BREAKPAST.—Epps's Cocca.—GRATAFUL AND COMPORTIES.—By a thorough knowing edge of the natural laws which govern the operations of digestion and nutrition, and by a carrieff application of the fine properties of well-selected cocca, Mr. Epps has provided our breaktast tables with a delicately flavoured beverage which may save us many heavy dect. rs'billis." "Civil Service Gazette. Made simply with boiling water or milk. Each packet is labelled "James Epps & Co.", Homosopathic Chemists, London."

To Business Men.

The circulation of the Mercury and Advertiser being nearly five times that of any other paper published in the County of Wellington, business men and others would study their own interests by advertising in the Mercury and Advertiser. Advertiser.

FACTS FOR ADVERTISERS.

In this, as in everything else, the best papers will command the best prices. It is cheaper to pay 5s. for inserting your advertisements in a journal having a curculation of 5,000, than to pay 2s. for one that has only a circulation of 1,000. Of this you may be sure, that any journal that inserts advertisements too cheap, is, in fact, an almost worthless medium. If it were really a good one, it would have 10 need to lower its prices, for its sheet would be better filled without the sacrifice. You may lay it down as a rule that every journal knows its value, and thet if it adopts low prices it is because it is conscious that it has a low circulation in number or respectabilty.—Wilson's Handbook for Advertisers.

TO PLACKSMITHS.—There is a good opening for a blacksmith at Brisbane, in the Township of Erin. For particulars, apply to G. J. Mackelcan, Postmaster, Brisbane.

As Numerous cases of Forsoning.

As numerous cases of Forsoning.

As numerous cases of the public of Hypophosphare and cataing styronine, without being properly labelled, purchasers of Dr. Wheeler's Compound Elkir of Phosphates and Calisaya are requested not to confound the two preparations, as is frequently done, under the impression that both are of the same medicinal properties. Phosphates are necessary elemens of the animal organism, and absolutely essential the composition of every solid and fluid of the buman body, and are the natural exciting agents of the functions of nutrition, and determine perfect cell formation and the growth of tissues. For supplying the waste resulting from mental and muscular exertion there can be no substitute for Phosphates while the system remains chomically constructions of the action of hypophosphites has led to false deductions and errors in practice, and greatly misled the public as to their true merits.
