#### YOU PRESS A BUTTON, THEY DO THE REST!

While you have settled back in your easy-chair, safe from wintry blasts, stop a moment and give a thought to the man miles away in the country, entirely cut off from civilization, hewing timber for pole lines and storage dams, surveying for new construction work for 1923, guarding the big machines in the distant central station.

They are working on one of the greatest jobs in the world! Men do things like this, so that the rest of us can be comfortable.

There's more than a monthly bill for a dollar or two back of those electric push buttons on your wall. Be a partner in an organization that does things!
