KETTLEBY, ONTARIO

British Live Stock Breed-
ing Schemes.

Editor "The Farmer's Advocate":

The British Government is thoroughly
determined that now is the time when
live-stock breeding, by farmers, large and
small, shall be carried on to the fullest
extent. They are out with a number of
schemes that are helpful in attaining
this object, and, believing that their
ideas may be helpful to you in Canada,
I send you a summary of what they are
doing. In order to impress upon farm-
ers the advantages of co-operation in
securing the services of good sires,
grants in respect to stallions and boars
will be made only to clubs and socie-
ties. The same procedure will also be
followed wherever possible in the case of
bulls, but in the districts where bull
societies cannot be formed, grants will
be made to individual breeders who are
willing to place approved bulls at the
disposal of their neighbors. Preference
will be given in the assistance offered, to
occupiers of holdings which either do not
exceed 100 acres in extent, or, if exceed-
ing 100 acres, are of an annual value
for purposes of income tax not exceed-
ing £100.

BULLS.

Grants for the provision of bulls will
be made on the following conditions:
(1) No grant exceeding £12 per annum
is to be made to any individual bull
owner, or exceeding £15 per annum
to any society in respect of any one
bull. (2) Not more than four annual
grants of £12 are to be made to any
individual; and not more than five an-
nual grants of £15 to any society for
each approved bull provided by it. (3)
Grants are only to be made to indi-
viduals when the live-stock officer for
that area is satisfied, after full inquiry,
that it is not possible to form a bull
club for a district in which the provi-
sion of a good bull is necessary. (4)
No grant is to be made to any indi-
vidual in respect of a bull previously
owned by him unless the live-stock officer
for the district is satisfied that in re-
turn for the grant the bull can and will
be made available for an appreciably
greater number of cows belonging to
small farmers than it now serves.

A society may provide a bull for the
use of its members—(a) By purchasing
a bull and placing it in the custody of
one of its members; or (b) By arranging
with an owner of a bull—whether he be
a member of the society or not to place
a bull at the disposal of the society on
terms agreed between them.

If a society arrange to purchase a
bull, it will be necessary to provide by
means of contributions from members or
donations to the society, sufficient capi-
tal to defray the cost of the purchase of
the bull, and also an annual income
sufficient to cover the insurance and keep
of the bull, the salary of the secretary
of the society, the general expenses of
the management, and sinking-fund
charges in respect of the depreciation of
the bull sufficient to provide for the re-
placement of the bull when necessary. If
a society arrange with an owner of a
bull to place a bull at their disposal,
they must guarantee the service of not
less than twenty-five cows belonging to
their members. The owner of a bull will be
entitled under these circumstances (1)
to payment from the society of a sum
not exceeding £12 as may be agreed
upon; (2) to a fee of not less than 2s.
6d. for each cow served, and (3) to have
not more than fifteen of his own cows
served by the bull. If a society arrange
for the provision of a bull in this man-
ner, the grant of £15 made to them by
the Government, together with a nomi-
nal subscription of, say, 1s. per member,
would probably suffice to defray all ex-
penses, as the owner of the bull and not
the society will be responsible for the
keep, insurance, and care, etc., of the
animal.

HEAVY HORSE SOCIETIES.

Grants will be made on the following
conditions to heavy horse stallion socie-
ties which hire stallions: (1) No grants
will be given to societies which hire
stallions to travel at a fee exceeding £3
3s. (2) In no case will the grant to
a society exceed £80 for each approved
stallion provided by it, of which not
more than £40 may be a direct grant,
the remainder being used, if necessary,

HINMAN The Universal Milker
