## ROSSLAND WEEKLY MINER. Fourth Year, Number 28 ROSSLAND, B. C., THURSDAY, SEPTEMBER 22, 1898. Two Dollars a Year. 7 pany checks for \$12,321.95 (freight, trend of the vein is northeast and south-treatment and duty charges deducted) in respect of shipments of 123 tons, 310 pounds of Silver Cup ore to the smelter. A further shipment of about 56 tons has just gone forward. This makes a total of something over 650 tons shipped during the last few months, all the ore being of the same high grade character. The last few months, all the ore being of the same high grade character. The last few months are high grade character. ORES OF THE LE ROI LETTERS TO THE EDITOR. Increased Values With Depth. OUTSIDE CAMPS ROSSLAND, Sept. 21. EDITOR MINER-Sir: Kindly allow me space in which to comply with the request of friends to make a statement Slocan Boy Bonded to an English Gold and Silver Values the Same covering my experience in the Le Roi mine, as to values and depth, in com-Company For \$50,000. From the Surface. parison with the statement made by -News-Advertiser. Twelve feet of ore is now exposed in INCREASE IN COPPER The guess of subscription of the statement mater by Nicholas Tregear, superintendent. I read Mr. Tregear's statement with great interest, and herewith submit mine. Development and values as encount-ore Enlarged in Siliciousness Also Development and values as encount-ered from the surface to a depth of 360 feet. On August 10, 1893, I found the Development with a drift five feet Development and values as encount-ered from the surface to a depth of 360 feet. On August 10, 1893, I found the the gueen of the Hills group and the on the former property having been at a depth of 600 feet from the surface.
