undoubtedly hasten to take advantage of any declines in the stock market resulting from such weak selling as may be caused by apprehensions on international account.

At the same time, the uncertainty of our foreign affairs continued to make for stock market irregularity yesterday, and it was manifest the speculative unbusiness or diplomatic developments was aggravated by signs of a split in the cabinet at Washington.

TIMES.—Under the leadership of the so-called war stocks, a forward movement which extended to many parts of the list occurred during the early hours of trading yesterday. Some of the reports on which this further movement in these shares was based were denied and others lost much of their force when prices had advanced enough to invite fairly heavy realizing sales. In a good many instances much of the ground gained was lost in later trading.

The reactionary tendency of the list as a whole was accentuated in the afternoon by selling, the proffered explanation of which was that the United States District Court in California had found in favor of the Government in new suits brought to cancel patents to oil lands now held by the Southern Pacific.

U. S. STEEL CORPORATION HAS 141,685 STOCKHOLDERS. New York, June 9.—According to the latest figures available, there are now 141,685 stockholders of the United States Steel Corporation. Of this number 85,768 hold preferred stock and 55,917 common stock.

When the lists were made up last February at the closing of the books for preferred dividend payment, there were 85,912 holders of the stock, the highest on record and on March 31 common stockholders numbered 56,825, also a record.

The figures given above, the preferred being for May 6, and the common for June 1, are the highest with the exception of the February-March showing.

UNITED STATES HAS ORDERS FOR 25,000,000 SHRAPNEL SHELLS.

New York, June 9.—A banker, who is closely associated with the sales of ammunition and other war munitions to Europe estimates that contracts have already been closed for the manufacture in this country of close to 25,000,000 shrapnel shells. Orders for additional shells are pending which would make a total of 35,000,000, with valuation of not far from \$500,000,000. A contract for manufacture of approximately 300,000 shells was closed early this week by a Chicago firm.

THURSDAY, FAIR AND COOL.

Moderate winds, mostly fair, but showers in some localities; Thursday, fair and cool. The barometer is now highest in Northern Ontario and just west of the Great Lakes and lowest off the New England Coast and in the Western Provinces.

The weather is cool throughout the Dominion with a tendency towards showery conditions.

OIL IN COMMERCIAL QUANTITIES.

Calgary, Alta., June 9.—Oil in commercial quantities has been struck in the Southern Alberta well, according to a statement given out to-day by President Livingstone, who says the oil reaches 800 feet up from the bottom of the well.

The flow was struck at a depth of 3,527 feet. The oil is of a dark green color and of 68 degrees gravity.

COFFEE MARKET STEADY.

New York, June 9.—The coffee market opened steady.

DULLNESS CONTINUES IN JUTE.

New York, June 9.—The jute market is dull with few offers from Calcutta. The local trade is indifferent, pending further developments on the new crop acreage. The same difficulty argues in guaranteeing ships is reported in the trade. June-July, 4.85 to 4.90.

EX-DIVIDEND TO-DAY.

Mackay Common at 1 1/4 per cent. Mackay Preferred at 1 per cent. Books do not close.

WESTERN ELECTRIC DIVIDEND.

New York, June 9.—Western Electric has declared the regular quarterly dividend of \$2 per share, payable June 30th to stock of record June 23rd.

TORONTO RAILWAY DIVIDEND.

Toronto Railway Company has declared the regular quarterly dividend of 2 per cent., payable July 2 to stock of record June 15.

ILLINOIS PIPE LINE DIVIDEND.

New York, June 9.—Illinois Pipe Line declared initial dividend of \$5, payable July 20, to stock of record June 19.

MANILA ELECTRIC DIVIDEND.

The Manila Electric Railway and Light Company declared its quarterly dividend of 1 1/2 per cent., payable July 1 to stock of record June 15.

AMERICAN EXPRESS CO. DIVIDEND.

New York, June 9.—The American Express Company has declared the regular quarterly dividend of 1 per cent., payable July 1st to stock of record June 12th.

DECLARES REGULAR DIVIDEND.

New York, June 9.—Kelly Springfield Tire Company has declared the regular quarterly dividends of 1 1/2 per cent. on first preferred and 1 1/2 per cent. on second preferred, both payments July 1st to stock of record June 15th.

HEARD AROUND THE TICKET

German sympathizers in the United States are straining every nerve to create sentiment in that country in favor of Germany. So far their success has not been very encouraging. The propaganda—social, educational, financial, commercial—mainly takes the form of an effort to propagate peace doctrines.

The National Association of Waste Material Dealers of the United States state that the members of the Association transmit an annual business of \$700,000,000. The materials which make up this large sum of money were formerly wasted. The materials include everything from cotton seed, oil and cotton seed to rags and scrap iron.

Historic relics come cheap in these war times. The old sloop-of-war Portsmouth, which took possession of San Francisco Bay for the United States in 1846, was sold to John H. Gregory, of Perth Amboy, N.J., for \$3,862.

Sheriff Mowat auctioned in Toronto to-day 198 shares of Brazilian Traction. Close upon forty investors were present to participate in the bidding. The stock in question was seized by the authorities to satisfy a judgment obtained by one of the banks following a loan of \$10,000 made by one of the banks to an individual known as Max Budding. The latter turned out to be an officer in the German army and soon after the outbreak of hostilities his familiar haunts in the Queen City knew him no more. The stock he left as security for the loan mentioned was seized and it was to-day sold in lots of twenty-five shares at prices ranging from 49 1/2 to 50 1/2. On the Montreal Stock Exchange a lot of thirty shares changed hands at 54.

Industrial situation in France is highly satisfactory and shows tendency to continued improvement, according to Ministry of Labor. During April 77 per cent. of industrial establishments were in operation, employing 65 per cent. of normal number of workers. But as a considerable percentage of working people have been mobilized, number of unemployed amounts to only 17 per cent.

The man in the next office to the writer of these paragraphs, commenting on the Bryan incident, says: "Well, what more could you expect from a man who lives on grape juice?" After all, oatmeal water is preferable to grape juice as a beverage. At least King George is still on the job, while William Jennings Bryan has quit.

Dr. Dernburg has booked passage on a Norwegian ship. Does this mean the German pirates are to stop sinking Norwegian vessels, or that the German Government has at least arrived at a realization of his value?

Dr. H. F. Parshall, the eminent consulting engineer, who is now in charge of the construction programme of the Barcelona Traction, Light and Power Company, has prepared an encouraging report on the existing position of the work and the more immediate constructional and financial requirements of the company. He believes that the sale of electricity will increase from 113,000,000 kilowatt hours to 220,000,000 kilowatt hours after three years' operation of the complete hydro-electric installation. This would fully load the plant provided in the estimates. The surplus on the operations in 1914 is shown by Dr. Parshall's investigation to be \$1,143,000, from which total the auditors believe a further deduction of \$210,000 may have to be made for various charges, of which, however, \$125,000 are not recurring. The surplus earnings, after providing for the prior lien "A" bond interest under the proposed financial plan of the committee, will be: For the year 1915 \$1,133,750, For the year 1916 2,047,500, For the year 1917 2,877,500, For the first five months 1918 1,361,500.

Total \$7,420,250. After the expiration of the funding period contemplated by the proposed financial plan, the annual charges of the company will amount to \$3,485,750 per annum.

Having relieved himself of his spare time activities, Mr. William Jennings Bryan will be able to devote all his energies to his lecture tours. The manufacturers of grape juice are doubtless increasing the capacity of their plants in anticipation of the results of the coming advertising.

More than half of 255 pigeons that started from Buffalo Saturday in a 40 mile race to Boston were lost in the storm.

The next war loan in Great Britain is expected within the next three months, and the apathy on the London Stock Exchange, where the daily business does not average one trade per member, is attributed to the tendency on the part of the public to save their funds to participate in the forthcoming issue.

The negotiations now in progress by the German government through German bankers in the United States to acquire control of Bethlehem Steel and the Remington Arms Co., of Hartford, which are said to be on the eve of success, might as well have been omitted. The plan in view is to shut down both works and prevent them making war munitions for the Allies. But if the United States enters the war—as now seems altogether probable—her role will be to speed up the making of munitions, not only for the expeditionary force she will place in the field, but for the soldiers of all other countries battling on the side of freedom and civilization.

An important departure in transportation is the arrival at New Orleans of the steamboat Steel City, from La Salle, Ill., with a cargo of merchandise shipped to New Orleans by Chicago manufacturers, which, it is thought, will mark the beginning of a regular freight service by water from the Great Lakes to the Gulf.

If the Germans think the Bryan defection means a schism in the American nation they may be disappointed. A German street band of eight pieces, after having seranaded the Federal Building in Brooklyn, declared that they wished to renounce allegiance to the Kaiser and become American citizens.

Lorenzo von Arnim auf Kennerdorf, who claims to be related to General von Arnim, of the German army, was arrested at Ogden, Utah, for the theft of the strong box of the Maharajah of Karputhala from a Salt Lake City hotel.

GLEANED FROM MANY SOURCES

Note to Germany goes forward to-day. President Wilson's course remains unshaken. Bryan resigns as Secretary of State because he was unable to sign new note to Germany.

Tennessee Copper Company has closed big contract to supply sulphuric acid to Du Pont Powder Company. Government estimate of wheat crop of 950,000,000 bushels, new high record.

Average price of twelve Industrials 89.81, off 0.85; twenty railways 92.87, off 0.19.

French War Office reports further gains in fighting around Arras.

Germans are gaining in their drive at Lemberg and have crossed the Dniester, south of that point.

Allied troops have made a three mile gain along the Dardanelles.

The price of zinc ore touched \$112 a ton at Webb City, Mo., a new high record.

Angelo Lunardi, a leper, who had been isolated at Highland park, Chicago, for several months, escaped.

A big battle is pending along Isonzo River where the Italians have apparently decided to launch their principal attack.

Robert Lansing, Counselor to the State Department becomes acting Secretary of State and will sign American note.

The American Snuff Co., certified at Trenton, N.J., that it had reduced its capital stock from \$25,000,000 to \$15,000,000.

Judge Gary in letter to the presidents of subsidiary companies of the Steel Corporation admonishes them to maintain the standards propriety companies have been following.

British munition bill passes third reading in the House, with an amendment meeting the objection which would have given David Lloyd George unlimited power.

Over 10,000 members of the Mystic Order of Veiled Prophets of the Enchanted Realm attended the annual convention of the order which opened in Buffalo.

Completely recovered from the operation in which her right leg was amputated, Mme. Sarah Bernhardt is rehearsing at Anderson, France, for a return to the stage.

Gustavo Espinosa Mireles, private secretary of Gen. Venustiano Carranza, on way to Washington on what he terms "a very important mission," said that peace seemed near in Mexico.

American & British Manufacturing Co. of Bridgeport has accepted an order from Italy for projectiles, said to be in excess of \$17,000,000. This will keep the plant running 24 hours a day until July 15, 1916.

Twelve thousand additional machinists and tool-makers are needed at the munition plants of New Haven, Bridgeport, Waterbury, Hartford and New Britain, Conn., to fill more than \$100,000,000 in new war orders in hand.

Gold Hill Consolidated Co. has been placed in the hands of receivers, Fred Downs and Charles F. Montgomery were appointed receivers at Raleigh, N.C. The company was organized by Walter George Newman.

Rock Island Stockholders' Protective Committee plans to send a railroad man, probably J. W. Kendrick, formerly vice-president of the Atchison, over the system to determine the amount of improvements the property needs.

Professor H. C. Parker, of New York, physicist, claims to have invented submersible motor boat capable of discharging single torpedo and being operated by one man. He believes that 1,000 would be sufficient to defend Atlantic coast.

American railroad and industrial corporations have issued \$695,711,000 securities—bonds, notes and stocks—since January 1, a decrease of \$18,222,000, compared with same months of 1914. Last month the output was \$111,838,000, or only \$8,415,000 below May of last year.

Representatives of Boston & Maine and of leased lines agreed it was desirable to keep present system intact, and to avoid receivership and agreed that to make reorganization plan effective legislation in New Hampshire similar to that enacted in Massachusetts is necessary.

One reason for shortage of Russia's ammunition supply is said to be that Japan, whose factories have been supplying Russians, held back its war supplies, while relations with China were unsettled. This reduced the traffic in munitions over Trans-Siberian route to only products of American factories reaching Far East. After port of Archangel has been opened a few weeks longer, military experts believe Russia's problem will be solved.

N. Y. MARKET OPENING.

New York, June 9.—Stock market opening. U. S. Steel, 7.50 at 57 to 57 1/2 off 1 1/2 to 1. HAPPENINGS IN THE WORLD OF SPORT

Pari-Mutuels, on Their Introduction at Blue Bonnets, Proved a Great Success. ROYALS DOWNED BUFFALO

Races at Connaught Park in Ottawa Commence a Week from To-day—Colored Heavyweight Championship to be Decided This Evening in Montreal.

The pari-mutuels, introduced yesterday for the first time at Blue Bonnets, were a great success, and they will be also introduced at the fall meet at Dorval in September. These machines will be of a different make from those used at Blue Bonnets, being run through an electrical device. A board will be erected in the infield in front of the stand which will give the grand total of tickets sold on each race.

Montreal was forced to go ten innings to defeat Buffalo yesterday by a score of 4 to 3. Or perhaps it would be more correct to say that the Blues, by securing three runs in the fifth inning, made the Royals extend themselves beyond the allotted span to emerge victorious. The Montreals played errorless ball, and hit at the proper junctures.

Teh liberality of the Connaught Park Jockey Club is clearly shown in the programme for the spring meet, which commences next Wednesday. An owner will not be called upon to race his horses for any purse less than \$400, while there are many purses for overnight events that reach the \$500 mark, which, along with the stake races with \$1,000 added, brings the total amount to be given by the Jockey Club up to the \$25,000 mark. No other club in the Canadian Racing Association, outside of the Ontario Jockey Club, of Toronto, is giving better purses for overnight events than the Ottawa club.

Why is a base hit? Here are the happenings of two consecutive days in the Federal League: The Buffaloes made fifteen hits to Brooklyn's eight, but lost; the Brooklyns made fifteen hits to Baltimore's six, but lost; the Buffaloes made eight hits to Newark's four, but lost; the Chicagoes made seven hits to St. Louis' five, but lost; Kayser made five hits to Pittsburgh's five, but lost. According to this, the good pitcher is the one who can hit opposing bats oftener and harder.

Sam McEvoy and Battling Jim Johnson will meet to-night in a ten-round bout to decide the colored heavyweight championship. Both men are reputed to be among the fastest fighters in the business, so that a great deal of excitement is sure to result from their meeting.

Koob, the sensational pitcher of the West in the Northern School rime, has signed a Detroit contract, and will join the Tigers in ten days.

Teumseh in the new Toronto professional baseball league, are still of the opinion that either Longfellow or Warwick are the property of the Indians and are waiting for President Murphy to make a decision in the case. Naturally Rosedale would like to keep both players, but if the league is to be a success one of these stars should be with the Indians who do not possess the speed to stay with their rivals.

Connie Mack has picked up another colt, a geek named Lear. That he will be called "King" follows as a matter of course. Then along in 1920, when the tactful director is again plotting a zone of champions, the sport writers will marvel at his uncanny ability in picking up promising youngsters.

Mr. G. Ollivier has won the lawn tennis single championship of New Zealand and the doubles championship partnered by Mr. F. S. Wilding (brother of the late Capt. A. F. Wilding), who figured in the Wimbledon meeting of 1913.

The Buffed roster is liberally charged with former New York American League players. Members of the Used to Live in New York Society now dispersing at the other end of the Empire State are Chas. Louden, Engle, Blair, Ford and Schulz.

Canadian track and field championships will be held in Winnipeg this year on July 2 to 3. The usual programme of events will be run off and a gold medal emblematic of the Championship of Canada will be given to the winner in each event. Entries close with A. R. Morrison, Industrial Bureau, Winnipeg, Saturday, June 26.

Just why Ty Cobb can take those enormous leaps off third base and get away with them is of less interest than that he does. The New York Sun says that if he wasn't halfway down one when he pitched it was because he was a foot beyond that.

GRANTED THE VICTORIA CROSS.

London, June 9.—Reginald A. J. Warneford, the young Canadian sub-lieutenant in the Royal Navy Flying Corps who in an aeroplane attacked and wrecked a Zeppelin dirigible over Belgium, has been granted the Victoria Cross.

St. John, N.B., June 9.—Lieut. Warneford, V.C., who destroyed the Zeppelin so gallantly, has relatives in New Brunswick—Dr. H. P. Warneford, of Hampton, and Rev. Mr. Warneford, of Johnston, N.B. The doctor said to-day that he did not know of the youth ever having been in Canada. He was not in touch with the family history.

COTTON FUTURES DECLINE.

Liverpool, June 9.—Cotton futures closed barely steady at 7 points decline. July-Aug. 8.27 1/2; Oct. Nov. 5.88; Jan.-Feb. 5.82; May-June, 5.73 1/2.

PERSONAL.

THE REV. M. O. SMITH, M.A. WILL ADVISE with fathers concerning the instruction and education of their sons. No. 544 Sherbrooke St. West. Call on telephone Main 3071, and ask for Mr. Kay.

FOR RENT—NORTH WEST ARM, HALIFAX, N.S.

Beautiful Summer residence, 9 rooms, 2 bathrooms, hot and cold water, electric light, garage, stable, 10 tons ice, servants' cottages, boating, tennis court. Apply, Eastern Trust Company, Montreal.
