Peculiar in combination, proportion and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom.

Peculiar in its medicinal merit, Hood's Sarsaparilla accomplishes cures hitherto unknown.

Peculiar in strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "100 doses one dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's Sarsaparilla.

Peculiar in its "good name at home"—there is more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers.

Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time. Do not be induced to take any other preparation. Besuretoget

Several of Munceytown's bravest warriors sallied forth on Saturday afternoon to take the scalps of the Delaware baseball team on the diamond. At intervals after leaving the reserve scouts were sent forth to size up the Delis, who were at practice, while the main body, hampered by two bats, a mask, a ball, the hot sun and an inclination to take their time, made but slow progress. The reports brought in by the runners were not cheering, and several councils of war were held on sacred ground—ground on which in days long past hundreds of warriors had died while fighting for their homes. In consequence of these repeated halts, it was getting on to 6 o'clock before Big Bear, heading the main body, put in an appearance. By this time the Dells had three hours' practice and were anxious to start. At last the fearful battle royal commenced. "Never-take-back-water" went in the box and retried the Dells for war war. PALEFACES AND REDMEN PLAY BALL.

the fearful battle royal commenced. "Never-take-back-water" went in the box and retired the Dells for one run. When "Strike-him-iu-the-back" went up to face Bert Robinson's neck-twirlers his friends expected to see the festive sphere lose itself on the other side of the hills, But a kink in his war-club, through which the gentle zephyrs played three short, heart-rending tunes, told the tale. Then the slugging started. Big Bear meant business, and when he got his lanterns on the hall she went sailing, sailing, oh, so nicely, into the hands of a left fielder. Again they took the field, and the scores loomed up large and brilliant. Home runs and three-baggers were cracked out withand three-baggers were cracked out with-out mercy on the ball. During the second inning the umpire gave a couple of deout mercy on the ball. During the second inning the umpire gave a couple of decisions decidedly against the Munceyites. The Indians raised objections, and Wm. Robinson, king of his class, stepped into the breech. In the sixth another rupture occurred. The Dells wished to substitute Lucas, their regular pitcher, for a man who was not injured in any way. The score was about even and the Dells were fearsome of the result. The Indians claimed it unfair to put on a fresh man against them when no one was injured, but the umpire claimed it was according to rules, and the game proceeded. About 8 o'clock, amid the setting of the sun and the din of two, three and four pounders being cracked out, the majority of the spectators left to join the overworked scorer in seeking repose. When the game ended was not officially known, but perhaps kind night came to the players' relief and folded them in her mantle of darkness. The features of the game were the ceaching of "Hole-in-his-lungs," whose war-whoop

The Dairy Inspectors.

STRATFORD, June 16.—Messrs. Millar, Hopkins, Waddell and Williams the recently-appointed dairy inspectors met A. F. McLaren, chairman of the Executive Committee of the Westen Dairymen's Association, at the Tavistock dairy school yesterday for the purpose of presenting a report of their work since their appointment and receiving instructions as to their duties in the coming four weeks. The inspectors reported having visited several factories in their respective districts. They also reported applications for inspections from 112 of the leading factories west of Toronto. This number, they expected, would be doubled. The use of Dr. Babcock's milk tester, together with Quevynse's Inctometer, is proving highly satisfactory, as by this means the inspector is canabled to inform the factory men of the value of each factory's milk, being able to ascertain if the milk has been skimmed, watered or tampered with in any way. The Executive Committee are deing able to ascertain if the milk has been skimmed, watered or tampered with in any way. The Executive Committee are determined that the work of the inspectors hall be thorough this season, and that any posatron found delivering milk which has in any way been tampered with shall be exposed and punished. The next meeting of the inspectors with Mr. McLaren will be held at Tavistock on July 13.

With regard to the marriage remit, which was, "The discipline of the church shall not be exercised in regard to marriage with a deceased wife's sister or a deceased wife's niece," the report was as follows:

"Twenty-one Presbyteries approve simplicity; two substitute "need" for "shall;" one Presbytery leaves out "niece." A majority of the Presbyteries did not report at all. In view of the latter fact Dr. MacLean moved that the matter be referred to the Committee, on Bills and Overtures to be reported upon on some future date. The motion was carried.

Overtures asking for summer sessions in colleges were read from the Presbyteries of Toronto and Brandon.

Dr. Robertson, superintendent of Sessions in the Northwest, and Prof. Brice, Winnipeg, spoke in favor of the overtures and pointed out that if summer sessions were held in theological colleges in summer students would be free in cold weather. The matter was referred to committee.

The report of the western section of the Aged and Infirm Ministers' Fund Committee showed receipts from congregational contributions to be \$9,597; ministers' rate, \$2,148; interest, \$1,671; total increase over previous year, \$1,609. Still there is an adverse balance. In order to secure Sir Donald Smith's conditional donation, energetic efforts will have to be made to raise the proposed \$200,000.

The report of the board of management of the church and mause building fund showed that during the nine years the board had been in existence it had helped to build 147 churches and 24 manses. The buildings had been valued at \$212,660, and the total aid to them was \$72,427. In last year's report the board appealed for larger help from the church for the work, but apparently the appeal was unheeded. At the inception of the fund the aim was to have a capital of \$100,000, but only about half of the sum was obtained owing to causes already reported to the Assembly. A resolution was adopted that the committee he authorized to take whatever steps may seem practicable to increase the capital to at least the original figure, viz., \$100,000.

capital to at least the original figure, viz., \$100,000.

The report of the Board of French Evangelization tor the year ending May 1, 1891, was presented and was of an encouraging nature. In summarizing the report it appears that there were 36 congregations and mission fields. In these the Gospel was preached at 93 stations to 973 Protestant families, and many more who are not nominally Protestant. One hundred and ninety-seven were received into the church, making a total membership of 1,812. Eleven hundred and thirty-six scholars attended the Sabbath schools. The people contributed \$5,990. One thousand and fifty-nine scholars, of whom 363 were from Roman Catholic homes, were enrolled in the mission day schools.

The Village of Casselman Partially De stroyed—A Big Blaze at Halifax. The Village of Casselman Partially Destroyed—A Big Blaze at Halifax.

Ottawa, June 16.—The village of Casselman, on the line of the Canada Atlantia Railway, was partially destroyed by firstlast night. The saw mills of the Casselman Lumber Company are in ashed and the immense lumber piles, together with six houses and one stable, are a heap of smouldering ruins. The burned district includes 30 acres on the south of the Nation River. The occupants of the houses—mostly mill bands—managed to save their effects. A fire engine was sent from Ottawa. Loss of mill, \$40,000; lumber, \$70,000; six housed and stables, \$5,000. Total, \$115,000. The insurance is about \$70,000. Two hundred men are out of employment.

HALIPAX, N. S., June 16.—Fire was discouered at 4 e'clock this morning in Moir's big bakery fronting on Argyle Duke and Grafton streets, one of the largest and best equipped establishments of the kind in the Dominion. The entire structure is in ruins. The loss will be about \$100,000; insurance about \$20,000. Several hundred men and boys are thrown out of work.

On Monday night about midnight the fire alarm sounded, but it was found to be only a burning brush heap near the Fourth Line.

The directors of the West Middlesex Agricultural Society met in the Firemen's Hall on Saturday afternoon and received the report of Messrs. Curric and Healey, who had been in Aylmer seeing the agricultural building there. After discussion it was resolved to prepare plans and specifications much the same as the Aylmer building and ask for tenders. When tenders are received it will be decided at a meeting to be held shortly whether to build this year or not. It is supposed the cost will be in the neighborhood of \$2,000, and meantime efforts will be made to get assistance from the municipal councils.
