BATH BREEZES

During the past week this town has noticed a revival in miniature, resembling somewhat the activity which was presented during the days of the war. A large number of teams are employed in the transportation of lath from McIntosh Bros' new mill, which is situated at Keenan Bridge. This lath is being loaded for export to the American Market. Pulpwood and hay are also on the move. Many cars have been shipped while others are now being loaded.

A. J. Drost and H. C. Price were in St. John during the past week, where Mr. Drost successfully passed his examinations and is now a bona fide electrician. They returned on Wednesday last and were accompanied by Mr. Clark, brother-in-law of Mr. Drost. The trip was made by car.

To Mr. Gallagher, his many friends will unite with "The Bath Breezes" in tendering to him the heartiest of congratulations.

The work on the Haley Bridge, has been suspended for this year, though it is expected that it will be completed in the spring. It is even in its present state a vast improvement.

What is thought to be a fair day's work in threshing was the return of 374 bushels of oats by Perry Barker, which was accomplished between the hours of 8 a.m. and 5 p.m. While engaged for George Craine, of Gibson Settlement this amount was threshed.

Edward McSheffery, has altered the entrance to his blacksmith shop, so that now instead of entering it from Mechanic street, the doors are facing Church street. This should make it much warmer during the winter months, as the doors formerly faced the north.

Montague Shaw, lower Main street, has moved his dwelling, which was formerly situated on the bank of the river, to a lot just opposite and on the upper side of Wm. Martin's residence.

The Hospital Aid met at the home of Miss M. Lester, R. N., the president on Friday afternoon.

Everett Ridley of the firm of Creighton & Ridley, passed through town on Saturday.

A thrilling experience which not many readers would care to emulate, occurred during the past week, when Mr. and Mrs. Watts Giberson lost their way while out hunting. After spending a night, a day and another night in the forest, wandering out into the clearings to the headwaters of the Miramichi. They first entered the woods back of Johnville. However, Mr. and Mrs. Giberson are now explaining the thrills of being lost to their friends, but at the same time are thankful that they came through safely and that they are now able to relate their experience.

Miss Jewett, R. N., Fredericton, is nursing J. W. Bohnan, who, although still confined to his bed, is doing as well as can be expected.

Rev. Father Hayes, Williamstown, was calling on friends here Monday of this week.

That the trapping season from all appearances should prove to be a very successful one for all those engaged in that work, will be realized when one man in this vicinity is already reported to have ten foxes to his credit.
