Personal Responsibility

Yesterday we made some remarks on the desirability of cultivating the feelings of personal patriotism, responsibility and duty for the general honesty and efficiency of the administration of public affairs. We referred to the power which is threatening to sap the reality of popular government. We pointed out the tendency of the moneyed interest to seize the public domain by utilizing the forms of popular government. The great danger of the day is not king-craft, priestcraft, aristocracy, but money craft. Government by party is an effective means of ruling the people for the people by the people, provided the people are patriotic enough to do their duty. But if they are not, party government becomes a more effective means of despoiling a country than even Caedron, or aristocracy. The plutocrats provide the money to run political campaigns. Moneyed men pay for the printing of political literature, for the hiring of halls for meetings, the expenses of candidates, and often for the support of those elected. For moneyed interests these subscriptions are but investments. Politicians become their pawns, and a legislative machinery for conveying a country's resources to the millionaire's coffers—in short for converting the public domain into the private domain of the Almighty Plutocrats.

Where there is no King, with royal traditions of duty to his people; where there is no aristocracy dominated by the spirit of noblesse oblige, the rule of the plutocrat seems to grow ranker. Under the guise of freedom and independence, the people are deluded into the belief that they rule because they make marks on ballot papers and because they have been taught to take pride in the cry that Kings have no sway over them, and that there are no families with heritable titles among them, and all the time they are being sheered like sheep and led to slaughter like innocents by Trusts and Combines who fleece their country more unscrupulously than any King or Oligarchy known to history ever did.

Where is the fault?
In the people themselves, in the

lack of personal patriotism, in the absence of sense of duty, in their stupidity in permitting political organizations to depend for existence on the big subscriptions of trusts and millionaires.

Yesterday we made reference to a movement which is on foot in America, where these evils have attained their greatest magnitude, to build up a public opinion, to create a sense of responsibility, to habituate the people to a sense of duty about the administration of public affairs. We made reference to his movement to counteract the evil. This movement is an educational one. It is based on the principle of catching citizens young and training them aright. It is based on the idea that self-government must be made a habit, and that a public opinion must be created and maintained, and that the school is the proper nursery of such a movement. Of this, more anon.

Mr. Whitten Dead.

Mr. William Whitten, of New Governor Street, died rather suddenly this morning of heart disease. He felt a spasm coming on while in bed and as he was making an effort to get up he collapsed and breathed his last a few minutes afterwards. Deceased, who was in his 59th year, was a married man, and two of his daughters are in the States. He was formerly freeman of the Lunatic Asylum.

Pleasing Presentation.

Rev. Fr. Fynde last night took leave of the Catholic Cadet Corps, of which he had been chaplain for several years. Both officers and lads had a great regard for their chaplain, and last night the former presented him with a handsome rifle and 500 rounds of ammunition. Sunday night the committee in charge of the Corps presented Father Fynde with a purse of gold containing a very substantial amount. In both instances Father Fynde had a very agreeable surprise and heartily thanked the generous donors.

Hidden Money Found.

About a year ago the post office at Bishop's Falls, of which a young man named White, of Bonavista, had charge, was robbed of \$30 from the safe. White wired the Postmaster General that the office had been broken into during the night, and I. G. Sullivan sent Sergt. Byrne to examine the place. This officer carefully did, but could find nothing to indicate that the place had been entered.

Circumstances went to show that the money had been stolen by some one having access to the place. Several were in the habit of visiting it, and suspicion fell strongly on a certain party, but no clue could be had to lead to the discovery of the money. White in the meantime had been making good the stolen cash in instalments. He was succeeded later in the office by his cousin, Miss White, and transferred to Bonavista to take the place of Mrs. Stabb, his mother.

Who Kept the Post Office There.

The past spring, some children playing about a spot, distant about a quarter of a mile from the post office at the Falls, began rooting under the stump of a tree and came across a large sum of money. They were the children of Mr. Lincoln, head of the construction work, and they took the money to their parents. A further search about the stump was made and altogether \$69.75 was discovered with some things from the post office, which tended to show that it was the cash stolen from there. The find was reported to Miss White and Mr. Colburne, J.P., and to the latter the cash was handed.

Mr. Sullivan a few days ago sent Constable Martin down there from Grand Falls, and Messrs. Colburne and Lincoln were satisfied that the money belonged to the post office. The cash was then handed over to the Inspector General, who in turn gave it to the P. M. G. It had evidently been placed in a tobacco box which kept the notes intact and dry.

Caplin Plentiful.

Mr. Fred. Canning, of G. M. Barr's office, who returned from a trip to St. Brendan's by the express yesterday says that caplin struck in plentiful all over Bonavista Bay Saturday and Sunday, but codfish is very scarce. Most of the schooners were ready to sail for Labrador; a few had gone to the French Shore and Straits early in the week. Mr. Canning was delighted with the scenery to be viewed going down Bonavista Bay in the S. S. Dundee, and says that it is the prettiest and most picturesque of all the bays in Newfoundland.

Enjoyable Trip.

Mr. Russell, who had been out on the line as telegraph operator for the Governor's party, returned to town by the express yesterday. He says that the weather was on the whole very fine, there being only one wet day. The Governor had great sport and the party secured three salmon at South Branch, and after coming east caught a fine lot of trout at Millerton. It is expected that the party will return next Thursday.

BOWLING SHIPS.

Bowlings had the following from Capt. A. Kean to-day from Western Cove: "Prospero reached destination O.K.; no whales, no fish, no ice." The Portia left Placentia at 5 a.m. to-day and is due here to-morrow morning.

Chicago Landlord's Way Used Hatchet on Tenant Who Refused to Move.

Chicago, May 31.—Max Kairfine, a real estate dealer, went to one of his houses yesterday to eject Flora Smith, a negro. Flora refused to move. Kairfine then, it is charged, struck her on the head with a hatchet. The blade stuck in the woman's scalp. Flora blinked a moment, then with the hatchet still sticking in her head, she kicked Kairfine down a flight of stairs to the street. Flora followed, and before he could rise seated herself on his body and drew the hatchet from her head as though it were a hair pin. She was beating Kairfine with the weapon when the police rescued him. The fight caused so much excitement that a riot call for the police was sounded. Kairfine was arrested charged with assault to commit murder. The woman was taken to a hospital, where her condition is reported serious.

In spite of the fact that the Kaiser always rides a white charger at reviews, white horses have been barred from the German army because they can be too easily seen by an enemy in the field. John D. Rockefeller recently got a cheque for \$3,715,380 as a dividend from the Standard Oil Company. At this rate his income from this source

alone this year will be nearly \$15,000,000. The New York Mail thinks that as long as grocers are not to weigh the wooden plates butter is sold on in future, that the butchers might stop weighing the paper they do the meat up in.
