REPORTS OF CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder. I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances. It is a scientific fact that the Royal Baking Powder is absolutely pure. I have examined a package of Royal Baking Powder, purchased by myself in the market. It is entirely free from alum, terra alba, or any other injurious substance. I have analyzed a package of Royal Baking Powder. The materials of which it is composed are pure and wholesome. The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1876; at the American Institute, and at State Fairs throughout the country. No other article of human food has ever received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world.
