### LOCAL & PERSONAL

Heavy Lateral Half Size Wire

### Frost Fences Are Strong All Around

The laterals of a Frost Fence are High Carbon No. 9 Hard Steel Coiled Wire, thoroughly galvanized—that can't be broken until the strain reaches from 1900 to 2200 pounds.

The stays are No. 7 or this same No. 9 wire. And the two wires are locked with the Frost Locks. That braces the fence in all directions—up down and diagonally.

We are so sure that Frost Fences are the strongest and best that we guarantee to repair, free of charge, any fence that goes wrong. That's fair, isn't it? Frost Wire Fences are for sale by
