

## Look for the Sign of the Grain-Saving Stacker

THE Grain-Saving Wind Stacker saves the grain wasted in the ordinary process. It saves enough, in fact, to pay the threshing bill.

For this reason the Grain-Saving Stacker is the most important improvement in threshing machinery that has been developed in the last twenty-five years.

On your job you can be sure that your grain will go to the sack where it belongs and not in the stack. Insist that the separator must be equipped with the Grain-Saving Wind Stacker.

Manufacturers of the famous makes equip with the Grain-Saving Stacker. Write to any of the list below for full information

See that this trade-mark—in colors—is on each side of the Wind Stacker you buy or hire. It indicates the Grain-Saving Wind Stacker.

The Grain-Saving Stacker Originated With the Indiana Manufacturing Co., Indianapolis, Ind., Who Also Originated the Wind Stacker.

## Light Draft and Thorough Spreading

FROM a quarter to half a ton less dead weight for your horses to pull—a straight line of drive through direct connection of front and rear axles, and freedom from choking—these three light-draft features alone often sell T.A. Spreaders. And its direct chain drive is the lightest running drive yet contrived.

Thorough Spreading—even spreading—is assured by double cylinders running in opposite directions. And then to make assurance doubly sure our exclusive, special design distributor that takes care of odd lumps of manure that might happen to get through. ## This booklet yours for the asking!

Farmers who think they have a good Cream Separator have their eyes opened wide after reading this interesting booklet. It tells you why it is highly profitable to replace your old machine with the close skimming Melotte—the machine that has been the farmers' best friend for 25 years—the machine with the suspended bowl that hangs naturally on a ball bearing spindle, a real self-balancing bowl that so often saves enough butter-fat in a year to pay for a Melotte. Read how it skims cleanest, turns easiest and lasts longest.
