**Wonderland Show**

**TO PLAY NEWFOUNDLAND. PRINCE'S RINK AND GROUNDS.**

The first time in Newfoundland a show of this kind bringing the largest and most up-to-date equipment ever seen in the Colony. The Reid Nfld. Co. will carry the special train from Port aux Basques to St. John's, arriving some time Wednesday. The Wonderland Shows have toured direct from New York City thru the New England States and the Maritime Provinces playing the largest cities in both countries. The Company comprises about seventy-five people who will arrive Monday on the express, the equipment consisting of a complete train will come forward as soon as can be unloaded from the boat. The Monkey Speedway is a new show where small monkeys drive little autos at the rate of a mile a minute, each race as exciting as any automobile contest with human drivers. The Hawaiian Village, comprising some of the best talent obtainable; Hawaiian music, singing, dancing and native costumes. The Submarine, or Over and Under the Sea, will be the biggest thing of its kind ever seen in St. John's, the public will in this show experience the same sensation as if they really took a trip in an under sea boat. Then comes the Circus Side Show, where all the Freaks and Wonders are where you can see. The greatest collection of Freaks and wonders gathered from all parts of the world, Snakes and Monkeys, Fat People and Giants and the Electric Girl. Then comes the largest Mother and Midget Baby in the World, Five hundred and seventeen pounds. And last but not least comes the riding devices the

most beautiful Merry-Go-Round and Ferris Wheel in the World, with jumping horses and all the latest improvements; truly the Prince's Rink will be the scene of great activity when the train bearing the equipment arrives in St. John's. The Management will do all in their power to make the show a splendid success, neither time, work, men or money will be spared to make the show attractive and indeed the two weeks showing of the Wonderland Shows, the First Circus to play in Newfoundland, will not fail to be a success and for that reason was the Prince's Rink secured instead of housing the show under the enormous tent carried by the Wonderland Shows. The Newspapers will have advertisements announcing the time of opening. They will be games of all kinds the same as seen at the Toronto Exhibition. It will be one big two weeks of fun for everybody.

**AT THE POPULAR CRESCENT.**  
An interesting story of Rugged Men's Loves and a nymph child of the woods is told in a great Edison three reel feature entitled, "Blonde O'Grass" presented at the Crescent Picture Palace to-morrow; the winsome gifted Leonie Fluegarth and Pat O'Malley are the principals supported with an all-star Edison cast. George Larkin and Ollie Kirby are featured in "The House of Secrets," another exciting adventure of "Grant, Police Reporter." Billie Reeves, the celebrated English music hall comedienne is the fun maker in a laughable Lubin comedy "Millionaire Billie." Don't fail to see this big holiday show at the Crescent to-morrow.

**In Milady's Boudoir.**

**—THE ADMIRER WOMAN.**

There is nothing more truly lovable than the woman who is genuinely womanly. There is a charm in her femininity that no acquired grace can lend. More especially in this age is the genuinely womanly woman admired. Girls nowadays seem to have a great desire to be so manly, so loud, not only in manners but in talk and dress, many choosing the harsher sports of men in preference to the more charming pastimes of women. The majority of men, I think, really prefer the quiet, lady like girl, with a soft, sweet voice, an affectionate disposition and the girl who prefers to be a lady in all ways. Loud talk and strong words are not for the lady-like girl and, although people tolerate loose manners in many, they do not really admire them. Far more to be appreciated is the girl who openly avows that she likes nice clothes and is given over to the more little feminine vanities, than the one who dresses so manly and who imitates the walk of the toughest of her men friends. To be a lady like woman does not mean that one need adopt even feminine fads and follies indiscriminately. The woman who can make her home bright and attractive, who can be the model hostess as well as wife, who is well informed and able to talk intelligently, yet who is wise enough to realize that women's privileges are preferable to all of man's rights, is the girl or woman we must all admire, and the one fit to be taken to an honest man's heart.

Mother-of-pearl buttons are much seen, especially the smoked variety.

**KORNILOFF'S REVOLT.**

**PETROGRAD, Sept. 10.**  
Eleven cabinet ministers have been in continuous session considering measures to face General Korniloff's revolt, which, in conversations with correspondents ministers admit, is the gravest event since the revolution. So far, except for the deposition of General Korniloff, which the General is apparently determined to defy, no measures have been decided upon, but the discussion is proceeding on a plan to constitute a directory of given men invested with full powers. The names so far submitted for membership are: Premier Kerensky, Vice-Premier Vekrasoff, M. Skobeloff, the Minister of Labor, M. Tereshchinski, the Minister of Affairs, and Maslankoff, the Assistant Minister of war. In an interview with a correspondent, Foreign Minister Tereshchinski said: "The plan for the directory is under discussion, and it may be decided to-night. So far the Government is unable to make any statement. At 12 o'clock we expect the arrival of General Alexieff, with whom we will confer. My personal opinion is that General Korniloff's revolt is not dangerous, and is partly due to a misunderstanding, which will be cleared up."

**ITALIAN OFFICIAL.**

**ROME, Sept. 10.**  
To-day's official reads: In the Trentino enemy reconnoitering parties were put to flight by our advanced posts. In Carnia attacks carried out in force after artillery preparations on Monte Granda and Cuellarod completely failed. North-east of Gorizia our pressure is continuing. Three attempts on the part of the enemy to lighten it with infantry counter attacks were promptly repulsed. In the southern zone of the Carso plateau activity in artillery war is very great. Our airplanes bombarded the enemy batteries at Fernov north, and the enemy attacked them with intense anti-aircraft fire. The collection of the large booty captured since the beginning of the battle has not yet been completed. At present the following has been ascertained: Gun 4, 145, including about 80, of medium calibre, 93 trench mortars and bomb throwers, 322 machine guns, 11,197 rifles. Many of these arms already have been put into action against the enemy.

**FRENCH OFFICIAL.**

**PARIS, Sept. 10.**  
Successful raids were made by the French last night on the German positions in Champagne and Argonne, the French War Office announced to-day. On both banks of the Meuse there was violent artillery bombardment. The French success in the sector of the Fosse and Camieres Wood was complete, and a number of new prisoners were taken.

**HAIG'S REPORT.**

**LONDON, Sept. 10.**  
Field Marshal Haig, in his official report to-day, says: British troops last night consolidated the position captured during the day southeast of Hargicourt on the Somme front in France. At several parts of the front German raiding parties were dispersed.

**PARTIAL EVACUATION OF PETROGRAD.**

**LONDON, Sept. 10.**  
A despatch to the Exchange Telegraphs from Petrograd tells of the commencement of the partial evacuation of Petrograd. "The people," says the correspondent, "are hastily leav-

ing the city. Outgoing trains are filled to their utmost capacity. There are tremendous queues of people at all the stations. The Government is taking measures to empty the city. It intends to remove numbers of educational institutions having boarding establishments and also give facilities for the removal of private effects. These steps principally connected with the question of subsistence are only partly the result of the military situation."

**RUSSIAN OFFENSIVE.**

**PETROGRAD, Sept. 10.**  
Russian troops yesterday took the offensive against the German forces in the region of Segevoid, 62 miles northeast of Riga at certain sectors. The statement says the Russian Death Battalion defeated the Teutons and forced them back in a southerly direction. A battle is progressing between advanced German detachments and Russian rear guards who are holding the Burineak line to Pskoff road; 15 German airplanes yesterday dropped 40 bombs without result in an attack on Russian torpedo boats in the Gulf of Riga.

**USE OF GAS SHELLS.**

Canadian Headquarters in France, via London, Sept. 10 (by Stewart Lyon, Special Correspondent Canadian Press.)—The most notable development on this part of the front during the past few days in Budas is the increasing use of gas shells by the enemy in retaliation for the frequent projection of gas cylinders into the German lines. The gas projectors have been one of the big mechanical successes of the campaign this season. Almost every prisoner who is brought in tells of severe losses through the use of gas against the German troops. Ten captured two days ago state that last week a company of the first guard reserve regiment lost 20 dead as a result of gas shells exploding in a cellar where they lay asleep. Before they could get their masks on the gas had overcome them. Another company of the regiment had 17 casualties from gas in one day, of whom seven died before their removal to hospital. The failure of Germany to obtain a sufficient supply of rubber probably is contributing to the cause of these gas fatalities. The rubber of the German masks is poor and wears readily.

**POLITICAL TROUBLES IN FRANCE.**

**PARIS, Sept. 10.**  
President Poincaré, after conferring this morning with the Presidents of the Chamber of Deputies and the Senate, summoned Prof. Paul Painlevé, Minister of War, and asked him to form a Cabinet in succession to that headed by M. Ribot. Prof. Painlevé reserved definite answer until this evening.

**SCHM. TORPEDOED—CREW LOST.**

**HALIFAX, Sept. 10.**  
The schooner Minas Queen, built in Nova Scotia, and owned by W. C. Job, of St. John's, has been torpedoed and all the crew except boatswain Lewis, lost.

**SPRING-RICE AND BRYAN.**

**NEW YORK, Sept. 10.**  
An Associated Press despatch from Washington to-day says British Ambassador Sir Cecil Spring-Rice and former Secretary of State Bryan bumped into each other to-day in the corridors of the State Department Office. The men threw their arms about each other in a hearty embrace. Passersby declared somebody exclaimed, "Hello there, old boy," and the two men engaged in an animated conversation. Bryan was calling on various secretaries and later lunched with Secretary of the Interior, Lane.

**Your Boys and Girls.**

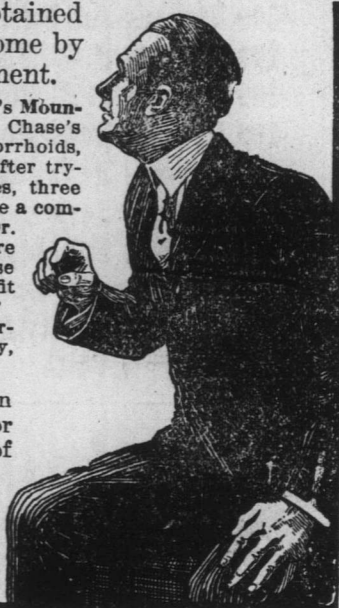

How often we lose our tempers and yet expect our little ones not to. Why is it that we do not consider that a child is most often ignorant of what is wrong? Why is it we do not always carefully look into the reasons for the child doing what may be wrong acts?  
Never severely punish a child for doing a thing he has not been told is wrong to do. Study the dispositions of your children as each requires a different handling. Explain a thing to a child and don't scold or slap them before you find out their explanation. Keep their little minds occupied and give them something to do, something interesting, something they can accomplish.  
Boys like a saw, nails, hammer and some half inch boards. Some boys even like to sew, piece blocks, embroider and crochet. Girls like to cook, bake things like tiny buns, cakes, cookies and pies.  
**GARDEN PARTY.**—To-morrow is the last public holiday for the season. Amongst the events to be run off is a garden party, promoted by Rev. Fr. O'Callaghan, at Pouch Cove, for the benefit of church purposes.  
**KEEP MINARD'S LINIMENT IN THE HOUSE.**

**Piles Cured By Dr. Chase's Ointment**

IT is a surprise to many to learn that there is any cure for piles short of a surgical operation. The doctors have encouraged this idea until the sufferer from this annoying ailment lives in constant dread of the surgeon's knife.

This letter from Mr. Campbell carries a message of good cheer to all sufferers from piles, because it tells how relief and cure can be obtained in the quiet of your own home by the use of Dr. Chase's Ointment.

Mr. Donald M. Campbell, Campbell's Mountain, N.S., writes: "I have used Dr. Chase's Ointment with great success for hemorrhoids, or piles, of fifteen years standing. After trying all kinds of so-called pile cures, three boxes of Dr. Chase's Ointment gave me a complete cure. I have also used Dr. Chase's Kidney-Liver Pills, and there are no others so good. You may use this letter, if you wish, for the benefit of others who may suffer as I did." (Sworn before me, Murdoch Gordon Campbell, J.P., in the County, and for Inverness County.)

You are not experimenting when you use Dr. Chase's Ointment, for it has an unparalleled record of cures to back it up. Beware of imitations and treatments said to be "just as good." They only disappoint. 60c a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

**Thoughts Upon the Times.**

(By PATRIOT.)

In 1914 Newfoundland imported about fifty thousand barrels of potatoes to supply her wants. In 1917 there will be a surplus over and above our local requirements of about three hundred thousand barrels, which at the low price of \$2 per barrel, means \$600,000, or an amount equal in value to the Seal Fishery of 1916. What is going to be done about it? Are we going to see our fishermen farmers offering the produce of their land by and by for next to nothing? How about selling a cargo of two potatoes to the British or French authorities for use of the armies in the field? Nova Scotia and Prince Edward Island have done so. Why not we? It will be poor encouragement to the people to continue farming if they cannot find a market for their surplus produce. It is a food as well as wheat or fish. The money received from the sale of potatoes is as good as that realized from any other produce. Get busy gentlemen of the Agricultural Board and earn your money. You have taught the people how to grow potatoes, now show them how to realize on them.

The Newfoundland Regiment have once more, by their valor, proved that they are of the material of which heroes are made. Told by an outsider, not interested apparently in "Ours," we take the more pride and interest in heroic encounter with the Huns at Steenbeek. As the Daily News says, "it is one more reason why the regiment be retained as a fighting unit." "When can their glory fade." "Oh, the wild chagrine they made." "All the world wondered."

**Magisterial Inquiry.**

**Into Motor Car Tragedy.**

Yesterday afternoon two more witnesses were examined before Judge Morris at the Magistrate's Court in connection with the Parker inquiry. Private Charles Curran, who was in the motor car when the tragedy occurred, and William Snow, who was in the car in the forenoon of that day, gave testimony. Mr. J. A. W. McNelly conducted the examination for the Crown, and Mr. W. J. Higgins was present on behalf of the accused.

**How About Your Motor?**

Do you feed it any old kerosene, and then curse the carburetor for getting out of order?  
Or are you sure to get

**SKIPPER KEROSENE OIL**

Every drop pure—every drop the same. It does away with carburetor trouble.  
Clear-burning, non-carbonizing. Costs less by the mile and by the year.  
Better than any other for the Newfoundland climate—ask any user.  
Skipper Kerosene Oil has no equal for household uses.

STANDARD OIL COMPANY of NEW YORK  
FRANKLIN'S AGENCIES, LTD.

**Do You Weigh the Cake of Soap You Buy?**

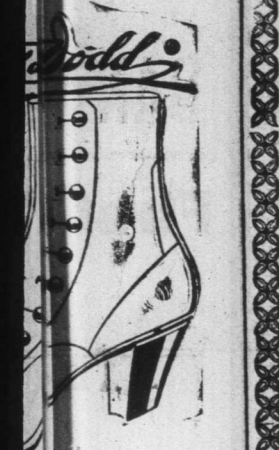

The increase in the cost of nearly everything that is used in the manufacture of soap makes it impossible to give the same size, same weight and same quality as heretofore, *without increasing the price.*

Some soap manufacturers have cut down the size and reduced the quality.

**KIRKMAN'S BORAX SOAP** is the same to-day as it has been for over a quarter of a century—no change in the weight, in the size or in the quality.

When buying laundry soap, be sure you get—Full weight, full size and full quality.
