First American Mandolin.

The first mandolin made in America was turned out in Chicago and was built by Joseph Bohmann, an instrument maker who was well known at the time as a manufacturer of violins. The date was 1883 or 1884. The writer of this article was teaching and play-ing the mandolin in Chicago at the time, using a small model imported French instrument, and remembers the Bohmann instrument particularly on account of its unusual size, much larger than any he had ever seen, its peculiar shape and its very crude construction as compared with those of a later date. Nevertheless it was a beginning. Other manufacturers experimented, and it was but a short time until Bohmann and other makers were ents that were acturni cepted by professionals as superior to the imported mandolins. From that

A Chinese Legend. The origin of wedding customs, such as the wearing of a vell, the throwing of old shoes for good luck, etc., seem to have a perennial interest for the public. But here is a new and charming legend to account for the throwing of rice at the fleeing bride and bride-

The custom, it seems, is Chinese. A famous sorcerer named Chao became jealous of the power of another sorcerer, a woman, and, conceiving a plan to destroy her, he persuaded her parents to bestow her upon his supposed son. The crafty Chao chose the most unlucky day for the wedding, the day when the "Golden Pheasant" was in the ascendant, so that when the bride entered the red chair the spirit bird would destroy her with his powerful beak. But Peach Blossom gave directions to have rice thrown out at the door, and she passed out unharmed while the spirit bird was devouring it.

Salt and Concer. An eminent London physician advances the theory that excess of salt is one of the four factors which cause cancer. It is essential, but is inoperative without one or two others. Excess of salt may arise from too much meat. He considers that other factors are overnourishment, an impure condi-

tion of the body resulting, owing to the nonuse and nonoxidation of food. Some local irritant or stimulant, such as friction from the stem of a pipe er irritant from some micro organism, must always be present. Cancer is seldom seen among Jewesses, possibly from the difference of diet. Savages, so far as is known, are exempt from cancer, and they get no sait. All the lomestic animals, except the pig, are subject to cancer, and salt is given to

steep, cows and horses, but never to

pigs. If you are a dyspeptic with tender teeth, says a dentist, use a small, soft brush twice a day, and just before stepping into bed rub with your fore-tinger a With day blessbands of said finger a little dry bicarbonate of scda about the root of the gums. Some folks use a solution of carbolic and soda as a mouth wash, which is very nearly as good, and I always advise, instead of the employment of dental silk, a mar-row rubber band, such as you buy for

desk use. The rubber run between the teeth will catch any deposit and won't cut the gums as thread often does.

THE POPULAR SPRING MEDICINE CURES EVERY FORM OF LIVER TROUBLE.

Victory Over An Insidious Disease After The Failure of Physicians.

The liver is the great housekeeper of our health. On its right and pro-per action depends our enjoyment of

One of the commonest indications of a disordered and diseased liver is nasty tongue—furred and coated. Such a condition is positive proof that the liver is not working well. Other symptoms are as follows: nauseous taste in the mouth, pains under the shoulder blades and in the region of the kidneys. Frequently the mental symptoms of liver trouble are more dangerous than bodily ills. Sufferers has selected a lot for a summer cot-tage at the J. D. McDonald front, experience mental anguish, gloomy

Mrs. G. Durant, of Elma, Ont., cured by Paine's Celery Compound after suf-fering for years from severe liver troubles, writes thus:

"For many years I have been a sufferer from liver troubles, and have loctored with several physicians, but only found relief for a very short time. My husband advised me to try time. My husband advised me to try your Paine's Celery Compound. I did so, and found so much relief from the first bottle that I continued, and am now using the third bottle. Your compound has done more for me than any physician. For months before using the compound I never had one night of sound sleep; but now I can go to bed and sleep soundly and naturally, and feel like a new creature in the morning,"

"The blood is the life." Science has never gone beyond that simple state-ment of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgment are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. No one can be well balanced in mind and body whose blood is impure. No one can have a wholesome and pure life unless the blood is pure. Faul blood can be made pure through the use of Dr. Pierce's Golden Medical Discovery When the blood is pure, body and brain are alike healthy and life be-

comes a daily happiness.
