IMPOSES COSTS IN ACTION EVOLVING LOT BOUNDARY

Special to The Advertiser. Blenheim, Nov. 9.—In the police court here this afternoon a charge against James McCracken, George McCracken and Lynch was dismissed by Magistrate S. B. Arnold of Chatham, on the grounds that the defendants did not realize they were removing surveyors' monuments. The charge was laid by the request of James Mattimore, whose property adjoins that of James McCracken. Mattimore had had a surveyor to mark the boundary between their two lots. Posts were set under the

supervision of the surveyor by Mattimore on the line as found by the surveyor. McCracken disputed the line, and the three pulled the posts and the charge was laid. The case was dismissed with costs. The case came up for hearing a couple of days ago, and was adjourned, and today it was finished. Costs amounted to around \$50. The amount of property in dispute was about two feet. H. D. Smith, crown attorney, prosecuted for the crown. O. L. Lewis of Chatham defended. Mr. and Mrs. A. J. Morgan of London visited the former's mother here the week-end. Mr. and Mrs. Neil C. Campbell of Ridge road, East Harwich, have moved to their new home in Windsor. Mr. and Mrs. James Chalmers, who have been here for the summer, have

moved to Port Dover. Mr. Chalmers was in charge of the Webster Construction Company's contracts here in Harwich this season. AUTHORIZED REPAIRS TO RIVER BRIDGE AT PARIS Special to The Advertiser. Paris, Nov. 9.—To consider the very urgent question of repairing the Mith Creek bridge, a special meeting of the council was held in the clerk's office. It was moved by Reeve Isaac Stewart and seconded by Deputy-Reeve Thomas Evans, that the road superintendent be authorized to proceed with the retaining wall on the Mith River, and whatever work was deemed necessary by the town engineer. It was decided that all labor required was to be local. The matter of doing away with the dilapidated fence around the old cemetery also occupied the attention of the council. It was moved by Alderman G. F. Huson and seconded by Deputy-Reeve Thomas Evans that the fence around the old cemetery be sold and the proceeds turned over to the cemetery committee. STEAMER ARRIVALS. New York, Nov. 9.—Wurtemberg, Hamburg; Homeric, Southampton. Plymouth, Nov. 9.—Reliance, New York. Antwerp, Nov. 8.—Kroonland, New York.

PREMIER LAW SEES NEED OF COLONIAL AID

British Prime Minister Deals With Foreign Policy of Government.

ALL ALLIES IN HARMONY

London, Nov. 9.—(By Canadian Press.)—Speaking at the annual lord mayor's banquet at the Guildhall tonight, Prime Minister Bonar Law dealt with the foreign policy of his government, and laid special emphasis on the fact that the British foreign policy must have the support of the dominions throughout the empire. "The fact is," said the prime minister, "that in the great dominions sprang into manhood in their relations to the Mother Country and there were changes in that hour. They will never be the same again. As Lord Curzon said yesterday, in all our policy we have to think not only of public opinion at home, but have to use every means in our power to make certain that we have the support of public opinion throughout the empire. "I think, also, it is no disadvantage—not to put it any higher—that just at the time when those dominions have reached manhood a man born in one of them should be prime minister."

Referring to conditions in the Near East, Mr. Bonar Law said: "You know what the position is at the moment in Constantinople. I cannot tell you anything new, except this: that so far all the allies have acted as we are acting, with the most complete harmony and without animosity. I say this also, as I have every reason not only to hope, but believe, that if this continues the difficulty will be overcome. There is only one way at this moment in which peace can be secured and the trouble of Europe overcome, and that is that the allies who won the war together should act in concert to secure this peace which they alone can secure. If I speak of only two of them, it is not because I do not think of the others, but because these two are especially interested in the trouble in the Near East."

He shall speak first of Italy. We do not forget that Italy came into the war at the most critical time of the war. We do not forget she has suffered as much as any other nation, and that it was precisely the invasion of Italy by the Germans five years ago which made the house look so bleak. The people of this country do not forget these things, and whatever truth may be at the surface at heart there will be a deep sense of comradeship with the nation that played that part. And what about France? As his excellency was speaking of the war with no small pleasure that it was I who was privileged, when Paul Cambon gave up his post as ambassador to Great Britain to propose his health at a meeting convened for that purpose. You may find what you like in French and English newspapers, but this generation at least will never forget the part we played together in the greatest crisis in the history of the world. Starts With Advantage. "All these things are not going to be forgotten. There is only one way in which peace can be secured, and that is that the allies should act in concert. That may not be always easy. If it was not easy during the war, I had myself opportunities for knowing how the difficulties may be, the government starts with this great advantage—we start with goodwill, and we all know that you cannot have unity which never has been equalled, and which had their bearing upon the industrial position at home and are the cause of a large part of the unemployment. I put excess profits duty to 80 per cent. I am sure it was right, but I was as certain when I did it as I am now that it was bound to cripple the industry, and hereafter be bound to be felt by individuals all over the country. It is very unsafe to assume that because of the financial situation is stronger that the great body of the people have not suffered or are not suffering quite as much as our allies."

HOLD ANNIVERSARY SERVICES AT BOTHWELL

Special to The Advertiser. Bothwell, Nov. 9.—The Reorganized Church of Jesus Christ of Latter Day Saints, held their annual anniversary Sunday, Nov. 5, in their handsome brick church, which is certainly a credit to the congregation, as well as the town, few towns of its size having such a handsome edifice. The three services on Sunday were conducted by Elders Russell, Flagg and Liston, all of which were to full houses. Monday evening they gave a chicken supper, the tables being constantly filled from about 5 to 8:30 o'clock. The Thessalonians Concert Company put on a play entitled "Nothing But Truth." During the evening while the dining hall was thronged in the basement of the town hall, the waiting audience was entertained by Mr. Liston of Flint, Mich., to the enjoyment of everybody. Speeches were made which the hosts of the concert by Elders W. Flagg and R. C. Russell, both of Independence, Mo. The proceedings from start to finish met with the hearty approval of the entire audience, and the Bothwell Saints, as usual, kept up their name of being second to none for their splendid anniversary.

Each little Want Ad points a way to success in one field or another, to some reader.

THOUGHTS of the coming election bring a cheerful smile to the face of Lloyd George in his brief rests between speeches. The former prime minister is shown here with his private secretary, Shakespeare, at Farnley Hall, Leeds.

Marsh Gas Found Responsible For Explosion Which Caused 81 Deaths

Spangler, Pa., Nov. 9.—Menthan—commonly called marsh gas—was responsible for the explosion in the Rellly Mine Monday, which claimed a toll of more than three scores of lives. This conclusion was reached tonight by Seward Burton, chief of the state bureau of mines, who completed the first phase of an investigation to fix responsibility for the disaster.

"Menthan is generated by vegetable matter in the coal," he said. "The actual explosion was comparatively slight. Most of the lives were claimed by the after-damp." Forty of the victims were buried today.

MAY BUILD \$34,525 BLENHEIM SCHOOL

Board of Trustees Stress Vital Need of Building At Public Mass Meeting.

Special to The Advertiser. Blenheim, Nov. 9.—A public meeting was held in the Opera House here last evening to discuss the proposal of building a new continuation school, the cost of which had been set at \$34,525. Mayor J. B. Little presided. Mr. G. Mills, continuation school inspector, was the chief speaker after Mr. R. L. Gosnell, chairman of the board, and Mr. W. J. Baird, secretary-treasurer, had outlined the situation clearly and concisely. Mr. Gosnell pointed out that the board had unanimously decided that the best thing to do was to build, and that there was nothing to gain and much to lose not to do so. He concluded that it will cost the ratepayers between 2 1/2 mills and 2 3/4 mills more in school rates in future, whether or not they build, as if no building is provided the government and county grants will be cut off. He considered it a gain to have students come from outside to the school. Mr. Baird dealt with the financial side of the question and pointed out the sources of grants and what they amounted to, and showed how the cost of building and maintenance would be covered. His explanation was most convincing, and Inspector Mills, in following his reasoning, corroborated his statements, and also said more that Mr. Baird had shown the ratepayers the situation from the darkest point of view, and that in his opinion it would not cost the ratepayers as much as Mr. Baird had stated.

In a most interesting and straightforward address, the inspector showed the ratepayers the situation from the department and his point of view. He pointed out that many places less able than Blenheim had tackled the problem of building and had come out satisfied that they were doing the right thing. He was sure Blenheim would build, if they do not do so immediately they will see their folly soon and build. He pointed out that the department and county could not continue to give the present grants unless the town meets the requirements. He said: "To continue to get public assistance you must meet the conditions fairly. We will not be withholding the grants if you do not build, but you yourselves will be cutting them off, because you will not be earning them. My duty is clear. I must deal fairly with all municipalities. I would not be doing so to continue to recommend grants."

DISPLAY ONTARIO APPLES AT LORD MAYOR'S SHOW

(By HENRY SOMERVILLE.) Special to The Advertiser.

London, Nov. 9.—Canada's share in the lord mayor's show today was a peace exhibition of the Dominion as a land of sunshine and plenty. Canada's car bore an impressive display of fruits of her soil, Ontario apples being particularly in evidence. A group of 30 Canadians in London watched the procession from the balcony of the Ontario government's office on the Strand, at the invitation of the agent-general. The group included W. F. Cockshutt, wife and children, and several Canadian teachers in London schools under the exchange system. Those among the Canadian onlookers who were in London during war years compared this display of Canada's resources in peace with the spectacle presented by Canadian soldiers who marched in procession each year from 1914 to 1918. The majority of those Canadian boys are now happily back in Canadian homes, others sleep in Flanders fields, but their memory endures.

WOULD SUPPORT CHANGES TO GET U. S. INTO LEAGUE

Birmingham, England, Nov. 9.—Austen Chamberlain declared in a speech here tonight that there was hardly any alteration in the statutes of the League of Nations to which he would not consent, and consent gladly, if by so doing the American people could be induced to join that great body.

PLACE WREATHS ON BASE OF MONUMENT

School Children of Stratford To Pay Honor To City's Fallen.

Special to The Advertiser. Stratford, Nov. 9.—Tomorrow afternoon all school children of the city will parade to the soldiers' memorial and place wreaths on the base of the monument. According to officials of the Stratford district of the G. T. R., the past week has seen a remarkable increase in freight handled over the corresponding period of last year. In the first seven days of November this year the increase is approximately 20,000 tons over a year ago. The local Red Cross Society has undertaken to support one bed at the new nursing post to be established at Englehart for the benefit of the sufferers.

Three hundred railway clerks in Stratford division will be affected by the wage reduction on November 20. The reduction will amount to \$4.12 per month in the case of clerks and office employees. The marriage took place here at Emma Ratt of Hanover to Thornton Whiting of this city.

TRAIN HITS OPEN SWITCH SMASHING HAND CAR

Special to The Advertiser. Petrolia, Nov. 9.—Grand Trunk train No. 11, running from Woodstock to Petrolia, ran into an open switch on the new Petrolia Sugar Company's siding Wednesday morning. The train was proceeding at a fair speed, when the passengers were startled by a sudden swerve and a crash. A hand car belonging to the sugar company was completely demolished and the side of the engine was also damaged. The siding, which is under construction, and has not been ballasted yet, was but slightly put out of order and can be repaired in a short time. A speed engine was rushed to the scene and brought the coaches and baggage car to town. It is thought that the switch was left open by some workman, but it is not known yet who the offender was.

David Devar was fined \$30 and costs for promises to keep liquor in other than a dwelling place by Magistrate Woodrow. Special officers raided Devar's home and found a small quantity of liquor stored in a secret cupboard in the wainscoting. The search was continued throughout the whole day, but nothing further was found. This is the third conviction for Devar under the O. T. A. Fire destroyed the barn and contents of Mr. Farnham of the sixth line of Enniskillen last evening. The origin of the fire has not yet been determined.

The funeral of Mrs. Anthony Douglas was held Wednesday afternoon at Hillside Cemetery. Mrs. Douglas was a highly esteemed resident of Petrolia for a number of years, and will be greatly missed by her friends. The deceased had been ill for a long time and her death was not unexpected. Mrs. Douglas was 82 years of age.
