

Continued from 1st page.
of Beverly, exhibits a five year old stallion, dark bay, which took the 2nd prize at Guelph in 1871. Mr. Chas. Heffernan, of Guelph, also exhibits his famous "Nichol Champion," which took the 3rd prize last year. There were a number of really first-class stallions exhibited in this class, and called forth the remark from a highly competent judge, that seldom was a better lot congregated in one ring.

In the class of 3 year old agricultural horses, we would remark on a richly dappled bay belonging to Mr. Jas. Young, of Erin, got by a Clydesdale sire, an animal of great life, power and substance; also on a neat, compact Suffolk stallion the property of F. W. Stone; Mr. Alderson, Nelson, also exhibits a fine dark bay stallion in this class.

In the class of 2 year old agricultural horses, Messrs. J. & B. McQueen, Pilkington, exhibit a very neat, tidy horse, though somewhat on the small side. E. McCaig, Puslinch, shows a large powerful animal (dark bay). R. Young, Chincagony, exhibits a very nice, keen, well built dark bay, with fine limbs. D. Fletcher, County of Peel, exhibits a jet black stallion, marked somewhat by white fetlocks.

J. & W. Deans, of Paris, exhibits a pair of very fine yearling agricultural fillies of Clydesdale breed, sired by the celebrated "Champion." Wm. Brown, Hespeler, exhibits a fine 3 year old gelding, of peculiar color, being a dappled roan. Jas. Cattaneau, Puslinch, exhibits a fine large roan agricultural yearling filly, which has already carried off 6 first prizes at various shows. Mr. H. Swackhammer, Erin, exhibits a carriage brood mare and filly foal, which took the first prize at Rockwood. John Tuck, Waterloo, exhibits a yearling carriage colt of considerable merit, also a filly foal in the same class, both the animals are sired by British Champion. Robt. Irwin, Pilkington, exhibits a very superior roadster stallion by Touchstone, and which was awarded the 2nd prize last year at Guelph as a 3 year old. James Keough, Guelph, exhibits a year old bright bay roadster stallion, which took the 1st prize at Guelph in 1871, and which is likely to give a good account of himself in the judges' ring to-day. John Valens, Beverly, exhibits a bright bay filly in the roadster class, which was 1st at Hamilton and 1st at Guelph in 1871, and likely to sustain her position in 1872. R. G. Porter, Grahamsville, exhibits the aged roadster and carriage stallion, "Royal George," which took the 1st prize at Hamilton; he is an exceedingly handsome horse, and commands much admiration.

John McIntosh, Guelph Township, exhibits his famous agricultural brood mare which has taken many prizes at our local shows; also a foal, a colt of much promise, sired by "Briton." Chas. Heffernan exhibits a dark bay 4 years old carriage stallion. Sheriff Davidson, Berlin, exhibits the celebrated Kentucky Blood Horse, Dr. Butler, which took the 2nd prize at Hamilton; also a 3 years old carriage stallion of dark bay color. Dan Heffernan, Guelph, exhibits the well known local blood stallion "Valparaiso." John Miller, Hornby, exhibits a pair of bay roadsters 4 years old, exceedingly well matched as to size and color. John Hobson, Guelph, exhibits one 3 year old roadster gelding, 1 three year old do filly, 1 agricultural filly 3 years old, and 1 do. one year old. Robt. Coulson, Rockwood, exhibits a bright bay 3 year old carriage stallion of great power and size, stands upwards of 15 hands, 3 inches high; also a thorough bred blood mare with foal at foot by Allendale, declared by competent judges to be one of the best colts ever seen in Canada. Jas. Cowan, Guelph, exhibits a very superior heavy draught yearling filly, bright bay in colour, and which it will be remembered took an easy first in her class at Guelph in 1871; she was then the property of Mr. Thos. Dobson of Toronto Gore. R. Hannah, Pilkington, exhibits 1, 3 year old agricultural filly and 1, 2 year old, each of whom were 1st and 2nd prize takers in Guelph in 1871. Hector McCaig, Kirkwall, Beverly, exhibits a span of very superior agricultural mares, 4 and 5 years old, and which will prove hard to beat. J. and G. Keith, Nichol, exhibit a single carriage horse, a prize taker in Guelph in 1871, and a yearling do. filly, sired by "British Champion," and which took the 2nd prize at Guelph in 1871. W. J. Oliver, Peel, exhibits a dark brown agricultural stallion, aged. Charles Austin, Guelph, shows a superior roadster brood mare with filly foal at her foot. A. Harvie, Beverly, exhibits the celebrated Clydesdale stallion, the "Champion," and the very superior three year old stallion of the same breed, which stood at the top of his class in 1871 at Guelph; also a five year old Clydesdale stallion, which took the first prize in Guelph in 1871. In the agricultural class, Charles Austin also exhibits a two year old carriage gelding and a yearling stallion, bright bay in colour, a colt of which any man may well feel proud. This colt is said to stand 15 hands high. A. McGibbon, Milton, exhibits a pretty pair of black roadsters. John Jackson, Peel County, exhibits a truly magnificent 2 year old heavy draught stallion imported from Lincolnshire in 1871, weighs 1,870 lbs., quite black, without any white feet, and took the 2nd prize at Hamilton; also shows a yearling heavy draught stallion, perfectly black, of Lincolnshire, and took the 1st prize at Hamilton. Mr. Jackson has been offered \$2,000 by an agricultural company in the West for the older horse, and \$1,800 for the younger to go to Pennsylvania, U. S., both of which sums have been refused. Jas. Mackie, Woolwich, shows a span of chestnut agricultural mares, which have been very successful at local shows. Mr. Rutledge, Streetsville, exhibits a very stylish promising dark bay stallion in the agricultural class of three years olds, and which has justly many admirers who predict for him the first place of honour in his class.

AGRICULTURAL IMPLEMENTS.
The agricultural machinery and implements are exhibited north-west of the Palace, and make a magnificent show. They cover a large amount of space, and in all respects the show in this important branch of farming industry is equal to that of the Provincial, at Hamilton.

Haggard Bros., of Brantford, exhibit a thrasher and separator, combined reaper and mower, single mower, and power cutting box.

Macpherson, Glasgow & Co., of Fingal, exhibit their well known vibrating threshing machine, also the ordinary thrasher and separator.

Lutz & Co., of Galt, exhibit horse-power and separator, grain crusher, straw cutter, Canis & Gardner's patent root cutters, and a half dozen ploughs for various descriptions of work, among which is a subsoil plough.

Henry Carter, Alton, exhibits a draining plough and ditching machine of rather complicated make, but it is said to do the work effectively.

D. Maxwell, of Ayr, shows a power straw cutter, 2 grain crackers, improved root cutter, pulper for mashing turnips, for young stock, and a Sprague mower.

L. Conist & Co. Galt, make a very creditable show of their implements. They have among others a horse power cutting box, with straw carrier, one very cheap hand cutting box, fanning mills. The cutting box with the straw carrier is

something original and is calculated to effect a great saving in labour, as it carries away the straw after being cut, and deposits it in a heap. As a labour-saving and economizing machine it is invaluable to the farmer. They also exhibit, but not for competition, several very nicely finished and improved fanning mills and straw cutters. Apart from their high character as machines, they are good samples of superior workmanship.

G. C. McKenzie, Georgetown, shows a large horse power straw cutter. A. Whitlaw, Paris, shows an improved straw cutter and grain chopper combined capable of chopping 25 bushels an hour with four horses; a straw cutter, so geared as to cut on the long and short feed, which is at once accomplished by the shifting of a lever. It is also fitted with the improved circular knife; also a root pulper.

John Watson, Ayr, exhibits a combined self-raking reaper and mower, called the "Ayr Clipper," a light single iron mower, called the "Humming Bird," small horse power for two or four horses; wooden field roller; two Gardner's English root cutters; 1 Cant's do, two chopping mills, on a recent invention; 2 large horse power straw cutters, 1 hand do, 2 turnip drills, 1 seuffer and one common iron hill, and one jointer Hill plough, 1 common nine tube grain drill, and one combination do., for sowing manures.

L. D. Sawyer & Co. have a fine collection of implements. They show two seed drills, which took the first prize at the last two Provincial Shows, 1 vibrator threshing machine, which took the first prize and diploma at the late Provincial show, 2 straw cutters, sulky horse rake which took first prize and diploma at Provincial, 2 combined reapers and mowers, single reaper, single Sprague mower. This well-known firm took three first prizes at the Provincial Show last week.

Thain, Elliott & Co., of the Speed Foundry, Guelph, make a fine show with their implements. They exhibit a Johnston single reaper and Sprague mower, horse power straw cutter, hand power cutter (Cummings make) cultivator, horse hoe, gang plough, iron plough, double mould do., iron plough with wood handles, wood do., pair of iron harrows, Pitt's horse power, roller and turnip sower. This firm though only a few months in existence, have turned out a collection of first class implements, which are rapidly growing in public favour. Their Johnston reaper is acknowledged to be one of the best in use.

Mr. R. G. Lambert, of Harrison, exhibits a combined cultivator and scuffer of great merit; also a straw cutter, plough and scuffer, all of which are excellent specimens of workmanship.

B. Bell & Son, St. George, exhibit a combined self raking, mowing and reaping machine, the Ohio Buckeye reaper, with Dodge rakes, with large driving wheels, which makes it easier for the horses; a single mowing machine, of the Ohio Buckeye pattern, with flexible cutting bar and drag bar; a farmer's horse power, for two or four horses, with double jack; a large double field roller, with spring seat; straw cutters, horse power and hand power, with the only solid feed on the ground; two horse cultivator, with two sets of teeth, and drill for sowing two rows of turnips, with cut off for stopping sowing while in motion; seuffer, turnip cutter, in two styles; plough, mold ploughs. This firm make a very creditable display, and well sustain their high reputation as first class implement makers.

J. P. Billington, Dundas, shows two of his improved grain drills. Thomson & Williams, Mitchell, exhibit a gang plough, on the Gray pattern, with some improvements; reaping and mowing machine; fanning mill, straw cutter, horse power; and two horse sawing machine.

McLeod & Mills, Rodgerville, show a new harvester, which can be used as an ordinary mowing machine. This machine has been thoroughly tested, and is found to work well. It will reap a field of peas as quick as any ordinary mower will of grass. The peas after being cut are gathered on the table, and thrown off by a man with a fork. It is guaranteed to cut always round the field. This harvester is the invention of Mr. Robt. Mills, who is now introducing it into the country.

John Walmsley, of Elmira, exhibits a reaping machine with some important improvements. The principle on which it is reaping, by the use of an eccentric, one arm does the same amount of work as five arms in the old self rakers. Another feature of this machine is that it has a double set of knives, working one over the other, scissor like. The chief merit of this is, that with the fewest teeth it is done easier, and with less power than with one set, the motion being slower. The motion on the reaper is less complicated than on the ordinary machines. The reel is adjustable, and can be suited to high or low grain. This reaper appears to be a very valuable improvement, and is well worth the study of the farmers. It is patented for Canada and the United States. The proprietors are prepared to sell rights to any manufacturers who are desirous of going into the business.

A. Harris, Son & Co., Brantford, exhibit the Burdick reaper, the Kirby combined mower and reaper, and Kirby's new two wheeled mower. This firm were formerly located in Beamsville, but are now doing business at Brantford, where they have erected a large factory, and are turning out all kinds of agricultural implements.

John Forsyth, of Dundas, exhibits a reaper. D. Campbell, Guelph, shows one of his favorite fanning mills.

Wm. Eber, Perth County, exhibits his dog-power chum, which is a curiosity in its way, being propelled by dog-power. It is on the old dash principle and is worked either by hand or dog power. It is an ingenious contrivance. The dash is worked on the rotary principle.

D. Thomas, Guelph, exhibits a dash chum on the lever principle, which makes it very easy for the churning. D. Campbell, Guelph, exhibits a dash chum on the crank principle, being easily turned by a handle. It has a hollow bottom for putting in hot or cold water as may be required. This makes it very convenient.

Thos. Forfar shows a dash chum on the lever principle.

THE SHOW INSIDE.
Beginning with the south wing, we find in the centre of the wing the space allotted to CARRIAGES, and we notice that the 1st and 2nd prizes for single seated buggies goes to Galt, the makers being Gilles & Co., who also exhibit a trotting buggy, the 1st and 2nd prizes in single seated buggies, covered, the whole collection exhibiting great taste and good workmanship. W. J. Little, Listowel, exhibit the 1st prize two horse pleasure carriage, open, a single buggy, open, neatly and substantially got up. We did not observe any in this class from Guelph makers.

SLEIGHS AND CUTTERS.
Robert Parker, Guelph, exhibits the 1st prize single pleasure sleigh, reflecting great credit on the maker's taste and workmanship; the second prize is awarded to W. Armstrong & Son, Guelph, for a very well got up, tasteful specimen.

(SEE 5TH PAGE.)

Guelph Evening Mercury

WEDNESDAY EVENING, OCT. 2, 1872

The Central Exhibition.

We are now in a position to express an opinion on the second Central Exhibition, now being held in this Town, and we rejoice to say that in all important respects it is fully equal to, if not ahead of, the one held last year. The Directors, with that forethought which has marked their management throughout, were careful to provide additional accommodation, and it has all been required, and in some instances was even short of the demand. On Tuesday there was not a very large number of visitors on the grounds, but this is not expected on the first day of the Show. To-day, however, made up for it all, for there was a splendid turn out of strangers, and to-morrow we may reasonably expect the crowd to be still greater.

In regard to the most important department of any show—that of Stock—the Exhibition this year is decidedly superior to the previous one, whether in point of numbers or in quality and condition of the animals. In horses this was particularly noticeable, and we heard more than one competent judge remark that in some classes of horses he had never at any show seen a finer display.

It is of course expected that the County of Wellington will always do credit to itself, in the show of cattle it makes at the Guelph Exhibition. Our breeders and farmers are well able of themselves to make such a display of cattle as cannot be matched in any other county in Canada. They have this year turned out their finest herds, which are moreover, supplemented by some splendid animals from a distance. We would refer, especially, to the very superior animals exhibited by Mr. Miller of Markham.

In sheep we have a magnificent show, better in all respects than that of last year. The same may be safely said of pigs, for it would be impossible to find a worthless animal in the lot.

In roots and vegetables we beat the Provincial Exhibition by many degrees. Considering the peculiar nature of the late season, it is extraordinary how such a fine collection of roots and vegetables could be collected.

Inside the Palace there is a very fine display in all the classes. Perhaps in one or two classes the entries are not so numerous as they were last year; but the difference is scarcely noticeable. Every inch of space is occupied, the articles on exhibition are displayed to the best advantage, and from whatever point of the building the visitor looks the general effect is very pleasing.

We may well congratulate ourselves on the assured success of the Show, and on the many marks of improvement noticeable in comparison with that held in 1871.

The Lieutenant-Governor.

It is now arranged that the Lieutenant-Governor will arrive in Guelph to-morrow forenoon by the ten o'clock train from Toronto. He will be received by the Mayor and Corporation at the Station, and conveyed to the Council Chamber, where the civic address will be presented. On the arrival of the train the Wellington Field Battery will fire a salute. His Excellency will then proceed to the Court House, where the County Council will present their address. From that he will be conveyed to the Exhibition Ground, where he will be received by the President and Officers of the Association, and the address presented to him. He will then inspect the Exhibition, and after that the lunch will take place in the Council Chamber, which is being specially fitted up for the occasion.

STATE OF POLITICS IN NEW BRUNSWICK.—Further information from New Brunswick confirms the statement made by Mr. Mackenzie, that the majority of the N. B. members will give their adhesion to the Opposition Leaders; it is also hinted that a certain member elected as a Union and Progress candidate, in a constituency not a hundred miles from Hamilton, has stated that, in the event of Mr. Blake becoming leader of the Opposition in the Dominion, he will support him.

GLORIOUS FOREBODING.—The correspondence of the Hamilton Times, writing from Toronto, says:—"Evidence of an impending financial crisis are apparent here. The stringency of the money market and the general mistrust existing is the chief topic of street conversation. A rumor is current here that King of the Bank of Montreal has been speculating heavily in New York and Chicago."

HARRISTON CORRESPONDENCE.
The Fair. There were a great many cattle on the fair ground on Friday last, the enclosure containing nearly two acres of land, being almost completely filled, and a good deal of business was transacted. But prices in the great majority of instances did not suit those having stock to sell, and the sales were not nearly so numerous as they would have been had prices ruled somewhat higher. The following only were noted:—

George Anderson, 9 head \$324; D. Ferguson 1 heifer \$21; Edward Cooper 1 do \$26; John McKenzie, 1 steer, \$32; R. Fyfe, 1 do. \$19; Thos. Walker, 2 cows, \$45; Robert Smart, do. \$50; Jas. Tait, 1 yoke steers, \$60; H. Shaw, one heifer, \$26; M. Newman 1 yoke of oxen, \$110; John Allan 1 yoke do., \$88; Jacob Butts, do. \$105; Wm. Gallagher, do. \$112; John Connolly, 1 yoke steers, \$80; Malcolm McMaster, 1 yoke oxen, \$142.50; Alex. McDougall, do. \$39.50; M. Han, 1 steer, \$25; Geo. Jackson, 1 cow, \$30; Thos. Haight, 1 yoke steers, \$45; John Wallace, 2 yoke do., \$90; S. Leonard, 1 do., \$45; B. Keane, 1 heifer, \$17; Wm. Anderson, 1 steer, \$13.

PROVINCIAL EXHIBITION.
In the Globe's list of prizes, class 48, section 6, B. Mitchell of this village is credited with 2nd prize for Hand Power Wood Sawing Machine and Railway Castings. He exhibited neither, but got the 1st prize for his Champion Wood Sawing Machine (horse power) which it omitted in the last mentioned catalogue. Rains here every day, hope it will clear up for your great show, at which there will be a large turn out from the North. Harrison, Oct. 1.

An Ottawa evening paper, in view of the fact that the West persistently opposes the claims of Ottawa to have the Provincial Exhibition held there, suggests an Eastern Provincial Exhibition to be held alternately in Kingston and Ottawa.

THRASHING MACHINE ACCIDENT.—Isaac Beavoy, of the township of Eramosa, had his hand taken off by a thrashing machine on Tuesday morning. While engaged in oiling the machine his right hand was caught in the gearing and torn off from the wrist.

MEDICAL DISPENSARY.

The Subscribers would beg to intimate that they have just received their fall stock of

Drugs and Chemicals.

Dye Stuffs, Fancy and Toilet Articles, Hair, Nail and Tooth Brushes, Combs, Soaps, Perfumery, in endless variety.
