

Premiums! Premiums! Premiums!

PREPARE FOR SEEDING! **NOW** is the time to secure **NEW** and **CHOICE WINTER WHEATS** by obtaining new subscribers for the **FARMER'S ADVOCATE**, the foremost Agricultural Paper in America for the practical farmer. For the benefit of our readers we have secured a quantity of two new and most successful Winter Wheats.

Dawson's Golden Chaff and Early White Leader.

DAWSON'S GOLDEN CHAFF has topped a list of 42 varieties grown at the Guelph Experiment Station for the past three years, yielding 18 bushels per acre more than the average of 80 varieties tested. In co-operative experiments by the Experimental Union all over Ontario in 1893 and 1894, it gave **THE LARGEST YIELD**, and was **MOST POPULAR**, out of eleven varieties tested, thus proving its general adaptability. Average yield per acre at Guelph, 51 bushels; over Ontario, 35. It is a bald wheat, white, golden straw of medium length.

EARLY WHITE LEADER.—A newer and most promising sort. At the Guelph Experiment Station it gave the largest yield (43.6 bushels per acre) out of eight varieties grown for the first time in 1893; average yield on 81 farms throughout Ontario, about 30 bushels. (The general average of all winter wheat throughout Ontario, as reported by the Bureau of Industries, was less than 20 bushels.) **Early White Leader** has again done well this year. It has a long straw, stands well, long bald heads, white chaff, and has beautiful white grain.

How to Start Growing these Heavy Yielding New Varieties.

We will give 20 lbs. of either variety for the name of one (1) new subscriber to the **FARMER'S ADVOCATE** accompanied by \$1 cash; or, 50 lbs. for two (2) new subscribers and \$2; each additional new subscriber, 25 lbs. more. First-class cotton bags in all cases 20 cents each extra. Wheat sent by Express or Freight as desired, F. O. B.

AGENTS WANTED IN EVERY TOWNSHIP to canvass for the **FARMER'S ADVOCATE**, on commission or salary. Others have done handsomely; **SO CAN YOU.** Write for terms and free sample copy. **BE FIRST IN THE FIELD** and secure the first and largest harvest.

Address: **THE WM. WELD CO. (Ltd.), London, Ont.**

WANTED!
A large number of one-year-old Pullets. Name breed, number for sale, and lowest cash price. Address,

NEW AMERICAN WITH BEAN HARVESTER ATTACHMENT.

The Bean Harvester is an attachment which is easily put on to the New American Harrow and Cultivator after removing the sections. It puts two rows of beans at once, leaving them in a perfect windrow, and harvesting from 12 to 18 acres a day. This machine is indispensable to bean-growers, and is highly recommended by all who have seen it. As a harrow its work is perfect; the teeth have reversible points and can be locked down or allowed to float. It also has special points made expressly for killing thistles. As a cultivator the New American has no equal; it cultivates perfectly all crops planted in rows, and with the Extension Arms two rows of beans can be cultivated at once. We sell the New American, either as a cultivator or bean harvester. If you have one of the machines you can obtain the attachments for making the other at a small expense.

Knives can be Locked in any Desired Position.

AMERICAN HARROW CO.,
