

DE LAVAL

CREAM SEPARATORS

Save their cost every year of use

If you are milking even as few as two or three cows and are not using a De Laval Cream Separator, you are wasting both quantity and quality of cream every day you go without one.

The larger your herd is the greater your loss without a De Laval Cream Separator.

This applies not only to those who have no separator, but to those who are trying to get along with some separator other than the De Laval.

The De Laval saves enough over any gravity setting system in butter fat, quality of cream, sweet skim-milk, labor, time and trouble, to pay for itself every six months.

The De Laval saves enough over other separators in closer skimming, in running heavier and smoother cream, skimming cool milk, greater capacity, easier cleaning, easier running and fewer repairs, to pay for itself every year.

The 1912 Improved De Laval saves enough over De Laval machines of five, ten, fifteen or twenty years ago, in closer separation under all conditions, greater capacity, easier running and greater mechanical perfection, to pay for itself every two years.

A liberal "exchange" allowance will be made for your old De Laval Separator, or any other make, toward the purchase of an up-to-date machine. If you are using an old-style De Laval

or any other separator, it will pay you to investigate the great improvements in our latest style machines, including automatic oiling.

De Laval Separators are not only superior to all others, but are at the same time cheapest in proportion to actual capacity, while they are so much better made that they last from two to ten times longer.

More than a million and a quarter cow owners the world over have found the De Laval Cream Separator to be the best investment they ever made and 98% of the World's creameries use the De Laval Exclusively.

De Laval Cream Separators are made in all sizes and capacities, from a 135-lb. an hour machine that sells for \$35 to a 1350-lb. an hour machine that sells for \$160.

All farm and dairy sizes are made to run by hand, or can be furnished with attachments for operation by gasoline engine or any other kind of power.

We have agents in almost every locality who will be glad to set up a machine for you and give you a free trial, and we have an arrangement with our agents whereby the purchaser, if he desires, may make a partial payment at time of purchase, and pay the balance on such easy terms that it will pay for itself out of its own savings.

If you don't know a De Laval agent, write to our nearest office for his name and a catalogue, which we will gladly send you.
