Herring Struck in Placentia Bay.

People who arrived from Placentia yesterday say that Placentia Bay is teeming with herring of very large size, and good hauls are being made especially at Sound and Barren Islands. One man at Barren Island landed 200 barrels, and the fish are there as plentiful as ever they were in years gone by when the Americans visited the Bay. Wonder is expressed now by many that some of the American fleet have not arrived in the Bay for cargoes.

Here and There.

FLEET AT BAY OF ISLANDS.—The first of the week there was a fleet of herring catchers at Bay of Islands and most of them were securing cargoes of herring, which are plentiful and of good size. Daily the nets are filled. The price to date is \$1.25 per barrel and the fishers expect to make good wages this winter.

Wedding Bells.

The wedding of Mr. Roger T. Tobin, cable operator, Heart's Content, and Miss Kitty Moore, daughter of the late Mr. Robert Moore, took place Thursday night last at the residence of Mrs. D. Redmond, Gower Street, St. John's. The ceremony was officiated by Rev. Monsignor Roche, assisted by Rev. Fr. Douthey. The Telegram extends congratulations to Mr. and Mrs. Tobin.

Work Booming Ahead.

Messrs. M. and E. Kennedy have now over 75 men employed on the work of the new clothing factory. Work is being pushed ahead with that rapidity for which the Messrs. Kennedy are famous. They are hastening to shed in the basement before the winter sets in, so that work will be continued under shelter all the winter. About 60 men will find permanent employment all the winter, which will be the means of distributing a good deal of money in the city.

ANOTHER CLASS.—Another First Aid Class will be formed on Monday night next and all intending to join it will do so in the Grand Jury room at the Court House.

Our Opportunity.

Sunday's collection is the opportunity which is always welcomed by the thousands of ex-pupils of the Christian Brothers throughout the city and country to give practical expression to their remembrance of labours which have meant so much for them. It is the day which is availed of to pay yearly tribute to the work of the greatest educators which the island possesses. Of the good effect that this work has had on our common country, and how much it has assisted in the Colony's progress, little need here be said. The general improvement in the educational standard of our people to-day compared with that of thirty years since, when the Brothers began their work, is the best evidence of the reformation in this direction. No country can progress with an ignorant people, and in the radiating influence of the Brothers' teaching lie the hopes of Newfoundland to a considerable extent. Those who have received the individual benefits of the work done at St. Patrick's Hall and Holy Cross Schools. It is in order that this work shall continue, that Sunday's collection is called for. Despite the additional rooms supplied by the erection of the O'Donnell Hall, these and the rooms in St. Patrick's Hall are filled to their utmost capacity, and a like condition prevails at the Holy Cross Schools, Riverhead. And, growing young in the service, the Brothers add to their already splendid curriculum the work of Manual Training. How well that is being done may be judged from the display at the recent exhibition. This continually growing number of pupils on the daily roll has meant a continuous adding to the number of the teaching staff, with a corresponding increased demand for funds to provide the bare necessities of life, for to such alone are the Brothers by their vows confined. It is well, therefore, that we bear this in mind on Sunday, and by each contributing to his utmost, help to perpetuate the work which will mean a brighter future for our island than ever before. OLD BOY.

Twenty suffragettes who were arrested during the night for smashing windows in the Government offices were sentenced in the Bow Street Police Court to-day to 2 months' hard labor each. Itching Pile For 27 Yr.

Despaired of ever getting relief cure came 3 years ago with use DR. CHASE'S OINTMENT

Mr. John Johnson, Cavley, writes: "Three years ago I was of blind, itching piles of twenty years' standing by using Dr. Chase's Ointment. I used to think that could be the only relief I could get from the terrible misery of it. Dr. Chase's Ointment is worth a dollar a box instead of sixty cents. I am a different man since using it. I am farming all the time now and not a day. Words fail to express gratitude for the cure this Ointment made for me. I cannot tell half much about it as it deserves. A one doubting this can write direct me."

Do not accept an imitation or substitute in place of Dr. Chase's Ointment for there has yet to be discovered treatment which so promptly gives relief from itching and so thorough cures every form of piles. 60 cents a box, at all dealers, or Edmondson, Day & Co., Toronto. Write for a free copy of Dr. Chase's Ointment.

Gospel Mission.

This Mission holds its last meeting in the Old Temperance Hall to-morrow afternoon. The service will be one of praise and thanksgiving, and will consist of the bright, hearty singing of old and familiar hymns; witty, inspiring and brief addresses by members of the "Old Guard," and from any minister who may be with us. There is to be no tired feeling caused by long speeches; brevity will be observed in every case. City Pastors are cordially invited. Their presence, if only for a few minutes, will do much to encourage and cheer the management of the Mission.

It is to be hoped that all, and any who have attended these meetings since their inception, ten years ago, will make an effort to be present. Christian Workers who have at any time assisted in the conducting of the services will occupy a place at the front. "Whosoever will" are invited to come and take part in what we are praying will be an informal, soul-inspiring service.

A thank offering will be taken up during the service. In planning for the future we need your precious sympathy. "Pretly ye have received, freely give." "Pray and pay" is our motto. "God loveth a cheerful giver." Don't keep away because you have nothing to give.—nov24.11

Burned by Matches.

While a young man of the West End was lighting a match on a box Saturday evening, the whole took fire and he was pretty severely burned about the hands and arms. He had to go to a doctor for treatment.

The accident to the man with the box of matches, reported in the paper on Tuesday, could not have happened if he had been using our famous best manufactured match. There are no highly dangerous explosives used in our matches. They are absolutely safe, will fire every time, and will light in the wind.

The absence of alarming reports to-day from the centres of disturbances in Mexico is taken as additional confirmation of declarations that President Diaz has the situation south of the Rio Grande well in hand. The Government is reported to-day to be in complete control everywhere, except in Guerrero, where troops have not yet penetrated. The insurgents in that place are reported to have appointed a city Government of their own choosing.

Special Evening Telegram.
RIO JANEIRO, Brazil, Nov. 25.
The demands of the mutineers were granted by the Government. The capital slept last night with the guns of its own navy trained upon it. The mutineers remained seemingly masters of the situation. Towards one o'clock this morning one of the mutineers fired on the naval arsenal. The scout cruiser joined the battleships Minas Geraes and Sao Paulo and the scout Dahya in revolt during the night. The rebellious sailors continued a defiant attitude this morning before Congress met, and there was nothing to indicate that they would compromise or surrender even though assured of amnesty, except in the event that the Government yielded to their ultimatum of yesterday and granted an increase in pay, the abolition of corporal punishment in the navy and the adjustment of minor grievances. Last evening the Sao Paulo and Bahia withdrew from the harbor, supposedly because they feared to remain opposite the Government palace, and was joined by the cruiser Decora for several hours. Everything was quiet. Then watches were noted activity on board the Decora, the Paulo following. Midnight passed anxiously. Then the small guns of the Decora awoke the town. It was at first thought that the revolting vessels were making a combined attack upon the city, and for a time a panic feeling was general. Then it was discovered that the firing was confined to the scout and was directed only at the naval arsenal. The cannoning did not last long and no great damage was done. The local garrisons and the loyal boats did not respond, though, according to this morning's papers, their officers had received sincere orders as to their duty in certain contingencies. When the Decora had ceased firing she put to sea, accompanied by the Minas Geraes. Morning broke with the mutinous crafts still outside the harbor, and they did not return to port until some hours later. Congress met in extraordinary session this morning. Both Houses then passed resolutions conceding the demands of the sailors. As soon as the action of Congress became known, the mutinous crews surrendered and the revolt was at an end. The city was soon quiet and assumed its normal activities.

WESLEY CHURCH.—The Rev. J. K. Curtis, B.A., preaches to-morrow morning at Wesley Church to the Methodist Guards. Subject: "Our Reserver." Visitors cordially welcome. Plenty room. At night the preacher will be Rev. A. Young, who has the reputation of being an excellent speaker, and has been a very successful minister at Exploits and other places.

The People Indignant.

The residents of Flatrock who were interviewed by the Telegram yesterday relative to the adventure of the four men—Martin—say that there is a general indignation in the place with reference to the present location of the telephone. Heretofore it was situated in the residence of Mr. James Parsons, but since the spring has been transferred to that of Mr. D. McGuire, at the North Side of the Wharf, and people who require to use it must travel four miles to do so. When the Martins were caught out on the collar Thursday evening had the phone been at Parsons' valuable time would have been saved. Assistance would have reached them earlier and they would have been saved the peril and exposure which was theirs for a whole night. The people we refer to intend requisitioning the Government to have the phone re-established at Parsons'.
