What the Strikers Demand.

Even the Cossack patrols in keeping idlers moving in the streets today seemed careful not to use their whips, and simply drove the crowds along before their advancing horses. A meeting of the municipal council was held this evening, at which a deputation of 30 members of the strikers' committee appeared. In an impassioned speech, the leader of the deputation presented the following demands of the wormen and affiliated organ-

First-A constitutional and political liberty. Second-That the city furnish food to the workmen. Third-That the city refuse further supplies to the troops and the police. DROPPED A BRICK AND GOT THEIR MAN

Dresner Hid From Police Up a Chimaey, but They Dislodged H.m.

New York, Oct. 28. - Jacob Dresner is only a journeyman shoemaker of Williamsburg, but he is wise. He saw Police Captain Pinkerton and Detectives Meehan and Callins approaching his home at 9 o'clock last evening, and he scrutinized them with care. They were piain clothes and still plainer diamonds, and to an unsuspecting eye seemed to be merely three of Williamsburg men about town sauntering for health; but Dresner took one look at their feet and fled up into the

The police had a warrant which was sworn out by Ellas Krautman, a leather manufacturer, of No.374 West Houston street, New York, who charged Dresner with stealing \$500 worth of uppers, soles and heels. The door of Dresner's apartment on the second floor was locked. Capt. Pin-kerton put his shoulder to it and it flew open with a crash. But no Dresner sight. The captain took Meehan aside and whispered to him. Meehan grinned and ran up to the roof.

Meehan found four chimneys, and he ouldn't guess which one Dresner had climbed into; so, in his joyous, care-free way, he began dropping half-bricks down one chimney after another. "Oh!" came a muffled voice from far below. It was the voice of Dresner. "Get down out of that!" yelled Mee-

han.
"Na-a-a-h!" Dresner replied. and dropped it down the chimney growled Dresner. There was silence for a few seconds, and then came scraping scuffling sounds as Dresner slowly

climb. Suddenly he yelled: "Oh! Oh! Leggo me feet!" he roared. There was a rasping, scraping noise, and then a loud bump. "Falls as if he weighs a ton," Mechan mused as he ran down the stairs. What happened was this: Collins heard Dres-ner grean when the first half-brick hit him, and climbed up inside the chim ney after him. After ascending eight et he struck Dresner's foot, grabbed him and yanked him down." The police found a great deal of the missing leather hidden in the chimney and the fireplace, which had never been used for a fire. They locked Dresner up in the Bedford avenue station.

WHY DOCTORS FAIL

AND MRS. PINKHAM SUCCEEDS

Plain Reasons Are Here Given to Explain Why Lydia E. Pinkham's Vegetable Compound Cures When Doctors Are Powerless

A woman is sick; some disease peculiar to her sex is fast developing in her system. She goes to her family physician

and tells him a story, but not the whole story. She holds something back, loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and thus D

completely mystifies the doctor. Is it any wonder, therefore, that the doctors fail to cure the disease? Still we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her N family physician.

It was for this reason that years ago Mrs, Pinkham, at Lynn, Mass., determined to step in and help her sex. Having had considerable experience in treating female ills with her Vegetable Compound, she encouraged the women of Canada to write to her for advice in regard to their complaints, and being a woman, it was easy for her ailing sisters to pour into her ears every detail

to do, simply because she had the proper information to work upon, and from the little group of women who sought her advice years ago a great melec's Vegetable Pills before they were melec's Vegetable Pills before they were army of her fellow-beings are to-day brought to the state in veconstantly applying for advice and refirst offered to the public. lief, and the fact that many thousands of them have been cured by following the advice of Mrs. Pinkham following the advice of Mrs. Pinkham during the last year is indicative of the grand results which are produced by are represented to be. her unequaled experience and training.

How Good Food may turn to Poison

ECAY is not digestion, you the food, just as Saliva mixes with Casknow, even when it takes place in the stomach. Food decayed in the body

after being eaten is as dangerous to health as food decayed before being eaten. Food nourishes or poisons, just according to how long it remains in the Bowels undigested.

Cascarets are the simplest and surest safeguard against Delayed Digestion yet discovered.

Sold in a thin Enamel Box, half as thick as your watch, which fits into the vest pocket or lady's purse as if it grew

In this round-edged Enamel box are found six small Candy Tablets. One of these toothsome tablets works

wonders for digestion. Soon as placed in the mouth it starts the Saliva flowing, which at once gets to work dissolving It.

The Saliva becomes blended with the Candy Cascaret tablet, and from the moment they start going down your throat together they start working together. Now, what do they work at? Bowel-

work, of course, -Digestion.

Some folks think Digestion tales place in the Stomach only.

But that's a great mistake! Most of the Digestion occurs in the thirty feet of Intestines that connect with

This Nutriment is then carried into the Blood, and spread over the Body as Brain, Bone and Brawn.

But, when the Bowel-Muscles are weak. the Food moves too slowly to stimulate Leaving Montreal at 12 noon daily, exthe little Gastric Mouths and there is no flow, or too little flow of Digestive Juice, to change the food into nourishment.

Then, the food decays in the Bowels, and in the thirty feet of Intestines. When this Decay begins the little suction pumps draw Poison from the decayed Food, into the blood, instead of the Nutrition it should have drawn.

Now, Cascarets contain the only combination of drugs that Stimulates these Muscles of the Bowels and Intestines just as a Gold Bath, or open-air Exercise, stimulates a Lazy Man.

Cascarets therefore act like Exercise. They produce the same sort of Natural result that a Six Mile walk in the country would produce, without any injurious Chemical effect.
