## S. A. Veterans' Land Grants.

Vice-President M. Sgt. Galloway, of the South African Veterans' Association of York County, recently received a communication from President W. A. Lowry of the Imperial and Colonial Service Association of Alberta, giving a lot of valuable information in connection with the recent land grants of the Dominion. He is of Commons to veterans of the British-Boer war and warning them to beware of speculators who are desirous of buying up the scrip at low rates. In the course of his communication he asserts that the land at the present time is worth \$6 or \$7 per acre, and will run up to \$15 or \$20 an acre in a few years. Mr. Archie McAdam, who has recently removed to the West, wrote to Mr. Frazer Hazlett a few days ago, stating that he could dispose of any amount of grants of land out there for \$300. None of the Vets here have any notion of closing yet and are awaiting a reply from Sir Fred Borden to the letter of their secretary, Capt. P. A. Guthrie, asking for full information in regard to the grants and copies of the Act under which the grants were made. Ald. J. J. P. Winslow, Arthur Finnermore, and many other veterans have received offers from a party in the west of \$160 or upwards for their scrip, but have no intention of closing until their absolute rights under the Act are ascertained.

## SEIZED HORSE AND RIG FOR TAXES

Some More Interesting Developments In the Effort to Settle an Interesting Case.

Some further and more interesting developments in the efforts of the city officials to make George Beatty, the local butcher, pay into the city treasury a balance of about \$50 alleged to be due in taxes for 1907.

This week Mr. J. B. Hawthorn, the city collector, visited Mr. Beatty's establishment and seized a horse, wagon, harness and robe and they are now advertised for sale on the 8th inst. In the meantime the horse is being boarded at a local livery stable at the expense of the city which Mr. Beatty thinks is a good idea because it needed a rest.

Today Mr. Beatty consulted his lawyer and will not submit to paying the amount demanded by the city unless it becomes necessary.

Last year he received a tax bill for an amount slightly in excess of \$10 and took advantage of the discount offered which made the amount paid less than \$10. He received a receipt for his taxes for 1907 and never thought anything more about the matter until recently an endeavor was made to have him pay \$50 or so which it was claimed was due on his 1907 taxes. Mr. Beatty protested and the seizure of his horse and rig followed. There may be some lively times before the case is finally settled and if nothing further is accomplished an interesting point will be settled.

## Sugar Prices Down.

While the sugar market attracts attention at present on account of the number of reductions in prices the most interesting feature is that the "Austrian" brand is down to \$4.45 while the "Standard Granulated" sells for \$4.85 per cwt. wholesale. There is usually only ten cents difference in the prices but the change at present is due to the recent heavy importations of American sugar from the Continent. Bright yellow, the first grade of brown sugar, is selling at \$4.65 per cwt. with \$4.35 for No. 1 yellow.
