# ANNUAL INCREASE

Speaking in Portland Street Methodist Church last evening before a large gathering assembled at the invitation of the Laymen's Missionary Movement committee, Rev. George Steel remarked upon the recently acquired opinion of Japanese Christians to the effect that they were not capable of directing their mission work. The Japanese were splendad workers, but failed in

the work of management and lacked initiative. They were realizing, their weakness in this respect. Of late years the native Methodist churches of Japan had been of the pinion that the time had arrived when they could dispense with the services of a Canadian missionary leader, but time had taught them that this leadership is a vital necessity.

Rev. Mr. Steel is returning from Ottawa, where he was present at the sessions of the General Board of Missions, representing the N. B. and P. E. Island conference. He is at present stationed in Bedeque, P. E. I., but is well remembered here as a former pastor of Portland Street Methodist. The Canadian Methodist Mission Board, said Rev.
