### THIS IS ECONOMY

Getting Two Bushels Where One Grew Before.

Saving half the value of a crop of hard winter wheat by having the forethought of guarding against the possibility of drought IS economy. Filling the grain shells as full as they will hold by properly stimulating the growth of the grain is FURTHER economy. Forcing the straw to its full length is another step. All is easily accomplished by irrigation. The Canadian Pacific Irrigated Lands are unequalled elsewhere in the world. The soil is wonderful in its richness—the watering system is astounding in its perfection. Write for an illustrated free booklet to:
