

THE NEWCASTLE UNION ADVOCATE

VOL. 42.—NO. 35.

NEWCASTLE, NEW BRUNSWICK, TUESDAY, MARCH 8, 1910.

PRICE THREE CENTS.

DOCTOR HYDE A HUMAN MONSTER

Indicted at Kansas City for the Murder of Three Persons

STARTLING CHARGE

Grand Jury Find That He Attempted to Destroy Whole Household of Millionaire Patient by Inoculating Them With Typhoid Germ.

Kansas City, Mo., March 5.—Dr. B. Clark Hyde, husband of a niece of the late Thomas H. Swope, was indicted early tonight on thirteen counts returned by the grand jury which has been investigating the Swope mystery for the last three weeks.

Two indictments charge first degree murder in connection with the deaths of Col. Swope and of Christina Swope. Dr. Hyde is alleged to have given them strychnine tablets.

One indictment accuses Dr. Hyde of manslaughter in bleeding James Moss Hunton, a cousin of Col. Swope, in a neglectful manner.

Perhaps the most surprising of all the indictments returned are the eight in connection with the alleged poisoning of the Swope family and visitors and attendants of the Swope household. Dr. Hyde is accused in these indictments which contain ten counts, of poisoning with typhoid germs with intent to murder Margaret Swope, Stella Swope, Sarah Swope, Lucy Lee Swope, Nora Bell Dickson, Georgia Compton, Mildred Fox and Leona Copridge, a colored girl. All these persons were stricken with typhoid fever while Dr. Hyde was attending the Swope family. Dr. Hyde received the news of the indictments calmly.

FROM A SHADOW TO ROBUST HEALTH

Is the Change Dr. Williams' Pink Pills Made in a New Brunswick Woman.

Anæmia—bloodlessness—is a trouble confined largely to women and growing girls. Its victims are pale; they lose all strength; their attention greatly fatigues them and they suffer continually from headaches and depressed spirits. Nothing will cure anæmia so quickly or so surely as Dr. Williams' Pink Pills—they have cured thousands of cases, not only in Canada but throughout the whole world. They do this because they make good blood. Among those cured by these pills is Mrs. T. Chalmer Hardley, East Florenceville, N. B., who says: "At the age of sixteen I fell away to a mere shadow. I had scarcely any blood and suffered from all the distressing symptoms of anæmia. Doctors did not help me in the least, and acting on the advice of a friend I began taking Dr. Williams' Pink Pills. They effected a remarkable change in my condition, indeed I really believe they saved my life, as I have been well and strong ever since I took them. I also recommended the Pills to a neighbor's daughter who was similarly run down, and they also completely restored her health."

Every woman and growing girl should take Dr. Williams' Pink Pills occasionally. If you are ailing from any of the many troubles which afflict your sex they will cure you; if you are not ailing they will protect your health and keep you well and strong. Dr. Williams' Pink Pills are sold by all dealers in medicine or direct at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Germany desires to cultivate friendly trade relations with Canada. The several German traders have as yet no share in the growing very rapidly.

KING EDWARD'S PLEA FOR PEACE

One of Strongest Declarations Ever Made by European Monarch

STARTLING CHARGE

Grand Jury Find That He Attempted to Destroy Whole Household of Millionaire Patient by Inoculating Them With Typhoid Germ.

London, March 2.—King Edward yesterday made plea for universal peace—one of the strongest declarations of its kind delivered by an European monarch since Nicholas of Russia proposed his Hague peace plan. The King's words are regarded as of especial interest in view of the recent German war scare.

It was when he received the Archbishop of Canterbury and York and members of the church convocations this afternoon that he took occasion in replying to the York convocations address, to say among other things:

The concord of Christendom is unbroken and rarely in history has the idea of war seemed so repulsive or the desire for peace been more widely cherished, throughout my empire.

CALLING A HALT IN EXAMINATIONS OF MRS. GLOVER

Her Counsel Objected and War of Words Followed Between Lawyers

STARTLING CHARGE

Grand Jury Find That He Attempted to Destroy Whole Household of Millionaire Patient by Inoculating Them With Typhoid Germ.

Cambriage, Mass., March 4.—In the Hattie LeBlanc case yesterday, Mrs. Glover's counsel called a halt in the examination of his client on the ground that after three days he had not only failed to show she exerted any influence in drawing Hattie's will, but that it had been executed in that it has raised criminal accusations against her. A war of words between the lawyers followed. The judge finally stopped the controversy, but permitted the examination to continue.

W. L. ALLAIN'S SPEECH IN ASSEMBLY

Urges Newcastle-Tracadie Railway and is Pleased With Teacher's Pension Bill.

In seconding the address in the House of Assembly, a few days ago, W. L. Allain, M. P. for Northumberland, noted with pleasure the formation of 18 new agricultural societies. The more the farmers co-operated with each other, the better for their future progress. In his own county, they had a missing link. From Newcastle to Tracadie, a distance of some fifty miles, there was urgent need of railway accommodation which he hoped would be forthcoming in the near future. He noted with pleasure that it was proposed to do something towards providing pensions for school teachers. He had every respect for that profession, having himself been a member of it for seventeen years. By reducing the price of school books the government had taken a considerable burden off the shoulders of parents, an accomplishment which had been received with much satisfaction throughout the province. The government was now proposing to go a step further and do something to benefit teachers.

CAPTAIN'S BODY FOUND IN DOCK AT MAHONE BAY

Body Bruised and Head Cut.—Blood Stains on Cabin Floor.

STARTLING CHARGE

Grand Jury Find That He Attempted to Destroy Whole Household of Millionaire Patient by Inoculating Them With Typhoid Germ.

Mahone Bay, March 4.—With his head gashed and body bruised, Capt. J. Wenzell, master of the schooner Goldie Belle, who has been missing the last two days, was found in the dock near the vessel yesterday. The nature of the injuries, coupled with blood stains discovered on the cabin floor of the schooner point strongly to foul play. The community of Mahone is greatly excited. The attorney-general has ordered an inquest.

TWO FATALITIES AT GRAND FALLS

Italian Laborer Has Head Blown off by Accidental Discharge of Dynamite and John Martin Killed by Log.

Grand Falls, March 6.—As the result of an accidental explosion of dynamite, the camp of M. G. Hennigan, a contractor working on the G. T. P. railway, one Italian was instantly killed and two others seriously injured Saturday. The Italian was working in a thirty foot tunnel when, it is supposed, he drove his pick into a stick of dynamite that somebody had mislaid. At any rate a heavy explosion occurred, blowing off the man's head and injuring two others near the mouth of the tunnel. An inquest will be held Monday. Mr. John Martin, a well known resident of this locality, was accidentally killed on Saturday. With his son, he was engaged hauling logs to Grand Falls, when one of the logs slipped from the team and fell upon him, killing him instantly.

TROOPS MAY BE WITHDRAWN

The Magistrates at Glace Bay Will Also Return to Sydney

STARTLING CHARGE

Grand Jury Find That He Attempted to Destroy Whole Household of Millionaire Patient by Inoculating Them With Typhoid Germ.

Glace Bay, N. S., March 2.—It is reported on excellent authority, though not officially that the soldiers now stationed at the collieries under the command of Col. Wadmore, are to leave here tomorrow and return to Halifax. There are now only about 150 here altogether, the majority of whom are stationed at No. 2. The Magistrates will also return to Sydney, as their services will not be required.

UPPER NELSON

Upper Nelson, Feb. 25th.—Wm. Russell spent last Sunday in Chatham. Miss Lillian McInnis entertained the ladies of the sewing circle on Thursday afternoon. The circle meets every second Thursday at the home of the members. Rev. Dr. Grant, who preached Wednesday evening the 23rd, in the interest of foreign missions, went on Thursday morning to Blackville, where he intends holding services before going to his home in Halifax. Mrs. L. Gallon, who had the misfortune to fall and break her arm, is somewhat improved. Mr. Stanley Parks has returned from the lumber woods. James Manderville and Co., who have been lumbering on Cataman Lake expects to finish their operations about the 5th of March. Miss Hallinan of Renou, is the guest of her aunt, Mrs. Underhill, of McKinlayville. Mrs. F. G. Clark was calling on friends in this vicinity on Friday afternoon. Mr. C. M. Doyle of Halifax, N. S., intends spending some time with his father-in-law, Mr. Wm. Gorbett. Frank Parks of Upper Derby, has returned from the woods. Miss Davidson, our popular school teacher, spent Saturday and Sunday with friends in Newcastle.

SAD ENDING OF ST. JOHN MAN

Tragic Death of Walter B. Scovill in New Glasgow Hotel

STARTLING CHARGE

Grand Jury Find That He Attempted to Destroy Whole Household of Millionaire Patient by Inoculating Them With Typhoid Germ.

New Glasgow, N. S., March 6.—A commercial traveler named Walter B. Scovill, and well known in the maritime provinces, took his life in a tragic manner at the Norfolk House here last night. A few minutes before 6 o'clock Scovill summoned by telephone one of the bellboys to meet him downtown. When the boy got to him he asked him if he thought he could get a room at the Norfolk. The boy thought so and accompanied him to the house. He registered and with the clerk, George Gannon, went up to his room, the clerk also assisted him up with his grips, which had been left at the house from earlier in the week. A few minutes later a bellboy, who had been on that floor, reported at the office the smell of powder. Gannon at once ran up and found the door of Scovill's room partly open and Scovill lying on the floor with a revolver in his hand. He summoned help and when the body was examined life was extinct. Scattered about the room was a portion of the contents of the grips which evidently in his haste he had torn open in his search for his revolver. His overcoat and cap were still on and the bullet of a thirty calibre had entered his temple. Mr. Scovill was the son of the late E. G. Scovill, and was about thirty eight years of age. For several years he was a road representative in the employ of W. H. Thorne & Co., but at the time of his death represented the firm of Fotheringham & Workman, of Montreal. He is survived by his widow, formerly Miss Patterson, of this city; his mother and one sister, Mrs. T. N. Vincent, both of whom reside in this city, and one brother, Earle, in British Columbia. After leaving St. John Mr. Scovill resided for five years in Chatham, and for a year in Newcastle. He was very popular and in his younger days in St. John was prominent in athletics, being a member of the old St. John Bicycle Club. The body will be brought here tomorrow morning, and the funeral will take place in the afternoon from the residence of T. N. Vincent 5 Garden street. A. P. Patterson, of this city, is a brother of Mrs. Scovill.

SEVERITY. Wash. Mar. 3.—It is now almost certain that the death toll in the avalanche that carried away two Great Northern Railway trains and several passenger cars, Feb. 22, will be about 40. It is believed that any of the 67 missing will be found alive, as 38 or forty eight hours since they were buried beneath the tons of snow and ice and twisted wreckage that swept over the ledge of high line and dropped to a heap to the bottom of the canyon two hundred feet below.

WIT AND HUMOR

Doctor—what are you doing in that tub? You'll catch your death." "But, doctor, didn't you tell me to take the pills in water?"

Teacher—"And why was Moses so frightened when he saw the burning bush?"

Isaacstein, Jr.—"Maybe der bush wasn't insured."

In England the view is held in well-informed circles that amicable trade relations between Canada and the United States will be good for Canada without seriously affecting British trade.

The power of the church in Montreal is illustrated by the withdrawal of the Passion Play from a local theatre because it had been placed under the ban.
